

INSTRUCTIONS / NOTES FOR 2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT (“APPR”)

1. In order to fulfill the requirement in the Charter Schools Act that each charter school in New York report its progress toward meeting academic goals annually, schools must report on student achievement and progress towards the goal areas included in their Accountability Plans. The SUNY Charter Schools Institute (the “Institute”) has modified the APPR template to include guidance on reporting both the traditional required measures aligned to the New York State 3rd – 8th grade assessments as well as internal examination results. The calculation of some metrics remains paused for 2021-22 and is clearly indicated in the template below. Where applicable, the Institute has provided modified guidance on how and what schools should report under each section.
2. Charter schools with Accountability Plans that contain additional measures beyond the required measures and/or conditions on renewal should report on these under the “Additional Content and Evidence” sections for each goal area.
3. While the Institute anticipates that the 3rd - 8th grade state test results from 2021-22 will form a new baseline for evaluating attainment of Accountability Plan goals, it remains imperative that schools continue to supplement these data with results from national norm-referenced tests or internally developed assessments under each goal area. At minimum, schools should include growth results under the “Internal Assessment Results” sections of the ELA and mathematics goal areas. Schools that wish to report additional internal exam results may use the sample tables available in Appendix A.
4. The deadline for submission of the APPR is September 16, 2022. Schools with extenuating circumstances may request an extension as necessary. As it does every year, the Institute will validate and post the finalized APPRs onto its website.
5. **Text Highlighted in Grey = explanation or guidance for an entry.** As guidance, schools should remove the existing text entirely and replace it with information to complete the report.
6. Schools serving students in 9th – 12th grades additionally submit a student-level data file as part of the required annual reporting to the Institute. These data should align to and corroborate the high school achievement outcomes reported in the APPR. For example, the number of students included in the 2018 Total Cohort for Graduation and the 2021-22 four-year graduation rate reported in this document should be able to be calculated from this high school data submission.
7. Please do not include these instructions or the reference guide below in the submitted report.

Dr. Nicholas Stapleton has served as the Chief Academic Officer since the school was founded.

SCHOOL OVERVIEW

The Academy Charter School Uniondale continues to successfully serve a student population with a large percentage of English language learners, special education students, and economically disadvantaged students. In September 2020, the high school grades were added with a cohort of 125 ninth graders. In September 2021 the Academy Charter Middle School was added with a total enrollment of 100 students. During the same year, the elementary grades (K-5) were expanded to include additional students.

The Academy improves student academic achievement by focusing on the development of three important areas of children’s growth: mastering core academic subjects, promoting character development, and fostering a lifelong behavior of giving back to the community. With the advent of COVID-19, the Academy expanded the social-emotional program to meet the needs of students and staff.

Mission:

“Create world class competitive scholars who will LEARN today, LEAD tomorrow, and SERVE in the future”

Vision:

The Academy Charter School (“The Academy”) will offer an exceptional interdisciplinary curriculum in a technology rich environment that challenges students to explore connections across subjects and use experiential learning to bridge the gaps between theory and practice. In addition to core subjects, our students will benefit from high expectations in physical education, health, and the arts. The enriched –high-quality program encourages Academy scholars to exceed expectations, foster and appreciation for diversity in talents and artistic and creative potential. Our focus on character development and community service will cultivate a student body poised to be active, engaged and responsible members of the community. We will employ a committed staff whose teaching and high academic and behavioral expectations will promote the excellence we know our community’s children can achieve.

Key Design Elements:

The nine key design elements educational plan are intent to provide our students across various ability levels to achieve success, understanding their strengths and unique abilities, and develop the self- discipline and confidence required to excel in any environment.

Extended Learning Time – this includes extended school day of eight hours, two hours after school program, and support for students in a three-hour Saturday school program and during the winter/spring/summer breaks. Moreover, select high school students attend a six-week program geared towards preparation for Regent’s exam.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

Teacher Student Ratio/Moderate Class Size – Each Elementary School class has 25 to 27 students, two adults in every classroom. This allows for greater focus on student support including small groups and individualized instruction.

Standard Based New York State Next Generation Learning Standards.

Professional Development – Ongoing support for teachers. This includes a two-week pre-service teacher induction and training. Full time Math and English Language coaches in grades K-8, and content specific departmental chairs in the high school.

Character Development – Students in grades K-8 receive ongoing instruction and participate in discussions related to key core values geared towards character development using selected curriculum.

Data Usage – Ongoing scheduled assessments using a variety of assessment tools in K-12. These include Renaissance STAR Read & Math (K-8), Fountas and Pinnell (K-5), NWEA MAP (High School), Las Link (ESL), and other Interim Assessments aligned to New York State assessments (3- 8), and Regents Exams, Practice SAT & ACT. These assessments allow for measuring student progress and inform the instructional program.

Remediation & Enrichment- There is ongoing support for students during the school day and after school. There is also accelerated course work for middle school and high school.

Service Learning – Students in middle and high school are required to complete service learning and volunteering projects.

Technology -S.T.E.M- Schoolwide use of integrating technology as a learning tool and specific STEM instruction in grades K-12.

The 2021-2022 school year saw the full return of in-person instruction for all students, although periodic interruptions continued due to the impacts of COVID-19. The Academy was fully committed to combatting these disruptions. Interventions included increased communication between the school and families, regular town hall meetings, and when necessary, home visits.

HIGH SCHOOL COHORTS

ACCOUNTABILITY COHORT

The state’s Accountability Cohort consists specifically of students who are in their fourth year of high school after entering the 9th grade. For example, the 2018 state Accountability Cohort consists of students who entered the 9th grade anywhere sometime during the 2018-19 school year, were enrolled in the school on the state’s annual enrollment-determination day (BEDS day) in the 2021-22 school year, and either remained in the school for the rest of the year or left for an acceptable reason. (See New York State Education Department’s SIRS Manual for more details about cohort eligibility and acceptable exit reasons: <http://www.p12.nysed.gov/irs/sirs/ht>)

The following table indicates the number of students in the Accountability Cohorts who are in their fourth year of high school and were enrolled at the school on BEDS Day in October and remained in the school until June 30th of that year.

