DEFINITION OF TERMS

School: A school is a vehicle for the delivery of a complete educational program to students that has: independent leadership; dedicated staff; and, defined facilities. An education corporation may have the authority to operate more than one school so long as a charter has been issued for each such school. Note that a school may be housed in more than one physical site. A school is its own Local Educational Agency (“LEA”) for federal program purposes except the education of students with disabilities, and its own accountability unit for purposes of federal Elementary and Secondary Education Act of 1965 (“ESEA”) as amended by the Every Student Succeeds Act (“ESSA”).

Site: A site is one of a number of facility locations for a single charter school. Sites are typically grouped by grade range (e.g., Kindergarten – 4th grade site, 5th – 8th grade site, or 9th – 12th grade site). A site would not be its own LEA or ESSA unit. More than one charter school building tightly clustered (i.e., a campus) would also be a “single site” under New York Education Law. Without additional authority, an education corporation may not educate students of the same grade level in more than one site. An education corporation may teach the same grade or grades at an additional site so long as it has obtained additional authority to do so through the issuance of an additional charter. The number of charters issued to an education corporation will determine the maximum number of sites it may have for any particular grade.

Charter School Education Corporation: A charter school education corporation is a New York not-for-profit charter school education corporation that comes into existence through the issuance of a charter and the subsequent formation of a corporation by the New York State Board of Regents (the “Board of Regents”). Each charter school education corporation is entitled to operate one school in one or more sites for each charter that is issued to it.

Partner Organization: A partner organization is a non-profit entity, such as a community-based organization, college, university, museum, educational institution, or other organization authorized to do business in New York that would provide space or support to the proposed school or be responsible for managing and/or providing services to the proposed school whether or not such goods, services, facilities, etc. would be provided free of charge or pursuant to a contract or shared service agreement with the education corporation.

Charter Management Organization (“CMO”): CMO describes any not-for-profit charter management organization, educational service provider, or partner organization providing a majority of the educational management services at a charter school.

SUNY Charter Schools Committee (the “Committee”): The SUNY Charter Schools Committee is a committee of the State University of New York Board of Trustees (the “SUNY Trustees”) that has been delegated the authority to act on behalf of the full SUNY Board of Trustees regarding approval of new SUNY authorized charter schools.

SUNY AS A CHARTER AUTHORIZER

The New York Charter Schools Act of 1998 (as amended, the “Act”) designates the SUNY Trustees as one of two statewide chartering entities, or “authorizers,” along with the Board of Regents. Each authorizer has the authority to grant charters for the purpose of organizing charter school education corporations to operate one or more independent and autonomous public charter schools. SUNY is the largest charter school authorizer in New York State and the largest university-based authorizer in the country.

The Institute’s work in this regard is designed to support the SUNY Trustees’ commitment to the guiding principles of the Act: to establish schools that operate in an academically, fiscally, and legally sound manner; to provide outstanding educational opportunities for all students, especially those at risk of academic failure; and, to oversee approved schools in a manner that respects their independence and autonomy while holding them accountable for student achievement results — including a commitment to close schools that have failed to live up to their promises.

Since its inception, the Institute has been recognized on numerous occasions for the quality of its authorizing practices. The CfBT Education Trust and the World Bank featured SUNY’s authorizing practices in an online toolkit promoting public and private partnerships to support quality education. The toolkit included a case study detailing SUNY’s school approval process, strategies for oversight, and criteria for schools to earn charter renewal. The National Association of Charter School Authorizers (“NACSA”) awarded SUNY planning and implementation grants to support its work relating to the replication of high quality charter schools. NACSA also awarded SUNY the Award for Excellence in Improving Authorizer Practice, recognizing SUNY for having the “best application process” for creating new charter schools.

Positive results in the classroom affirm recognition of SUNY’s authorizing work. While the 2020 New York State exams were canceled due to the COVID-19 pandemic, on the 2019 New York State exams, 91% of SUNY authorized charter schools outperformed their district school peers in mathematics and 88% outperformed their district school peers in English language Arts (“ELA”). According to a review of the data from a January 2010 CREDO study, SUNY authorized charter schools yield greater gains in student achievement than their public school peers in New York City charter and non-charter schools. Further, SUNY authorized schools consistently outperform similarly situated schools in both ELA and mathematics.²

² School performance is based on the Institute’s regression analysis of each charter school compared to schools statewide with similar percentages of economically disadvantaged students. SUNY authorized schools consistently perform in the better than expected category in ELA and mathematics.

INTRODUCTION

SUNY currently authorizes 213 charter schools across New York State serving approximately 113,000 students:

- 189 schools in and around New York City: 40 in Manhattan; 71 in Brooklyn; 58 in the Bronx; 16 in Queens; 1 in Staten Island; 3 in Long Island; with 19 not yet open;
- 6 schools in the Capital District: 5 in Albany; and, 1 in Troy;
- 10 schools in Western New York (Buffalo) with 1 not yet open; and,
- 8 schools in Central New York: 5 in Rochester; 1 in Ithaca; 1 in Elmira; and, 1 in Homer.

The SUNY Trustees support diversity and innovative program design in the charter schools they authorize. The SUNY Trustees set a high bar of expectations for student achievement, particularly for students most at risk of academic failure, but realize there is more than one way to meet that bar.

Among the portfolio of SUNY authorized charter schools are: schools with a particular focus on English language learners (“ELLs”); schools implementing the Diploma Programmes of the International Baccalaureate Programme; single gender schools; schools that offer intensive foreign language instruction; schools implementing a diverse by design model; a school devoted to students who are or have been enrolled in the child welfare system, are homeless, or who have graduated from a failing middle school; a school infusing the principles of sustainability throughout the curriculum; a school designed specifically to serve the needs of students with autism; a rural school with a focus on agriculture; a Montessori school; and, many more.

