

14. Community Relations

(a) District Relations

Provide supporting evidence of any explicit support for the proposed school from the school district in which the school intends to be located. Also include;

Strategies for establishing and maintaining an ongoing relationship with the local school district including any foreseen opportunities or challenges; and,

A description of low-performing schools in the area where the proposed charter school intends to be located and explain how the charter school might partner with those schools to share best practices and innovations.

Thousands of parents in CSDs 2, 3, 9, 13, 14, 15, 17, 18, 22, 23, 24, 27, 28 and 30 have expressed their support for a new school operated by Success Academy in their neighborhood. Please refer to Response 14(c) – Evidence of Community Support A-N for copies of approximately 24,000 petition signatures from community members who “would be interested in sending [their] child to” a Success Academy school in the relevant CSD or “would support this school opening.” Signature totals to date are over 1,600 from CSD 2, 2,050 from CSD 3, 1,500 from CSD 9, 1,550 from CSD 13, 1,600 from CSD 14, 1,600 from CSD 15, 1,650 from CSD 17, 2,250 from CSD 18, 1,500 from CSD 22, 1,700 from CSD 23, 1,650 from CSD 24, 1,700 from CSD 27, 1,900 from CSD 28, and 1,650 from CSD 30.

The petition signatures were obtained by canvassers who verbally provided basic information about this proposal and/or distributed flyers in English and Spanish. The petition informs signers that an application will be submitted to open the proposed school in August 2015 or August 2016 in the relevant CSD, and the proposed grades of the school. The petition language also directs signers to the Success Academy website for additional information. The flyers distributed indicate that an application will be submitted to open the proposed school in August 2015 or August 2016 in the relevant CSD, and the proposed grades of the school. The flyers also actively solicit public comment, include an e-mail address to use in order to do so, and direct the public to the Success Academy website for additional information. Please refer to Response 03(c) – Outreach Evidence II for English and Spanish copies of the nearly 12,000 flyers distributed in CSDs 2, 3, 9, 13, 14, 15, 17, 18, 22, 23, 24, 27, 28 and 30. For additional evidence of community support, please see Response 01 – Community Need, Response 03 – Proposal History and Response 15 – Student Demand.

Intended Strategies for Establishing and Maintaining an Ongoing Relationship

Success Academy has employed, and intends to continue to employ, a robust outreach plan for communities in the proposed CSDs. Success Academy does significant outreach when entering a new community. This outreach includes conducting information sessions, visiting preschools

and churches, canvassing the neighborhoods and passing out flyers, conducting tours of existing Success Academy schools, and other outreach. Success Academy also conducts information sessions with Spanish speakers present and widely distributes Spanish marketing materials. Success Academy will continue this proactive approach in establishing and growing relationships with the communities of 2, 3, 9, 13, 14, 15, 17, 18, 22, 23, 24, 27, 28 and 30.

Sharing of Best Practices

Please refer to Response 01 – Community Need for a discussion of the performance of schools in the relevant CSDs and how Success Academy seeks to share best practices with neighboring public, public charter, and non-public schools, including the practice of setting consistently high expectations. As noted in Response 01 – Community Need, zoned schools that are co-located with existing Success Academy schools have already begun adopting some of Success Academy’s best practices. For example, one school has modeled parts of its school culture on an existing Success Academy Harlem school, including posting college paraphernalia on classroom doors and hallways. Success Academy leaders also published a book in 2012 to share best practices in literacy instruction and teacher training. Success Academy regularly shares best practices with zoned public schools. For example, at Success Academy Charter School – Bronx 2, the Principal has been advising the co-located district Principal on best instructional practices. At Success Academy Charter School – Harlem 2, the Principal accepted the co-located zone school Principal’s request to learn about Success Academy’s literacy program so that the zone school can consider adopting it. To help facilitate, the co-located Principal has observed instruction with the Success Academy Principal. Similarly, at Success Academy Charter School – Harlem 3, the co-located district school kindergarten teachers observed Success Academy classroom instructional practice and discussed a shared sample lesson plan.

These are a few of many examples of Success Academy sharing best practices. More instances have occurred on a formal and informal basis. Entire school districts from across the country have visited Success Academy schools to adopt best practices. In 2013-2014 alone, approximately 290 individuals from 70 different organizations, including DOE schools, other charter schools, colleges, universities, pre-schools, and other educational organizations, toured Success Academy schools. Dozens of visitors came from public school systems. Success Academy has also shared curriculum materials and hosted two conferences with school leaders.

Success Academy is constantly exploring ways in which its practices can benefit educators more broadly and is open to input from the communities in which it operates, the Charter Schools Institute of the State University of New York, or the New York City Department of Education on additional strategies to share best practices.

(b) Community Relations

Describe any explicit support for this proposal from community stakeholders or

others, including an analysis of both the depth of support and opposition to the school.

As discussed in Response 03 – Proposal History and Response 14(c) – Community Outreach, Success Academy outreach has led to numerous expressions of interest and/or support in the proposed schools. The support for the schools is expressed through applications from community members, petition signatures, and written comments.