TOTAL COHORT FOR GRADUATION

Students are also included in the Total Cohort for Graduation (referred to as the Graduation Cohort, Total Graduation Cohort, or Total Cohort interchangeably throughout this report) based on the year they first enter the 9th grade. Students enrolled for at least one day in the school after entering the 9th grade are part of the school’s Graduation Cohort. The school may remove students from the Graduation Cohort if the school has discharged those students for an acceptable reason listed in the SIRS manual, including but not limited to the following: if they transfer to another public or private diploma-granting program with documentation, transfer to home schooling by a parent or guardian, transfer to another district or school, transfer by court order, leave the U.S., or are deceased.

PROMOTION POLICY

Promotion decisions for scholars in grades 9-12 are based on credit accumulation, successful completion of coursework, and passing of Regents exams.

Our promotion in doubt process provides families with formal notifications (promotion in doubt letters) that their child is at risk of not meeting promotion standards and being retained in the same grade for the upcoming school year. This notification will occur at the conclusion of the first semester (mid-year) and will be provided along with the second quarter report cards.

Throughout the course of the school year, several parent-teacher conferences are held in which parents are able to discuss student progress with their child's teacher. Report cards are also distributed at the conclusion of each academic quarter. Additionally, school counselors monitor the academic progress of the students within their assigned cohorts and meet with both students and parents to discuss the supports necessary to ensure successful completion of the school year.

The school principal, in consultation with counselors, makes promotion decisions for all students in mid-June. Promotion decisions are communicated to scholars and families by the end of the school year. High school scholars who do not meet promotion requirements in June have the right to attend summer school and be promoted in August if promotion standards are met at that time.

The following are the grade-by-grade promotion standards for the Academy Charter High School and reflect the minimum criteria for promotion from the scholar's current grade to the next grade.

Grade	Units of Credit	Passed Regents
9	5	1
10	11	3
11	17	4
12	22	5

GOAL 1: HIGH SCHOOL GRADUATION

GOAL 1: HIGH SCHOOL GRADUATION

All students at the school will graduate from high school.

Goal 1: Leading Indicator

Each year, 75 percent of students in first- and second-year high school Total Graduation Cohorts will earn at least ten credits (if 44 needed for graduation) or five credits (if 22 needed for graduation) each year.

METHOD

This measure serves as a leading indicator of the performance of the high school cohort and examines students' progress toward graduation based on annual credit accumulation. The measure requires that, based on the school's promotion requirements, 75 percent of the first- and second-year high school Total Graduation Cohorts will earn the required number of credits.

RESULTS AND EVALUATION

The Academy High School Uniondale met this goal for its first- and second- graduation cohorts with 98.1% and 99.1% meeting the promotion requirements respectively. The 2020 cohort exceeded the goal by 23.1% and the 2021 cohort exceeded the goal by 24.1%.

Earning the Required Number of Credits in 2021-22

Cohort Designation	Number in Cohort during 2021-22	Percent promoted
2020	108	98.1%
2021	112	99.1%

ADDITIONAL EVIDENCE

The Academy provided on-going professional development for teachers on effective instructional practices and how to support the social and emotional needs of students. The school also provided professional development for teachers to increase their knowledge-based related to standards-

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

based curriculum and pedagogy. The Academy used data-driven instructional practices to consistently monitor and respond to the academic needs of students. The school will continue to support struggling students by providing academic services in all core academic subjects. Students received targeted support during the school day using an intervention period for all students. They also had an extended school day and opportunities such as Saturday tutoring, Winter and Spring Break intervention. The school engaged families through regular virtual Town Hall meetings with the purpose of keeping families informed.

Goal 1: Leading Indicator

Each year, 75 percent of students in the second-year high school Total Graduation Cohort will score at or above proficient on at least three different New York State Regents exams required for graduation.

METHOD

This measure serves as a leading indicator of the performance of high school cohorts and examines their progress towards graduation based on Regent's exam passage. The measure requires that 75 percent of students in each Graduation Cohort have passed at least three Regents exams by their second year in the cohort.

As a result of the Board of Regents' guidance regarding the cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22 for the most recent second year cohort schools should report the percentage of students who either passed or were exempted from at least three exams. In August of 2022, the 2019 cohort will have completed its second year.

RESULTS AND EVALUATION

The Academy Uniondale did not achieve its goal of 75% of students achieving proficiency on at least three different New York State Regents exams required for graduation for the 2020 cohort. 63.9% of students in the cohort passed at least three Regents exams; 11.1-percentage points short of the goal.

Percent of Students in their Second Year Passing Three Regents Exams by Cohort

Cohort Designation	School Year	Number in Cohort	Percent Passing at Least Three Regents (including exemptions)
2018	2019-20	N/A	N/A
2019	2020-21	N/A	N/A
2020	2021-22	108	63.9%

ADDITIONAL EVIDENCE

Under the Special Appeal provision that was granted for the June 2022 and August 2022 Regents exams, 20 more students meet the graduation requirements for three or more Regents (82.4%).

The school will continue to support struggling students by providing academic services in all core academic subjects. The school will provide additional support including after-school and Saturday

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

tutoring, Winter and Spring Break intervention. School counselors will meet with all students individually at least twice a year to review progress toward graduation and design action plans.

Goal 1: Absolute Measures

Each year, 75 percent of students in the fourth-year high school Total Graduation Cohort and 95 percent of students in the fifth-year high school Total Graduation Cohort will graduate.

METHOD

This measure examines students in two high school Graduation Cohorts: those who entered the 9th grade as members of the 2018 cohort and graduated four years later and those who entered as members of the 2017 cohort and graduated five years later. This data reflects August graduation rates. At a minimum, these students have passed or been exempted from five Regents exams required for high school graduation in ELA, mathematics, science, U.S. History, and Global History or met the requirements for the 4+1 pathway to graduation.¹

The school's graduation requirements appear in this document above the graduation goal.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

<http://www.p12.nysed.gov/cia/multiple-pathways/>.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

Goal 1: Comparative Measure

Each year, the percentage of students in the high school Total Graduation Cohort graduating after the completion of their fourth year will exceed that of the Total Graduation Cohort from the school district of comparison.