The SUNY Trustees and the Institute recognize the significant time and effort required to develop a quality proposal. Institute staff members look forward to working with each applicant group throughout the process.

CRITICAL INFORMATION FOR ALL APPLICANTS

All applicants must carefully read each of the sections below for critical information regarding the 2021 RFP.

ADDRESSING THE IMPACT OF COVID-19

The Institute recognizes that education models across the country have undergone significant changes due to school closures and imperatives resulting from the COVID-19 pandemic. Indeed, this unprecedented event has restructured education in ways that educators may not fully understand for years to come. It has also underscored the need for high quality schools that in all likelihood must address significant student learning loss caused or exacerbated by the extended disruption to traditional schooling.

While educators cannot predict what the future may hold, it is apparent that the current situation necessitates some adjustments to conventional education models. To that end, the Institute has developed the 2021 RFP such that applicable requests address circumstances related to the COVID-19 pandemic, such as requiring applicants to assess the pandemic's impact when analyzing community need and asking applicants to examine the proposed school's capacity to provide remote instruction if circumstances require.

It is not the Institute's expectation that applicants submit fully developed plans addressing future circumstances that cannot at this time be known. Rather, we encourage applicants to consider the impact of the COVID-19 pandemic when developing all parts of the application and to include relevant discussion where applicable, whether explicitly indicated in the requests or not. When considering applicants' capacity to educate students in a post-COVID-19 world, the Institute will analyze applicants' thoughtfulness and innovativeness as well as the resources consulted in the development of the proposal.

The Institute strongly encourages applicants with concerns about the extent to which their responses should address the demands of the COVID-19 pandemic to contact the Institute for guidance.

AVAILABLE CHARTERS AND APPLICANT ELIGIBILITY

At the time of the 2021 RFP's publication, the SUNY Trustees and the Board of Regents may together award a maximum of 95 charters statewide outside New York City. In the event that additional charters become available for New York City in 2021, the Institute will identify and publish a third schedule for New York City applications under this RFP.

Applications approved by the Committee pursuant to the 2019 RFP that have not yet received charters must, in the event new charters become available in New York City, submit updates to

INTRODUCTION

application materials to the Institute for review including, but not limited to, updated budgets and evidence of community outreach, support, and demand. The Institute will hold a meeting for those applicants in order to share relevant information and provide guidance on submitting updated materials. These applications will receive priority in scoring in this RFP.

If a limited number of charters becomes available in New York City, the SUNY Trustees reserve the right to grant no more than one charter each to individuals, new applicants, and/or education corporations. The SUNY Trustees also reserve the right to restrict the eligibility of applicants who have requested to delay, or are delaying, the opening of a school or schools from the date indicated at the time of prior proposal submission.

REPLICATING APPLICANTS

The Act permits a charter school education corporation to have more than one charter issued to it, thus allowing it to operate more than one charter school. It also allows multiple education corporations to merge into one education corporation with the authority to operate all of the schools under one authorizer. SUNY's 2021 RFP accommodates both the creation of new charter school education corporations with the authority to operate one or more new schools and existing education corporations seeking to add additional schools.

Existing SUNY approved charter school education corporations authorized after July 2016, including those that the Committee approved but have not yet received charters, may incorporate Requests by reference according to the Replicator Checklist available at newyorkcharters.org/request-for-proposals/. All other applicants must respond to all Requests in order to provide updated materials.

Applicants should review the following list of questions to determine whether they may incorporate Requests by reference.

Any applicant answering “No” to **any one** of these questions must respond to all Requests.

Any applicant answering “Yes” to **all three** of these questions may incorporate Requests by reference according to the Replicator Checklist.

1. Is a SUNY approved charter school education corporation submitting a proposal to replicate a SUNY approved school that the education corporation already operates? If yes:
2. Did the SUNY Trustees approve the application for the original education corporation after July 2016? If yes:
3. Would the proposed school replicate all or a vast majority of the academic program components in use at the existing school?

INTRODUCTION

NOTE: The Institute strongly encourages applicants to consult with our office when determining eligibility to incorporate Requests by reference. Applicants should contact our office with prior to the deadline for submission of Intent to Apply Forms.

INCORPORATING MATERIALS BY REFERENCE

Replicating SUNY approved education corporations that already have one or more charters approved by the SUNY Trustees after July 2016 and containing exhibits that describe the replicating school's academic program and organizational structure may incorporate materials by reference. If there are no material changes to the exhibits, applicants may respond to some Requests by incorporating by reference the applicable documents on file at the Institute. Requests to be incorporated by reference must meet the following criteria:

- The document must have been submitted to the Institute as part of an original, merger, renewal, or revision application after July 2016. **Applicants may not incorporate by reference any documents submitted to the Institute prior to July 2016.**
- Applicants may not incorporate by reference any documents that in turn contain incorporations by reference.
- Applicants may not incorporate by reference documents from prior applications that the Institute did not approve.

Institute evaluators rely on qualitative data about the strength of the existing schools collected through the Institute's school evaluation process and quantitative data collected through the analysis of the replicating school's academic outcomes. Note that this assumes that the proposed school model is not materially different from the model used in one or more schools an existing education corporation operates.