No concerns have been raised about the quality of Success Academy schools or the proposed instructional program. Indeed, Success Academy schools are widely hailed as among the most high-performing in New York State. Several community stakeholders have voiced concerns, however, about the policy of co-locating multiple schools in a single building and/or the availability of space. Please see Response 03(c) – Outreach Evidence M and JJ for comments received to date, including questions or concerns about the planned locations of the schools.

As noted throughout the proposal, Success Academy operates public schools, and it has been the policy of New York City to allocate public space to public schools. Success Academy strongly believes in the importance of siting public charter schools in underutilized public school buildings as a way to offer more quality public school seats and educational options to the community. Co-locations are common in New York City, and most of them do not involve charter schools. Over 60% percent of all New York City public schools are co-located. Of these co-located schools, the vast majority (90%) are district schools.¹

As explained in more detail in Response 16 – Facilities, Success Academy intends to seek public facility space in order to serve the students who will attend these proposed public charter schools. Success Academy will seek space in public school buildings from the New York City Department of Education (DOE). If the DOE does not offer appropriate public facility space, Success Academy will pursue the alternative options detailed in Response 16. Success Academy is committed to establishing a cooperative and respectful relationship with any school or schools that it co-locates with, and it will endeavor to share best practices and build a strong school community.

Some traditional opponents of charter schools, such as the United Federation of Teachers, regularly and consistently oppose charter schools and charter school co-location. As evidenced by demonstrated demand and interest in existing Success Academy schools, as well as the vast charter school waitlists across the city, blanket opposition from these groups is not reflective of the views of the community. Instead, this consistent opposition reflects an attempt by institutional interest groups to maintain their control over the educational bureaucracy and the status quo, resisting any competition that could serve to highlight the failures of low-performing schools.

¹ See http://www.manhattan-institute.org/html/cr_85.htm#.U7XOHismfTQ.

Despite the presence of this type of blanket charter school opposition, Success Academy reached out to hundreds of stakeholders in the proposed districts for input and feedback, including reaching out to known opposition. See Response 03(c) – Outreach Evidence D, M, and JJ for the list of stakeholder letters and outreach. Success Academy is eager to engage in constructive dialogue regarding the educational needs of these communities and how Success Academy can help to best serve those needs.

To the extent that any opposition to this proposal or the proposed schools should arise, where appropriate, Success Academy will incorporate any useful suggestions into the direction of the school where such suggestions are feasible and will maintain the highest standards for educating students.

(c) Evidence of Community Support

Submit actual examples, documents, etc. that provide evidence of support. See note in Response 15(c) – Evidence of Demand regarding potential overlap between evidence of support and evidence of demand.

Please refer to Response 14(c) – Evidence of Community Support A-N for a record of the approximately 24,000 petition signatures received to date, including over 1,600 from CSD 2, 2,050 from CSD 3, 1,500 from CSD 9, 1,550 from CSD 13, 1,600 from CSD 14, 1,600 from CSD 15, 1,650 from CSD 17, 2,250 from CSD 18, 1,500 from CSD 22, 1,700 from CSD 23, 1,650 from CSD 24, 1,700 from CSD 27, 1,900 from CSD 28, and 1,650 from CSD 30. Please refer to Response 03 – Proposal History and Response 03(c) – Outreach Evidence JJ for comments received to date.

Community School District 2
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 2
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school, eager coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 2. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 2.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

Community School District 3
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 3
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Community School District 3
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Community School District 3
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 3
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

SUCCESS
ACADEMY
CHARTER
SCHOOLS

Community School District 3
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

SCHOOLS

Community School District 3
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 3
 Community Petition

Success Academy Charter Schools -- NYC (SA) is applying to open a free, public charter school in District 3. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 3.

Community School District 9
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

Community School District 9
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 9
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Community School District 9
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

Community School District 9
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Community School District 9
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

Community School District 9
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 9. If approved, the school would open in August 2015 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 9.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Community School District 13
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

(I support this great new public school option coming into the neighborhood.

Community School District 13
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 13
 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

Community School District 13
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.

 Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood

Community School District 13
Community Petition

Success Academy Charter Schools – NYC (SA) is applying to open a free, public charter school in District 13. If approved, the school would open in August 2016 serving students in Kindergarten and 1st grade, and it would add one grade each year until it serves Kindergarten through 12th grade (pre-Kindergarten, middle school grades, and high school grades subject to government approval). SA will operate 32 high-performing schools across New York City in the 2014-2015 school year. Parent demand for these schools is so high that there were over 14,400 applicants for less than 3,000 spots this year. SA recruits dedicated and talented teachers, and its schools have a proven track record. On any given day, students might dive into a good book, sing songs, challenge a fellow student in chess, or score the winning soccer goal. Success Academy scholars are critical thinkers who love learning and are college-bound. Please sign below if you would be interested in sending your child to this school or would support this school opening in District 13.

To learn more visit www.successacademies.org/NewSchools.

I support this great new public school option coming into the neighborhood.