METHOD

The school compares the graduation rate of students completing their fourth year in the charter school's Total Graduation Cohort to that of the respective cohort of students in the school district of comparison. Given that district results for the current year are generally not available at this time, for purposes of this report schools should include the district's 2020-21 results as a temporary placeholder for the district's 2021-22 results.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

Percent of Students in the Total Graduation Cohort who Graduate in Four Years Compared to the District

2018	2021-22	N/A	N/A	N/A	N/A	N/A

ADDITIONAL EVIDENCE

Goal 1: Absolute Measure

Each year, 75 percent of students in the high school Total Cohort pursuing an alternative graduation pathway (commonly referred to as the 4+1 pathway) will achieve a Regents equivalency score and pass an approved pathway assessment required for graduation by the end of their fourth year in the cohort.

METHOD

The New York State Board of Regents approved regulations establishing alternative pathways to graduation for all students. Students may replace one of the required Social Studies Regents exams with an approved alternative assessment. For more information about requirements and approved assessments refer to the NYSED resource online: <http://www.p12.nysed.gov/ciai/multiple-pathways/>. The school will document the names of the alternative assessments administered and success rate for students in the templates below.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

As a result of the Board of Regents’ guidance regarding the cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22 students planning to take a pathway examination during those cancelled dates would be exempted from the requirement. For purposes of this measure, only report results for students with valid scores for any pathway exam.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

ADDITIONAL CONTEXT AND EVIDENCE

While the Academy High School Uniondale does not currently have a cohort for evaluation under this indicator, the 2020 cohort is making progress towards this goal with 43 students (39.8%) earning credit for 4 or more Regents exams.

SUMMARY OF THE HIGH SCHOOL GRADUATION GOAL

The Academy High School Uniondale has met one out of the two measurable indicators for the 2021-2022 school year. It has not met the Leading Indicator, “Each year, 75 percent of students in the high school Total Graduation Cohort will score at least 65 on at least three different New York State Regents exams required for graduation by the completion of their second year in the cohort.”

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

ACTION PLAN

The Academy High School Uniondale has been in operation for two years and therefore has limited data for the above indicators. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

To improve and ensure the school meets the goals at the appropriate time the school will continue to support struggling students by providing academic services in all core academic subjects. The school will expand its staff to include a college counselor, additional special educator and additional ESL teacher for the 22- 23 school year. The school will continue to provide ENL students with support in both their native and target language. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. The Academy will expand its already robust professional development for all teachers on effective instructional practices, by leveraging content expert consultants.

GOAL 2: COLLEGE PREPARATION

GOAL 2: COLLEGE PREPARATION

All students will be prepared to attend college.

Scholars at The Academy Charter High School are supported throughout the entirety of the college application process. The school year starts with college counselor and family meetings for each student. Next, students are given expectations for what to expect throughout the school year. This includes gauging initial interests, creating a list of colleges, determining eligibility for financial aid and opportunity programs, and setting the scope of support the college counselor will provide. Students then meet with the college counselor for the duration of the year in small groups. During the student/counselor meetings, students are encouraged to build balanced college lists, complete their personal statement, and apply to CUNY, SUNY, and private/public out of state schools. Families are welcomed to meet with the college counselor to obtain assistance with completing financial aid forms such as the FAFSA, TAP, and CSS Profile, as well as any additional opportunity program and scholarship applications students may need to complete. The school will continue to support our families throughout the decision making and college commitment process by hosting financial aid review workshops and individualized sessions to support families in making informed decisions about the child's future college matriculation.

Goal 2: Absolute Measure

Each year, 75 percent of graduating students will demonstrate their preparation for college by at least one or some combination of the following indicators:

- Passing an Advanced Placement ("AP") exam with a score of 3 or higher;
- Earning a score of 4 or higher on an International Baccalaureate ("IB") exam;
- Passing a College Level Examination Program ("CLEP") exam;
- Passing a college level course offered at a college or university or through a school partnership with a college or university;
- Achieving the college and career readiness benchmark on the SAT;
- Earning a Regents diploma with advanced designation; or,
- A different school-created indicator approved by the Institute.

METHOD

Schools use any method listed here, or any combination thereof, to demonstrate that at least 75 percent of graduates are prepared to engage in rigorous college level coursework. The school should select only those methods listed here that it uses to demonstrate the college readiness of its students and eliminate those that it will not. For instance, high schools that do not deliver an IB Program as part of their high school design do not report on the IB option. The school reports on the number of students who attempted to achieve each indicator, the number who succeeded, and the corresponding percentage. Additionally, the school should report on the overall number of students who graduated after four years, the number of those graduates who achieved any of the relevant indicators, and the overall percentage achieving any indicator.

For schools that offer a college level course offered at a college or university or through a school partnership with a college or university, provide details about the course offerings and partnership.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will offer college courses through a partnership with SUNY Farmingdale beginning in the 2022-2023 school year in addition to AP English Language.

Courses:

BCS 102 – Computer Concepts & Applications

This is an introductory course in the use of personal computers in today's society. Students will receive instruction in basic computer concepts and terminology, the fundamentals of the Windows operating system and have hands on experience at the beginning to intermediate level using Microsoft Word, Excel, and PowerPoint. The Internet will be used to supplement textbooks and lecture materials.

HPW 105 – Medical Terminology

This course is the study of medical terminology. The focus is on prefixes, suffixes, word roots and their combining forms by an introduction to medical word building and the general structure of the body and its various body systems. Students will learn word construction, spelling, usage, comprehension, and phonetic 'sounds like' pronunciations as well as some common medical abbreviations. This course is just right for Health Studies students who are considering a career in dental hygiene, nursing, or medical technology.