By making the replication option available, SUNY in no way suggests that applicants attempt to take on more schools than they have the capacity to manage. In fact, SUNY's due diligence regarding fiscal and human capital capacity becomes more rigorous when considering the award of multiple charters to one education corporation or founding team.

BUSINESS PLANS

Applicants submitting a proposal in conjunction with an organization that would be responsible for managing and/or providing significant portions of the school's academic program or organizational structure (e.g., a CMO or shared services team) must submit a business plan. Small replicators operating under shared service structures must also submit a business plan. The Institute reserves the right to request a business plan from any organization that would play a substantial role in the management or operation of the proposed school(s).

INTRODUCTION

Institute staff and, at the Institute's discretion, external experts, review applicant groups' business plans in tandem with their proposals to gauge CMOs', partner organizations', and education corporations' organizational and fiscal capacity to fulfill their obligations to the proposed school(s) effectively.

NOTE: The Institute strongly encourages applicants to contact our office prior to the Intent to Apply Form submission deadline to determine whether to submit a Business Plan.

LEGISLATIVE REQUIREMENTS

- Education Law § 2852(9-a) requires authorizers to use a RFP process to award charters to new applicant groups wishing to establish an education corporation to operate one or more new charter schools. Education Law § 2853(1)(b-1) allows existing education corporations to seek authority to operate one or more additional charter schools.
- The Act requires that authorizers make a draft of the RFP available for public review and comment and take the provided feedback into consideration before issuing the final RFP.
- The Act requires review of proposals to prioritize specific criteria including community outreach and targeted enrollment demographics and cooperation with local school districts.
- The Act prohibits RFP applicants from contracting with a for-profit entity to operate a charter school.

PUBLIC DISCLOSURE

SUNY takes its statutory responsibilities to disclose information about new proposals seriously.

- The Institute, shortly after receipt of a proposal, will release to the public via its website a "Public List," containing the name of the proposed charter school education corporation, name of the proposed charter school, name of the applicants and public contact information, proposed enrollment and grades served, charter management organization (if any), and the school district or community school district(s) ("CSD(s)") in which the charter school proposes to locate.
- The Institute will post copies of complete proposals, redacted of all personal privacy information, within several weeks of receipt. Please note that the Institute will not accept any requests to redact part(s) of an application for any information not related to personal privacy or statutory exemptions.

INTRODUCTION

- As required by the Act, SUNY will, within 30 days of receipt of a proposal, officially notice the district in which the proposed school would be located. As mandated, the Institute will also provide notice to all public and non-public schools in the surrounding geographic area.³
- The district must hold a public hearing to solicit public comments on the proposal within 30 days of receipt of notice of a proposal from the Institute.⁴
- SUNY carefully considers all comments about the application as part of the proposal review process. The Institute presents school district comments and a written summary of public comments to the SUNY Trustees when recommending proposals. The Institute is committed to capturing community feedback and strongly requests all stakeholders submit their comments at least two weeks prior to the Committee meeting to approve applications (dates and materials to be posted at: suny.edu/about/leadership/board-of-trustees/meetings/meetingNotices.cfm) in order for comments to be included in the summary of public comments.

³ New York Education Law § 2857(1).

⁴ Regulations of the Commissioner of Education, 8 N.Y.C.R.R. § 119.4, require school districts to hold a public hearing regarding application(s) within 30 days of receipt of the notice of the application(s) from SUNY, and to forward the hearing notices and comments regarding same to the Institute and the New York State Education Department (“NYSED”). More information is available at p12.nysed.gov/psc/aboutcharterschools/Financing/Regulations/csreg119.4.html).

SUNY'S REVIEW PROCESS

INTENT TO APPLY FORM REVIEW

The determination of the adequacy of the Intent to Apply form or the eligibility of an applicant is at the sole discretion of the Institute. There is no appeal of a negative determination. Nothing shall prohibit applicants who submit an unsuccessful Intent to Apply form from submitting a new one in response to any future review rounds.

PROPOSAL REVIEW PROCESS

SUNY's review of submitted proposals is a progressive, multi-step process broadly recognized as setting a high bar for approval. The SUNY Trustees have charged the Institute with recommending for their consideration only those proposals deemed to have the highest likelihood of success. SUNY has revised and enhanced its new school review process over time to reflect lessons learned.

Notably, SUNY authorized schools indicate the process adds value to the proposed program. Applicants emerge from the SUNY review process with a stronger blueprint from which to build their schools. The hard work up front translates into greater autonomy for schools once chartered and, most importantly, has resulted in the highest performing portfolio of charter schools in New York.

The Institute's review process includes the following:

1. Intake of each proposal to ensure each component is materially and substantively complete and meets minimum eligibility requirements, thereby meriting a full review.
2. Review of the proposal by Institute staff from academic, operational, legal, and fiscal perspectives.
3. When applicable, in-depth analysis of student performance data from the applicant's existing schools to identify areas of strength and deficiency to gauge the proposed program's likelihood of producing exemplary academic outcomes including but not limited to:
 - Review of past three years of student performance data on state assessments, with an emphasis on growth percentile scores;
 - Student attrition rates from year to year;
 - Graduation rates; and,
 - Authorizer evaluation, renewal, and regulatory compliance reports.
4. At the Institute's discretion, an external panel of education expert(s) may review proposals and, where applicable, accompanying business plans.

