Methodology: Percent at Levels 3 & 4 compares the aggregate of all students tested in the charter school to the aggregate of students in the same tested grades in the local district.

¹ This school opened in September of 2008 and the English language arts exam was given just over six months later in February of 2009. Thus the test results reported are more reflective of students' abilities upon entering the school rather than the performance of the school itself and should be used for baseline purposes only.