BUS 111 – Introduction to Business

This course introduces the student to the fundamentals of American Business and its contemporary environment. It provides an overview of organizational, national, and international trends and their impact on enterprises both large and small. The course develops an understanding of important business concepts, principles, and practices that explain how businesses are formed, how they operate to accomplish their goals, and why/how their success depends on effective management, production, marketing and finance/accounting.

NTR 200 - Food Science

This course stresses the practical application of nutritional science throughout life. It discusses nutritional changes that occur during various life stages such as pregnancy, infancy, adolescence, adulthood, and old age. Students explore the biological aspects of all major nutrients and relate them to chronic diseases. Basic chemistry principles are applied to major nutrient groups. Recommendations for adequate nutrient intake are presented and related to food consumption habits. This course evaluates nutritional supplement claims and discusses changes in athlete nutrient requirements in training and during competition.

To achieve this goal in the future, the school will continue to expand opportunities for students to participate in Advanced Placement (AP) and college-level courses.

Goal 2: Absolute Measure

Each year, the College, Career, and Civic Readiness Index (“CCCRI”) for the school’s Total Cohort will exceed the Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

The Institute does not require charters to report on this measure for 2021-22.

Goal 2: Comparative Measure

Each year, the school’s CCCRI for the Total Cohort will exceed that of the district of comparison’s Total Cohort.

The Institute does not require charters to report on this measure for 2021-22.

Goal 2: Absolute Measure

Each year, 75 percent of graduating students will matriculate into a college or university in the year after graduation.

METHOD

The ultimate measure of whether a college prep high school has lived up to its mission is whether students actually enroll and succeed in college. Schools track and report the percentage of fourth-year Total Cohort graduates who matriculate into a two or four-year college program in the school year following graduation. Schools should update and confirm data for Cohorts prior to 2021-22 and provide preliminary matriculation data for 2018 Cohort. It may be necessary for schools to

² This number should match the number of graduates reported under the high school graduation goal.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

provide updated data to the Institute when National Student Clearinghouse or other data sources become available later in the school year.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

	[Write in additional measure here]	

ACTION PLAN

To achieve this goal, the school will increase opportunities for students to participate in Advanced Placement and college level courses. The school has hired a college counselor to work with students during their junior year beginning the college application process. The school is making intentional shifts in school culture to provide increased access to college level courses. Counselors met with individual students and families to ensure that their schedules are aligned with future goals. To support students in achieving the college readiness benchmark on the SATs, we will continue to offer SAT prep. We also will continue to offer additional one-to-one tutoring (including peer tutoring) for students in preparation for Regents examinations.

GOAL 3: ENGLISH LANGUAGE ARTS

Goal 3: English Language Arts

All students at the school will be proficient in the reading and writing of the English Language

BACKGROUND

The Integrated Language Arts Program of The Academy Charter School Uniondale is based on the premise that students come to school with a wide range of language abilities. To this end, speaking, listening, reading and writing form the basis for the curriculum in the English Language Arts. Through a developmentally appropriate and rigorous approach to Integrated English Language Arts, students develop their ability to communicate ideas, feelings, and facts effectively while honing their skills in reading and writing. The Academy Charter School Uniondale uses a balanced learning approach whereby we incorporate research-based literacy programs along with the New York State Next Generation Learning Standards to ensure that our young people are prepared as they progress towards college and career readiness.

Teachers at every grade level plan and implement learning experiences aligned with the State Standards. Teachers utilize the *My View* (K-5), *My Perspectives and Houghton Mifflin* (6-8), and other standards-based supplementary texts from the *Rally Education, Literacy Footprints Guided Reading Program*®, and the *Heinemann Fountas and Pinnell*® Assessment systems. The *Teachers College Writers Workshop* and *Wilson's Foundations* (K-2) complete the balanced literacy learning approach.

Students complete multiple learning experiences in which they are able to utilize their classroom, library, school library, and various media sources connected through various multi-media systems. Each classroom library is leveled in accordance with best practices and students are able to choose from multiple genres, levels, and content when completing assigned tasks and/or independent reading activities.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

Goal 3: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State English language arts examination for grades 3-8.

METHOD

The school administered the New York State Testing Program English language arts (“ELA”) assessment to students in 3rd through 8th grades in spring 2022. Each student’s raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year’s test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year (defined as enrolled by BEDS day of the previous school year).

RESULTS AND EVALUATION

Brief narrative highlighting results in the data table below that directly addresses the measure, i.e., the overall percent of students *in at least their second year* achieving at proficiency. Narrative explicitly stating whether the school met the measure and discussing by how much the school fell short of or exceeded the measure, as well as notable performance in specific grades and populations. Also, use this section to explain the results in the context of the school program, attributing the results to effective practices or problem areas.

In the 2021-22 school year, The Academy Charter School-Uniondale students did not meet the goal of having at least 75% of students enrolled in at least their second year at the school achieve proficiency on the state English language arts exam. Overall, the school missed the absolute goal by 10.8 percentage points. The grade closest to achieving the goal of 75% proficiency was the school’s third grade, where over 74.6% of students enrolled in at least their second year achieved proficiency on the English language arts exam. However, this was still .4 of a percentage point below the goal.

ADDITIONAL EVIDENCE

Narrative discussing year-to-year trends during the current Accountability Period⁴. This discussion shows how the school is making progress towards, or maintaining, a high level of performance. Additional evidence may include other valid and reliable assessment results that demonstrate the effectiveness of the school’s instructional program

Because the state English language arts exam was not administered in the 2019-20 school year and was administered on a limited basis in the 2020-21 school year, year-to-year trends would not provide meaningful data to analyze, this was the first English language arts assessment exam taken by students at the school. Thus, there are no year-to-year trends to analyze.

Goal 3: Absolute Measure

Each year, the school’s aggregate Performance Index (“PI”) on the State English language arts exam will meet that year’s state Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

The Institute does not require charters to report on this measure for 2021-22.

Goal 3: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the school district of comparison.