INTRODUCTION

5. For proposals deemed strong enough to move on in the review process, an interview by Institute staff (and possibly member(s) of an external review panel) of the proposed school's founding group, which includes the applicant(s), proposed or actual education corporation trustees, and representatives of any proposed or actual CMO and/or other partner organization.
6. Proposals of sufficient strength may undergo a Request for Amendments ("RFA") process to resolve Institute concerns and assure compliance with all applicable laws and regulations.
7. If the Request for Amendment ("RFA") process yields an application that the Institute identifies as strong enough to move on in the process, a representative of the Committee may interview the applicant(s) and proposed education corporation trustees.
8. After completing the review process, the Institute makes any positive recommendations to the Committee, which renders the final determination at a public meeting. There is no appeal of a negative determination at any stage of the process.

A NOTE TO APPLICANTS REGARDING PROPOSED TRUSTEES

The Institute understands that applicants may add trustees to the education corporation's board in the future but expects applicants to have at least five board members at the time of application submission and identify four officers including a Chair, Vice Chair, Secretary, and Treasurer.

All proposed board members as well as the lead applicant must undergo background checks and fingerprinting in order for the Institute to recommend the charter for approval. Institute staff will send instructions for completing the fingerprint process to the lead applicant(s) and proposed/actual board officers as necessary according to the timeline for application review. Failure to complete fingerprinting in a timely manner may delay the application review process.

Additionally, the Institute expects all proposed trustees to participate in the applicant interview.

CRITERIA FOR RECOMMENDING PROPOSALS FOR APPROVAL

When the Institute receives a proposal, it first determines whether applicants meet minimum eligibility requirements, as solely determined by the Institute, for example:

- Proposals must be sufficiently complete (i.e., include a Transmittal and Summary Form and appropriate responses to all applicable RFP requests);
- Proposals must comport fully with formatting and submission conventions described within the RFP; and,
- Proposals must be accompanied by complete Business Plans where required.

The Institute reserves the right not to review proposals that fail to meet minimum eligibility requirements.

INTRODUCTION

The Institute then determines whether a proposal meets minimum statutory requirements, for example:

- The proposal includes a viable plan to meet the enrollment and retention targets established by the SUNY Trustees for students with disabilities, ELLs, and students who are eligible to participate in the federal free and reduced-price lunch (“FRPL”) program.
- The proposal provides evidence of public outreach that conforms to the Act and the process prescribed by the SUNY Trustees for the purpose of soliciting and incorporating community input regarding the proposed charter school and its academic program.
- The applicant demonstrates the ability to operate the school in an educationally and fiscally sound manner.
- Approving the proposal is likely to materially further the purposes of the Act, which are to:
 - Improve student learning and achievement;
 - Increase learning opportunities for all students, with special emphasis on expanded learning experiences for students who are at risk of academic failure;
 - Encourage the use of different and innovative teaching methods;
 - Create new professional opportunities for teachers, school administrators, and other school personnel;
 - Provide parents and students with expanded choices in the types of educational opportunities that are available within the public school system; and,
 - Provide schools with a method to change from rule-based to performance-based accountability systems by holding charter schools accountable for meeting measurable student achievement results.
- The proposal meets all of the requirements set out in the Act and all other applicable laws, rules, and regulations as well as meets any additional requirements established by the SUNY Trustees as part of their commitment to student achievement.

The Institute reserves the right, in its sole discretion, to discontinue its review if and when it becomes apparent that a proposal does not meet these minimum statutory requirements.

For proposed schools intending to locate in a school district where more than five percent of the students residing in the district attend charter schools, the Institute will evaluate whether approving the proposal would have a significant educational benefit to the students likely to attend the proposed charter school, or whether the school district of location consents to the proposal.

The Institute is interested not only in the potential of proposed schools to navigate the challenges of startup successfully but also in whether the school is likely to earn renewal at the end of its initial term of authority to operate. Under the Act, the Institute can only recommend to the SUNY

INTRODUCTION

Trustees a proposal it determines rigorously demonstrates the above criteria. If there are more proposals that meet these criteria than available charters, the Institute will use preference scoring to determine the order in which proposals receive the available charters.

INTRODUCTION

PREFERENCE SCORING

Consistent with the Act (Education Law § 2852(9-a)(c)), SUNY's 2021 RFP includes preference criteria to prioritize proposals that the Institute intends to recommend to the SUNY Trustees at the conclusion of the review process.

Preference scoring does not occur until the conclusion of a review process and applies to only the proposals that the Institute determines could result in academically, fiscally, and legally sound charter schools that the Institute will recommend to the SUNY Trustees for approval.

The Institute bases preference scoring on ten criteria for which the proposal can earn credit. Should the Institute be in the position to recommend more proposals than available charters, the Institute will recommend the SUNY Trustees provide the remaining charters in an order to be determined by each application's preference score.

Should additional charters become available within New York City in 2021, applications approved pursuant to the 2019 RFP that have not yet received a charter must receive a new preference score pursuant to the criteria in the 2021 RFP. These applications will receive up to 30 additional preference points in descending order consistent with the scores they received based upon the 2019 preference scoring criteria. For example, the highest scoring application will receive 30 additional preference points, the second highest will receive 29 additional preference points, and so on.

FORMATTING AND SUBMITTING PROPOSALS AND BUSINESS PLANS

INTENT TO APPLY FORM NOTIFICATION AND SUBMISSION

Applicants must contact the Institute at least one week prior to the Intent to Apply form deadline to request information about how to submit a form. Please include the lead applicant's full name, email address, and the proposed school name in this request. Intent to Apply Forms are available at [newyorkcharters.org/request-for-proposals/](https://www.newyorkcharters.org/request-for-proposals/). Applicants must upload Intent to Apply forms to Epicenter (see below for additional information).

SUBMITTING MATERIALS TO THE INSTITUTE

Applicants must submit all materials to the Institute as digital files by the deadlines noted in the RFP Timeline (see Page i). Please do not submit a paper copy of the full application. The Institute must receive Transmittal and Summary Forms with either a digital signature or a hard copy of the form with an original applicant signature postmarked by the proposal deadline.

Applicants must upload digital files to Epicenter, the online system the Institute uses for document management. The Institute will provide each applicant with Epicenter log in credentials for this purpose. Note that this is the only system applicants may use to submit proposals including the Intent to Apply Form.

DOCUMENT FORMATTING

- Applicants must use the electronic file conventions included in both the RFP and the Business Plan Requirements.
- Request headings and numbering are required.
- Responses should include page numbers at the bottom of the page. The notation should be the response number followed by the page number for that response. For example, the 4th page of the 11th RFP request would be numbered "Response 11-4."
- The Institute does not have specific text formatting requirements. The Institute recommends but does not require an 11-12 point sans-serif font (e.g., Calibri, Arial, etc.).

NOTE: For requests containing templates provided on the Institute's website, such as the budget template, applicants must use the most current version available on the website as of the RFP year. The Institute will not accept submissions using outdated templates.

INTRODUCTION

FILE STRUCTURE

- Each electronic copy of the proposal shall consist of files containing individual responses saved as described in the Proposal Electronic File Conventions table below.
- The Institute will assign applicants all relevant requests in Epicenter. Applicants must organize files as follows:
 - Submit only one merged file for each request in Epicenter.
 - For each response, use the file name and file type indicated in the Proposal Electronic File Conventions table. Acceptable electronic formats for the files are MS Word®, MS Excel®, or Adobe Acrobat®.
 - MS Word® files should contain no track changes and the track changes setting must be off prior to submission.
 - Excel print settings must enable printing to letter-sized paper.
 - Please optimize scanned Adobe files to minimize the file size.

NOTE: The Institute will not accept edited or updated application materials after the application deadline. Applicants must ensure that all materials reflect accurate information at the time of submission.

HOW TO ADDRESS REQUESTS INCORPORATED BY REFERENCE

Replicating applicants from existing SUNY authorized education corporations who are eligible to incorporate Requests by reference according to the criteria described in the Replicating Applicants section above must use the Replicator Checklist (available at [newyorkcharters.org/request-for-proposals/](https://www.newyorkcharters.org/request-for-proposals/)) to determine which materials may be incorporated by reference. Applicants must submit a response to every request including those that are being incorporated by reference.

Note that Requests incorporated by reference must have been submitted to the Institute as part of an original, merger, renewal, or revision application after July 2016 as described above.

Applicants wishing to incorporate materials by reference should submit an appropriately formatted file for the request that includes:

- A statement indicating that the materials are incorporated by reference;
- The specific document from which the Request is incorporated (e.g., “<School Name> 2018 Replication Application”);

INTRODUCTION

- The specific file name of the original document submitted to the Institute (e.g., “Response D(4)a - Educational Program”); and,
- The month, day, and year on which the applicant submitted the document to the Institute.

The Institute will consider incomplete any application that does not appropriately identify Requests incorporated by reference.

HOW TO ADDRESS REQUESTS THAT DO NOT REQUIRE A DIRECT RESPONSE

Applicants must submit a response to every request, including those that are not applicable. If the request does not apply, applicants should submit an appropriately formatted file for the request that states, “The request is not applicable.” The Institute will consider incomplete any application that does not include a response to every request.

4. Community Outreach, Support, and Demand

NOTE: The Institute acknowledges the impact the COVID-19 pandemic and resulting social distancing imperatives have had on traditional means of community outreach (e.g., participating in community events, tabling, door knocking, etc.) and discourages applicants from providing evidence of such activities. b. Target Population Enrollment

Explain how the school will meet or exceed the enrollment and retention targets established by the SUNY Trustees for students with disabilities, ELLs, and FRPL students. The response should:

d. Course or Subject Overview

Provide course descriptions for **every subject and grade level** the school will serve **within the initial five years of operation**, accounting for both core and non-core subject areas including all courses identified in Request 7 – Calendar and Schedules and specials (e.g., physical education, art, etc.). This should include, at minimum:

- Explain how students will meet the requirements set forth by New York State for the granting of each relevant type of diploma; and,
- Include any additional specific graduation requirements and the rationale for their selection.

f. Programmatic Audits

Describe a plan of annual programmatic audits of the implementation and effectiveness of the school's education program. Programmatic audits should include an evaluation of the effectiveness of the school's academic program, governance, and operations. Note that the programmatic audit is not simply a cost/benefit audit as conducted by some school districts. The plan should include, but is not limited to, the:

- Purpose and objectives;
- Areas to be audited;
- Schedule of events;
- Responsible persons, which may include outside consultants;
- Description of written end product;
- How and to whom such written end product will be disseminated; and,
- Any plans to hire outside consultants to perform such audits.

g. Draft Accountability Plan

Complete the Accountability Plan template available on the Institute's website at: newyorkcharters.org/reporting-requirements/accountability-plan-draft/. The web page includes additional detail to assist the applicant in drafting the required SUNY Accountability Plan. This Response should serve as a draft based on the applicant's understanding of the Institute's accountability requirements and align with the proposed school model. Institute staff will work with successful applicants in the school's first year of operation to finalize the plan.

NOTE: Much of the Institute's Accountability Plan template centers on the results of annual state exams, the future administration of which may be uncertain given circumstances surrounding the COVID-19 pandemic. The Institute encourages

APPLICATION REQUESTS

applicants to consider other means of accountability and be prepared to discuss them if invited to participate in an interview.