METHOD

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which

the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.⁵

RESULTS AND EVALUATION

Brief narrative highlighting results in the data table that directly addresses the measure, e.g. the aggregate charter school performance compared to the aggregate district performance in the same tested grades. Narrative explicitly stating whether or not the school met the measure, i.e., whether the charter school fell short of, equaled or exceed the aggregate district performance and by how much. In addition the evaluation may also include a discussion of specific grade levels' comparative performance.

Comparative Goal 1 cannot be measured at this time because the district's 2021-22 English language arts results are not available.

ADDITIONAL EVIDENCE

Narrative provides a discussion of the charter school's performance in comparison to the local district in previous years. In addition, the school can use a supplemental table for this section on a comparison of the charter school to selected local schools. Also, additional evidence may include demographic differences between the school and the district as well as compelling reasons for comparing the school to a subset of schools within the district.

Because the 2021-22 school year was the first-time students at the school took the English language arts exam, there is no comparative data to analyze.

Goal 3: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an effect size of 0.3 or above (performing higher than expected to a meaningful

degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

The Institute conducts a comparative performance analysis which compares the school's performance to that of demographically similar public schools statewide. Given the timing of the state's release of data necessary to produce this analysis, the 2021-22 results are not yet available.

As such, The Institute does not require charters to report on this measure for 2021-22.

Goal 3: Growth Measure

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the target of 50.

The Institute does not require charters to report on this measure for 2021-22.

INTERNAL EXAM RESULTS

Given the lack of a consistent record of data suitable for analysis as a result of the COVID-19 pandemic, it remains paramount that schools continue to collect and report on internal exam results in order to build a base of evidence suitable for making a strong case for renewal. Provide narrative discussing how the school evaluated student growth and achievement in ELA during the 2021-22 school year using internal assessments.

During 2021-22, in addition to the New York State 3rd- 8th grade exams, the school(s) primarily used the following assessment to measure student growth and achievement in ELA: Choose an item.

The school administered the *Renaissance* STAR at the beginning of the year in September, and the end of the year in June.

At minimum, schools must provide specific growth results from the internal assessment used to supplement the state exams. Schools should attempt to answer the Institute's guiding question: Did students grow at the normed rate according to the beginning of year baseline score? For example, if the school administered the NWEA MAP assessment then report out the median growth percentile for all tested students and compare to the target of 50.

Schools that wish to report out on gap closing and absolute measures should refer to the Institute's [framework for analysis](#) and use the sample tables suitable for reporting these data available in [Appendix A](#). Paste the completed tables here.

ADDITIONAL CONTEXT AND EVIDENCE

Narrative discussing any concerns the school may have regarding the data reported above and the school's attempts to mitigate those concerns. For example, schools should describe any barriers to achieving high participation rates, unexpected challenges arising from the administration, etc. The school should also supplement the information above with additional quantitative evidence from other types of academic assessments or evidence capturing the results of co-academic interventions. **Schools with Accountability Plans that contain additional measures or conditions on renewal under the Elementary/Middle ELA goal should report those results here.**

ACTION PLAN

Narrative explaining how the school will strive to maintain consistency in its data collection and reporting. The narrative also explains what specific steps the school will take to maintain or improve academic performance based on the specific results associated with this goal, focusing in particular on strategic interventions including providing enhanced support or program revisions for explicit grades, cohorts, or subpopulations.

The school will continue to administer the internal assessment at strategic points during the school year. This will allow for assessment at the beginning, mid-way, and end of the school year using the sample schedule below. The school will schedule assessments to accommodate virtually learning but will administer the assessment in-person to the extent possible.

The school will continue to support struggling students by providing academic services in English Language Arts. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy. For the 2022-23 school year, the school will hire additional special education and ESL staff to target instruction for these two subgroups.

During the 2022-23 school year the school will continue the implementation of the New Next Generation Standards.

HIGH SCHOOL ENGLISH LANGUAGE ARTS

Goal 3: Absolute Measure

Each year, 65 percent of students in the high school Accountability Cohort will exceed Common Core expectations (currently scoring at or above Performance Level 4 on the Regents Exam in English Language Arts (Common Core)) by the completion of their fourth year in the cohort.

METHOD

The school administered the Regents English exam that students must pass to graduate. The State Education Department currently defines the college and career readiness standard as scoring at or above Performance Level 4 (meeting Common Core expectations) on the Regents Exam in English Language Arts (Common Core). This measure examines the percent of the Accountability Cohort that achieved at least Performance Level 4 by the completion of their fourth year in the cohort.

Due to the state's cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22 some students in the 2018 Cohort who had not previously sat for the exam but were scheduled to sit for this exam during a cancellation would be exempted from the graduation requirement. As such, the school should report both the number of students who were exempted from the exam as well as the percentage of students achieving at least Level 4 among the students who sat for the exam.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. Students in the 2020 cohort did take the Regents Common Core Exam; 21.3% scored at least at level 4.

Each year, 80 percent of students in the high school Accountability Cohort will at least partially meet Common Core expectations (currently scoring at or above Performance Level 3 on the Regents Exam in English Language Arts (Common Core)) by the completion of their fourth year in the cohort.

METHOD

The school administered the Regents English exam that students must pass to graduate. The school scores Regents on a scale from 0 to 100. The State Education Department currently defines the cut off for passing and meeting the requirement for graduation as scoring at or above Performance Level 3 (partially meeting Common Core expectations) on the Regents Exam in English Language Arts (Common Core). This measure examines the percent of the Accountability Cohort that achieved at least Performance Level 3 by the completion of their fourth year in the cohort.

ADDITIONAL EVIDENCE

To improve in this area, the Academy has a renewed focus on reading at the secondary level. The ELA curricula are being revised for alignment with the Next Generation standards as well as improving student reading stamina. The school has also adopted the use of IXL to allow for systematic progress monitoring of student proficiency on the standards. Additionally, the school is increasing co-teaching, adding more academic support teachers, and employing a consultant to train English department leaders.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

Each year, the Performance Index (“PI”) on the Regents English exam of students completing their fourth year in the Accountability Cohort will meet the state’s Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

The Institute does not require charters to report on this measure for 2021-22.