What to Submit:

- Submit the response to Request 6(a-f) as a Microsoft Word® file named: **R-06af - Curriculum and Instruction. *This response may not exceed 50 pages in length.***
 - Attach a draft accountability plan as a Microsoft Word® file named: **R-06g - Accountability Plan.**
-

7. Calendar and Schedules

a. School Calendar

Provide a copy of the school's proposed calendar for its first year of operation that clearly articulates:

- Total number of days of instruction for the school year including whole and half days;
- Total number of hours of instruction for the school year including and not including additional instructional time such as tutoring;
- First and last day of classes;
- Organization of the school year (i.e., semesters, trimesters, quarters, etc.);
- All planned holidays and other days off, as well as planned half days; and,
- Dates for summer school, orientation, and other activities outside of the core academic calendar, if planned.

Provide a narrative to explain any aspects of the calendar that are not evident on the first year calendar or where further explanation is necessary.

While not required to submit an alternate calendar for remote and/or hybrid instruction, applicants should discuss in narrative form how the school would develop the calendar in the event that closure of the physical school building becomes necessary for any duration of time. Applicants should also address any contingencies and/or flexibility built into the calendar that would enable the school to meet the relevant grade level mandates for instructional hours in the event of a mandated closure.

APPLICATION REQUESTS

b. Sample Student Schedule

For each division of the school (e.g., lower elementary, upper elementary, middle, high), provide the following for a typical week of instruction:

- A narrative describing the typical school day (including the approximate start and dismissal times and any regular variations; for example, one day a week early dismissal for teacher professional development), components of the school day devoted to core academics; components of the school day devoted to before or after school electives; and, remediation or other non-core academic components of the proposed school design;
- A table that clearly identifies the minimum number of weekly minutes the school will devote to individual core academic subjects in each grade (e.g., ELA, mathematics, science, and social studies), and the total number of instructional minutes the school would offer per week (exclusive of lunch, recess, study hall, etc.);
- A sample student schedule for a typical week; and,
- A narrative describing key considerations in the development of an alternate student schedule for remote and/or hybrid instruction should circumstances require (e.g., length of the remote school day, the number of synchronous vs. asynchronous lessons per day/week, etc.). Appendices

Appendix A Charter School Applicant Eligibility Information for
Federal Charter School Program (“CSP”) Grants

Appendix B Assurances

CHARTER SCHOOL APPLICANT ELIGIBILITY INFORMATION FOR FEDERAL CSP GRANTS

NOTE: The CSP for New York is currently in transition. NYSED may make additional/different information available in the future. The following is provided for informational purposes only.

The Charter Schools Program (“CSP”) is a federally funded program designed to increase the number of high quality charter schools throughout the country by supporting new charter schools during the planning year and first two years of operation. NYSED is the sole administrator of the CSP grant in New York State; however, grant funds are available to all applicants, regardless of authorizer. After the SUNY Trustees approve a charter request, NYSED will contact applicants about the CSP grant. Applicants should be aware that NYSED will require additional information in order to allow access to the grant funds.

Note that while any school that the SUNY Trustees approve is likely to receive CSP funds, the following factors may cause the school to be ineligible:

- **Applicants who offer admissions set asides, absolute preferences, or separate lotteries for at-risk students.**

Charter schools receiving CSP grants may weight admission lotteries as long as they only weight one of the following subgroups: ELLs, students with disabilities, or students who are economically disadvantaged. Schools incorporating an at risk preference into their lottery may only do so using the NYSED Weighted Lottery Generator. Additional information is available in the Guidance Handbook and in the Institute’s Lottery Guidance, available at newyorkcharters.org/applications-admissions-materials/. The U.S. Department of Education’s 2013 interpretation of federal non-regulatory guidance may preclude applicants from offering certain admissions preferences to at risk students while receiving funds from the CSP grant. The Institute expects that the U.S. Department of Education will permit weighted lotteries under certain conditions (one extra weight in the lottery for an at risk designation) in the near future. The Every Student Succeeds Act (“ESSA”) may also influence this interpretation.

- **Applicants partnering with a CMO that has received federal replication grant funds.**

Pursuant to an opinion by the U.S. Department of Education, certain schools seeking to partner with a CMO that has been awarded federal replication grant funds may be ineligible for supplemental CSP Grant funds.

Applicants should direct all questions about CSP grants to NYSED. Further information about the CSP Grant Program is available at: p12.nysed.gov/psc/funding/201619cspnewapp.html.

APPENDIX A: CHARTER SCHOOLS PROGRAM GRANT PRIORITIES

STANDARD CSP GRANT AND SUPPLEMENTAL FUNDING

Applicants potentially qualify for two types of CSP grants:

Standard CSP Grant

The standard grant award is \$1,000,000, which is distributed over three years. Applicants may include this \$1,000,000 award in their proposed budgets but should closely review the restrictions on these funds and be sure to propose using them appropriately. Failure to do so may result in the Institute finding that the proposed school is not likely to operate in a fiscally sound manner.

Supplemental CSP Funding

Applicants may be eligible for supplemental CSP funding for an amount up to \$250,000 based on whether a school satisfies either of two priorities: the Underserved Student Populations Priority or one of the Authorizer Program Design Priorities. Note that applicants may only receive supplemental funding once even if they meet more than one priority. While there are multiple Authorizer Program Design Priorities, the maximum total supplemental funding award remains \$250,000. For example, if an applicant receives the full standard grant of \$100,000, they could qualify for a one time supplemental funding of up to \$250,000.