Goal 3: Comparative Measure

Each year, the percent of students in the high school Total Cohort meeting or exceeding Common Core expectations on the Regents Exam in English Language Arts (Common Core) will exceed the percentage of comparable students in the district meeting or exceeding Common Core expectations.

The Institute does not require charters to report on this measure for 2021-22.

The Institute does not require charters to report on this measure for 2021-22.

Goal 3: Comparative Measure

Each year, the Performance Index (“PI”) in Regents English of students in the fourth year of their high school Accountability Cohort will exceed that of comparable students from the school district of comparison.

The Institute does not require charters to report on this measure for 2021-22.

Goal 3: Growth Measure

Each year, 50 percent of students in the high school Accountability Cohort who did not score proficient on their New York State 8th grade English language arts exam will meet the college and career readiness standard (currently scoring at Performance Level 4 and fully meeting Common Core expectations on the Regents Exam in English Language Arts (Common Core)) by the completion of their fourth year in the cohort.

METHOD

The school demonstrates the effectiveness of its English language arts program by enabling students who were not meeting proficiency standards in the eighth grade to meet the English requirement for the college and career readiness standard.

ACTION PLAN

The school will continue to support struggling students by providing academic services in English Language Arts. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy. To improve in this area, the Academy has a renewed focus on reading at the secondary level. The ELA curricula are being revised for alignment with the Next Generation standards as well as improving student reading stamina. The school has also adopted the use of IXL to allow for systematic progress monitoring of student proficiency on the standards. Additionally, the school is utilizing content expert consultants to develop English department leaders, special educators and ESL teachers.

Teachers will be provided with intensive daily professional development and support. There will be focus on content, pedagogy, practice, and rigor. Moreover, there will be ongoing professional development focused on social and emotional learning.

GOAL 4: MATHEMATICS

Goal 4: Mathematics

All students at the school will be proficient in mathematics

BACKGROUND

The Academy Charter School Uniondale recognizes that curriculum, instruction and assessment must be dynamic through this period. In evaluating the strengths of our current curriculum and the needs of our varying student populations, we recognize that modifications would be required. Some modifications are driven by safety considerations, whereas others are predicated on instructional value.

The school will continue to use the curriculum outlined in the charter. Teachers at the K-8 grade levels plan and implement learning experiences aligned with the Next Generation State Standards. Teachers utilize the Pearson, *Envision*, and *Great Minds, Eureka* curriculums are utilized in the elementary and middle school grades, and other standards-based supplementary materials from the *Rally Education*. In high school, the *Pearson* curriculum is being utilized for instruction.

ELEMENTARY AND MIDDLE MATHEMATICS

Goal 4: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State Mathematics examination for grades 3-8.

METHOD

The school administered the New York State Testing Program Mathematics assessment to students in 3rd through 8th grades in spring 2022. Each student’s raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year’s test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year (defined as enrolled by BEDS day of the previous school year).

RESULTS AND EVALUATION

Brief narrative highlighting results in the data table below that directly addresses the measure, i.e., the overall percentage of students *in at least their second year* achieving proficiency. Narrative explicitly stating whether the school met the measure and discussing by how much the school fell short of or exceeded the measure, as well as notable performance in specific grades and populations. Also, use this section to explain the results in the context of the school program, attributing the results to effective practices or problem areas.

In the 2021-22 school year, The Academy Charter School - Uniondale students did not meet the overall goal of having at least 75% of students enrolled in at least their second year at the school achieve proficiency on the state mathematics exam. Overall, the school missed the absolute goal by 21.5 percentage points. The school’s third grade was the closest individual grade to achieving the goal, with 71.4% of students achieving proficiency on the exam.

Performance on 2021-22 State Mathematics Exam

⁷ Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

ADDITIONAL EVIDENCE

Narrative discussing year-to-year trends during the current Accountability Period⁸. This discussion shows how the school is making progress towards, or maintaining, a high level of performance. Additional evidence may include other valid and reliable assessment results that demonstrate the effectiveness of the school’s instructional program

Because the state mathematics exam was not administered in the 2019-20 school year and was administered on a limited basis in the 2020-21 school year, year-to-year trends would not provide meaningful data to analyze, this was the first mathematics assessment exam taken by students at the school. Thus, there are no year-to-year trends to analyze.

Goal 4: Absolute Measure

Each year, the school’s aggregate Performance Index (“PI”) on the state mathematics exam will meet that year’s state Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

The Institute does not require charters to report on this measure for 2021-22.

Goal 4: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the school district of comparison.

METHOD

A school compares tested students enrolled in at least their second year to all tested students in the public school district of comparison. Comparisons are between the results for each grade in which

⁸ A school’s Accountability Period includes the final year of the previous charter term through the penultimate year of the current charter term. For schools in their initial charter, the Accountability Period includes the first year of operation through the fourth year of the charter term.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.⁹

RESULTS AND EVALUATION

Brief narrative highlighting results in the data table that directly addresses the measure, e.g., the aggregate charter school performance compared to the aggregate district performance in the same tested grades. Narrative explicitly stating whether or not the school met the measure, i.e., whether the charter school fell short of, equaled or exceed the aggregate district performance and by how much. In addition, the evaluation may also include a discussion of specific grade levels' comparative performance.

Comparative Goal 1 cannot be measured at this time because the district's 2021-22 mathematics assessment results are not available.

ADDITIONAL EVIDENCE

Narrative provides a discussion of the charter school's performance in comparison to the local district in previous years. In addition, the school can use a supplemental table for this section on a comparison of the charter school to selected local schools. Also, additional evidence may include demographic differences between the school and the district as well as compelling reasons for comparing the school to a subset of schools within the district.

Because the 2021-22 school year was the first-time students at the school took the English language arts exam, there is no comparative data to analyze.

Goal 4: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an effect size of 0.3 or above (performing higher than expected to a meaningful degree)

⁹ Schools can acquire these data when the New York State Education Department releases its database containing grade level ELA and math test results for all schools and districts statewide. The NYSED announces the release of the data on its [News Release webpage](#).

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

The Institute conducts a comparative performance analysis which compares the school's performance to that of demographically similar public schools statewide. Given the timing of the state's release of data necessary to produce this analysis, the 2021-22 results are not yet available.

As such, The Institute does not require charters to report on this measure for 2021-22.

Goal 4: Growth Measure

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the target of 50.

The Institute does not require charters to report on this measure for 2021-22.

INTERNAL EXAM RESULTS

Given the lack of a consistent record of data suitable for analysis as a result of the COVID-19 pandemic, it remains paramount that schools continue to collect and report on internal exam results in order to build a base of evidence suitable for making a strong case for renewal. Provide narrative discussing how the school evaluated student growth and achievement in mathematics during the 2021-22 school year using internal assessments.

During 2021-22, in addition to the New York State 3rd- 8th grade exams, the school(s) primarily used the following assessment to measure student growth and achievement in mathematics: Choose an item. The school administered the *Renaissance* STAR at the beginning of the year in September, and the end of the year in June.

At minimum, schools must provide specific growth results from the internal assessment used to supplement the state exams. Schools should attempt to answer the Institute's guiding question: Did students grow at the normed rate according to the beginning of year baseline score? For example, if the school administered the NWEA MAP assessment then report out the median growth percentile for all tested students and compare to the target of 50.

Schools that wish to report out on gap closing and absolute measures should refer to the Institute's [framework for analysis](#) and use the sample tables suitable for reporting these data available in [Appendix A](#). Paste the completed tables here.

ADDITIONAL CONTEXT AND EVIDENCE

Narrative discussing any concerns the school may have regarding the data reported above and the school's attempts to mitigate those concerns. For example, schools should describe any barriers to achieving high participation rates, unexpected challenges arising from the administration, etc. The school should also supplement the information above with additional quantitative evidence from other types of academic assessments or evidence capturing the results of co-academic interventions. **Schools with Accountability Plans that contain additional measures or conditions on renewal under the Elementary/Middle Mathematics goal should report those results here.**

The administration of the *Renaissance* STAR assessment was challenging and the data may have limitations due to the interruption of proctoring caused by the protocols of the Covid-19 pandemic.

ACTION PLAN

Narrative explaining how the school will strive to maintain consistency in its data collection and reporting. The narrative also explains what specific steps the school will take to maintain or improve academic performance based on the specific results associated with this goal, focusing in particular on strategic interventions including providing enhanced support or program revisions for explicit grades, cohorts, or subpopulations.

The school will continue to administer the internal assessment at strategic points during the school year. This will allow for assessment at the beginning, midway, and end of the school year using the sample schedule below. The school will schedule assessments to accommodate virtually learning but will administer the assessment in-person to the extent possible.

The school will continue to support struggling students by providing academic services in Mathematics. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy. For the 2022-23 school year, the school will hire additional special education and ESL staff to target instruction for these two subgroups.

During the 2022-23 school year the school will continue the implementation of the New Next Generation Standards.

Teachers will be provided with intensive daily professional development and support. There will be focus on content, pedagogy, practice, and rigor. Moreover, there will be ongoing professional development focused on social and emotional learning.

HIGH SCHOOL MATHEMATICS

Goal 4: Absolute Measure

Each year, 65 percent of students in the high school Accountability Cohort will exceed Common Core expectations (currently scoring at or above Performance Level 4 on a Regents mathematics exam) by the completion of their fourth year in the cohort.

METHOD

The school administered the Regents mathematics exam(s) that students must pass to graduate. The State Education Department currently defines the college and career readiness standard as scoring at or above Performance Level 4 (meeting Common Core expectations) on any Regents Common Core mathematics exams. This measure examines the percentage of the Accountability Cohort that achieved at least Performance Level 4 by the completion of their fourth year in the cohort.

Due to the state's cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22, some students in the 2018 Cohort who had not previously sat for any mathematics exam but were scheduled to sit for one during a cancellation would be exempted from the graduation requirement. As such, the school should report both the number of students who were exempted from the exam requirement as well as the percentage of students achieving at least Level 4 among the students who sat for any exam.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

ADDITIONAL EVIDENCE

The June 2021 Regents exams were the first Regents exams that most students from the 2020 Cohort participated in due to extensive testing cancellations during the pandemic. They did not benefit from sitting for the Algebra 1 exam or Geometry exam, prior to taking the Algebra 2 Regents.

The school will continue to support struggling students by providing academic services in mathematics. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy. The mathematics curricula are being revised for alignment with the Next Generation standards as well as the [5 Practices for Orchestrating Productive Mathematics Discussions](#). The school has also adopted the use of IXL to allow for systematic progress monitoring of student proficiency on the standards. Additionally, the school is utilizing content expert consultants to develop mathematics department leaders, special educators and ESL teachers.

Goal 4: Absolute Measure

Each year, 80 percent of students in the high school Accountability Cohort will at least partially meet Common Core expectations (currently scoring at or above Performance Level 3 on a Regents mathematics exam) by the completion of their fourth year in the cohort.

METHOD

The school administered the Regents mathematics exam(s) that students must pass to graduate. The State Education Department currently defines the cut off for passing and meeting the requirement for graduation as scoring at or above Performance Level 3 (partially meeting Common Core expectations) on the Regents mathematics exams. This measure examines the percent of the Accountability Cohort that achieved at least Performance Level 3 by the completion of their fourth year in the cohort.

Due to the state’s cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22, some students in the 2018 Cohort who had not previously sat for any mathematics exam but were scheduled to sit for one during a cancellation would be exempted from the graduation requirement. As such, the school should report both the number of students who were exempted from the exam requirement as well as the percentage of students achieving at least Level 3 among the students who sat for any exam.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

ADDITIONAL EVIDENCE

The 2020 cohort has already exceeded the goal of 80% of students scoring at or above a performance level 3 by 14.4%. Additionally, 58.4% of the 2021 cohort has already achieved a level 3, so the Academy is on its way to meeting this goal.