NOTE: Applicants may not include Supplemental CSP Funding in their proposed budget even if they believe that they would qualify for the funding.

SUPPLEMENTAL CSP GRANT ELIGIBILITY CRITERIA

The two supplemental CSP grant priorities are:

- 1. Underserved student populations priority (supplemental funding of \$125,000).** NYSED will provide up to \$125,000 in supplemental CSP grant funding to those charter schools that have met one or more of the enrollment targets for students with disabilities, ELLs, or students who are eligible for the FRPL program, as prescribed by the SUNY Trustees and as required by Education Law § 2852(9-b) by the October Basic Education Data System (“BEDS”) student data reporting date in their first year of operation.
- 2. Authorizer program design priority (supplemental funding of \$250,000).** At SUNY’s recommendation, NYSED will provide \$250,000 in supplemental CSP grant funding to charter schools that meet one or more of the following design priorities:
 - **Applicants that would lease or purchase the proposed facility for a minimum of three years of operation.** The proposal must include a draft lease or purchase agreement or lease OR applicants must forward a draft lease or purchase agreement or lease to the Institute by April in the same year in which the school would open.

APPENDIX A: CHARTER SCHOOLS PROGRAM GRANT PRIORITIES

- **Applicants that include at least one or more key design elements incorporating the arts (visual arts, music, theatre, dance or other related) into the school design.** The proposal must support the implementation of the arts as a key design element, for example through adequate staffing, funding, facilities plans, curricular materials, strategic partnerships, etc. Applicants that simply offer classes in the arts will not qualify for this authorizer preference. The arts must be a key component of the academic program design.
- **Applicants who partner with a persistently low performing district school to phase out that low performing school while establishing the proposed school.**
- **Applicants replicating an existing SUNY authorized charter school that meets the following academic performance criteria at the time of proposed school approval:¹⁵**
 - **Replicating a single K-8 school.** The replicating school has achieved a 0.3 effect size¹⁶ in ELA and mathematics in two of the previous three years based on the Institute’s regression analysis of New York State assessment data.

If the replicating school does not have three years of state testing data, it could qualify if the Institute’s school evaluation findings indicate that the replicating school is on track to successfully meet the SUNY qualitative charter renewal benchmarks by the end of the charter term. The benchmarks are available at: newyorkcharters.org/suny-renewal-benchmarks/.
 - **Replicating a high school.** Replicating high schools must meet all of the following requirements to be eligible for supplemental funding:
 - At least 75% of students in the second year of a cohort (typically the 10th grade) have passed three or more Regents examinations in two of the three previous school years for which data is available;
 - At least 75% of the students in the most recent graduation cohort must have graduated by the end of their 4th year in the cohort; and,

¹⁵ Note that once the SUNY Trustees approve a replication, the Institute will use the most recent data available to assess an applicant’s eligibility for supplemental funding.

¹⁶ Charter schools authorized by the SUNY Trustees have in their Accountability Plans a measure of student performance on the state ELA and mathematics exams called Effect Size that compares the school’s achievement to that of similar public schools statewide. It reflects the difference between a school’s attained and predicted performance in each tested grade, relative to other schools with similar economically disadvantaged statistics and tested grades. The Institute conducts a regression analysis to compare predicted and actual school performance. An effect size of 0.3 demonstrates the school is performing higher than expected to a meaningful degree.

APPENDIX A: CHARTER SCHOOLS PROGRAM GRANT PRIORITIES

- The school must have procedures and systems in place to assist students in gaining admittance into college, track the matriculation of students into college,¹⁷ and support students as they transition to college.¹⁸ If the replicating high school does not yet have a graduating cohort, it could qualify if the qualitative data collected during the Institute’s school evaluation visits indicates that the replicating school is on track to meet these criteria.

Should the SUNY Trustees approve a single existing SUNY authorized school for replication, the Institute will notify the applicant of its status related to this requirement prior to moving final paper work to NYSED for finalization of the charter and in relation to processing CSP paperwork.

- **Replicating as part of a network of schools:**¹⁹ The network’s record of student achievement must have met the standard for a single school listed above. If a network includes one or more schools that do not have three years of applicable data, those schools must demonstrate meeting the criteria during each of the years for which data are available.

At the Institute’s discretion, schools that do not meet the above criteria but who have a unique mission or specifically target at risk students may also be eligible for supplemental CSP funding.

¹⁷ Examples may include high rates of completion of college entrance requirements, such as the Free Application for Federal Student Aid, individual applications for college entrance, and systems to monitor student matriculation.

¹⁸ Examples may include structured alumni programs that provide formal support structures for graduates, formal dialogue between school staff and college advisors regarding the academic performance of admitted students, etc.

¹⁹ The definition of a “network” for this purpose is broader than, but includes, the Institute’s definition of an Educational Service Provider as set forth in SUNY’s Charter Agreement. While CMOs and educational management organizations (“EMOs”) (other than for-profit organizations) would be included, shared service groups, and schools under common governance or affiliation, schools under a common licensing agreement may all be considered as one network. If a network had particular branding, strands or sub-organizational units, each one of those could also be considered a network. At this time, only schools operated in New York State will be considered part of a network.

ASSURANCES REGARDING THE PROVISION OF SPECIAL EDUCATION SERVICES

The education corporation provides the following assurances regarding the provision of special education and other services to students to be enrolled in the proposed charter school.

- The education corporation will adhere to all provisions of federal law relating to students with disabilities including IDEA, Section 504 of the Rehabilitation Act of 1973 (“Section 504”), and Title II of the Americans with Disabilities Act (“ADA”) which are applicable to it.
- The Education Corporation will, consistent with applicable law, work with Local Educational Agency (“LEA”) school districts to ensure that all students with disabilities that qualify under the IDEA:
 - Have available to them a free, appropriate, public education (“FAPE”);
 - Are appropriately evaluated;
 - Are provided with an Individualized Education Program (“IEP”);
 - Receive an appropriate education in the least restrictive environment (“LRE”);
 - Are involved in the development of and decisions regarding the IEP, along with their parents; and,
 - Have access to appropriate procedures and mechanisms, along with their parents, to resolve any disputes or disagreements related to the school’s or school district’s provision of FAPE.
- The Education Corporation will employ, at a minimum, a properly certified individual as the school’s special education coordinator, whose responsibilities will include coordinating with Committees on Special Education (“CSEs”); providing information to and obtaining information from CSEs as needed throughout the year; determining if entering students have IEPs; and, working with CSEs and school districts to ensure that all required special education and related services are being provided and that all IEPs are appropriate in the context of the charter school setting. The education corporation may permit the special education coordinator to take on additional administrative duties to the extent that they do not interfere with the coordinator’s responsibilities to ensure the school’s compliance with the IDEA, Section 504, and Title II of the ADA.
- The education corporation will make available, as required by law, a student’s regular and special education teachers (and other required school personnel) for meetings convened by such student’s CSE and provide such teachers and personnel with copies of the student’s IEP.

APPENDIX B: ASSURANCES

- The education corporation will ensure that parents of children with special needs are informed of how their children are progressing on annual IEP goals and in the general curriculum at least as frequently as parents of regular education children.
- The education corporation will abide by the applicable provisions and regulations of the IDEA and the Family Educational Rights Privacy Act (FERPA) as they relate to students with disabilities including, but not limited to, having procedures for maintaining student files in a secure and locked location with limited access.
- The school's special education coordinator will retain such data and prepare such reports as are needed by each disabled student's school district of residence or NYSED in order to permit such entities to comply with federal law and regulations.
- The education corporation will comply with its obligations under the Child Find requirements of IDEA including 34 C.F.R. § 300.111 and will provide appropriate notification to parents in connection therewith as applicable including notifying them prior to providing a child's name to a CSE for potential evaluation.
- The education corporation will not convene its own CSE, make IDEA evaluations of children suspected of being disabled, create IEPs, reevaluate or revise existing IEPs, or conduct due process hearings. The education corporation understands that these responsibilities are left solely to the CSE of the student's district of residence and will implement IEPs as written.
- Appropriate education corporation personnel will attend such training and technical assistance seminars regarding the education and servicing of special education students as is required by the SUNY Trustees including those sponsored by the NYSED.

ASSURANCES REGARDING THE PROVISION OF FISCAL AUDITS AND DISSOLUTION

The education corporation provides the following assurances regarding the provision of fiscal audits and dissolution of the education corporation.

FISCAL AUDITS

The Education Corporation will provide for an annual independent fiscal audit conducted by a certified public accountant or certified public accounting firm licensed in New York State.

The Education Corporation will ensure such consolidated audited financial statements include:

- A statement of income and expenditures and a balance sheet for the most recent fiscal year for each school of the education corporation for which the Education Corporation has received approval to operate. A separate income and expenditure statement and balance sheet should be included for each approved school or site in a startup phase, and for schools or sites for which opening has been delayed;
- A statement of income and expenditures and a balance sheet for the most recent fiscal year for any central or regional back office component;
- A statement of income and expenditures and a balance sheet for the most recent fiscal year for any other distinct component of the Education Corporation;
- A consolidated statement of income and revenues and a consolidated balance sheet for the Education Corporation; and,
- A federal single audit report, if applicable.

An Education Corporation with the authority to operate multiple schools must provide specific procedures for conducting independent audits of consolidated financial statements for the education corporation and all of its schools.

DISSOLUTION PROCEDURES

The education corporation will:

- Create a communication plan for students, families, and staff. The communication plan shall take into account timing to ensure students are able to take advantage of other school choice options that may be available.

APPENDIX B: ASSURANCES

- Provide the Institute with the parent names and addresses of all students enrolled in the school, at the time, by grade to enable the Institute to communicate directly with families regarding the process as necessary.
- Transfer all student records, testing materials, etc. to the school district of location of the charter school and make available a copy of such records to each student's parent or legal guardian.
- Designate one or more trustees and/or employees to assist in the closure of the school, from an operational and financial perspective.
- Transfer the Education Corporation's fixed assets (if any, after the payment of all debts) in accordance with the law at the time of dissolution.
- Provide the procedures that the school would follow in the event of the closure and dissolution of the Education Corporation including for the transfer of students and student records, execution of a SUNY Closure Plan, and for the disposition of school assets.
- Establish an escrow account, in the case of a single-school education corporation, of no less than \$75,000 to pay for legal, final audit, and other wind up expenses associated with a dissolution should it occur. The budget shall reflect this commitment and include funding of \$25,000 increments in the school's first three years of instruction. (Note that a separate reserve fund does need to be established and be reflected separately in the financial statements and notes to the financial statements.)
- In the case of an education corporation operating multiple charter schools, the Education Corporation must follow the dissolution reserve fund provisions in its charter agreement and reserve the appropriate amount of funds accordingly.

The education corporation understands that the above provisions largely apply to an education corporation operating one charter school and that the above provisions must be modified in the case where the Education Corporation operates multiple charter schools and some, but not all, of those schools close.