Goal 4: Absolute Measure

Each year, the Performance Index (“PI”) on the Regents mathematics exam of students completing their fourth year in the Accountability Cohort will meet the state’s Measure of Interim Progress (“MIP”) set forth in the state’s ESSA accountability system.

The Institute does not require charters to report on this measure for 2021-22.

Goal 4: Comparative Measure

Each year, the percentage of students in the high school Total Cohort meeting or exceeding Common Core expectations on a Regents mathematics exam will exceed the percentage of comparable students in the district meeting or exceeding Common Core expectations.

The Institute does not require charters to report on this measure for 2021-22.

Goal 4: Comparative Measure

Each year, the percent of students in the high school Total Cohort at least partially meeting Common Core expectations on a Regents mathematics exam will exceed the percentage of comparable students in the district at least partially meeting Common Core expectations.

The Institute does not require charters to report on this measure for 2021-22.

Goal 4: Comparative Measure

Each year, the Performance Index (“PI”) in Regent's mathematics of students in the fourth year of their high school Accountability Cohort will exceed that of comparable students from the school district of comparison.

The Institute does not require charters to report on this measure for 2021-22.

Goal 4: Growth Measure

Each year, 50 percent of students in the high school Accountability Cohort who did not score proficient on their New York State 8th grade mathematics exam will meet the college and career readiness standard (currently scoring at Performance Level 4 and fully meeting Common Core expectations on a Regents mathematics exam) by the completion of their fourth year in the cohort.

METHOD

The school demonstrates the effectiveness of its mathematics program by enabling students who were not meeting proficiency standards in the eighth grade to grow to meeting the mathematics requirement for the college and career readiness standard.

Growth	Each year, 75 percent of students in the high school Accountability Cohort who did not score proficient on their New York State 8 th grade mathematics exam will at least partially meet Common Core expectations (currently scoring at least Performance Level 3 on a Regents mathematics exam) by the completion of their fourth year in the cohort.	N/A

ACTION PLAN

The school will continue to support struggling students by providing academic services in mathematics. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy. The mathematics curricula are being revised for alignment with the Next Generation standards as well as the [5 Practices for Orchestrating Productive Mathematics Discussions](#). The school has also adopted the use of IXL to allow for systematic progress monitoring of student proficiency on the standards. Additionally, the school is utilizing content expert consultants to develop mathematics department leaders, special educators and ESL teachers.

GOAL 5: SCIENCE

Goal 5: Science

All students at the school will demonstrate competency in the understanding and application of scientific reasoning.

BACKGROUND

The Academy recognizes that curriculum, instruction and assessment must be dynamic through this period. In evaluating the strengths of our current curriculum and the needs of our varying student populations, we recognize that modifications would be required. Some modifications are driven by safety considerations, whereas others are predicated on instructional value.

The school will continue to use most of the curriculum outlined in the charter. The school will continue to use most of the curriculum outlined in the charter. Teachers at every grade level plan and implement learning experiences aligned with the State Standards. Teachers utilize the *SAVVAS Elevate* Science program in middle and elementary grades. In high school, the *Pearson* curriculum is being utilized for Living Environment instruction, and *Perfection Learning* for Earth Science.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

ELEMENTARY AND MIDDLE SCIENCE

Goal 5: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at or above proficiency on the New York State science examination.

METHOD

The school administered the New York State Testing Program science assessment to students in 4th and 8th grade in spring 2022. The school converted each student’s raw score to a performance level and a grade-specific scaled score. The criterion for success on this measure requires students enrolled in at least their second year to score at proficiency.

RESULTS AND EVALUATION

Brief narrative highlighting results in the data table below that directly addresses the measure, i.e., the overall percentage of students *in at least their second year* achieving proficiency. Narrative explicitly stating whether the school met the measure and discussing by how much the school fell short of or exceeded the measure, as well as notable performance in specific grades and populations. Also, use this section to explain the results in the context of the school program, attributing the results to effective practices or problem areas.

In the 2021-22 school year, The Academy Charter School – Uniondale exceeded its goal of having 75% of students achieve proficiency on the state science exam. The school exceeded the goal by 7.6 percentage points.

Narrative discussing year-to-year trends during the current Accountability Period. This discussion shows how the school is making progress towards, or maintaining, a high level of performance. The school can use a supplemental table for this section on performance disaggregated by number of years in the school. **Schools that administer a Regents science exam to 8th grade students in lieu of the state exam should report the results above.**

Due to Covid-19 there was no science state assessment for the years 2019-2020 and 2020-2021

Goal 5: Comparative Measure

Each year, the percentage of all tested students enrolled in at least their second year and performing at proficiency on the state science exam will be greater than that of all students in the same tested grades in the school district of comparison.

The Institute does not require charters to report on this measure for 2021-22.

ADDITIONAL CONTEXT AND EVIDENCE

Narrative discussing any concerns the school may have regarding the data reported above and the school's attempts to mitigate those concerns. The school should also supplement the information above with additional quantitative evidence from other types of academic assessments or evidence capturing the results of co-academic interventions. **Schools with Accountability Plans that contain additional measures or conditions on renewal under the elementary/middle science goal should report those results here.**

SUMMARY OF THE ELEMENTARY/MIDDLE SCIENCE GOAL

Present a narrative providing an overall discussion of the school's attainment of this Accountability Plan goal.

ACTION PLAN

Narrative explaining how the school will strive to maintain consistency in its data collection and reporting in the context of possible changes to the modality of instruction. The narrative also explains what specific steps the school will take to maintain or improve academic performance based on the specific results associated with this goal, focusing in particular on strategic interventions including providing enhanced support or program revisions for explicit grades, cohorts, or subpopulations.

The school resumed in-person lab instruction for the 2022-23 school year. The Academy modified the science curriculum to respond to the Next Generation Science Learning Standards and to facilitate increased hands-on lab instruction. The new curriculum is SAVVAS *Elevate Science*.

HIGH SCHOOL SCIENCE

Goal 5: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on a New York State Regents science exam by the completion of their fourth year in the cohort.

METHOD

New York State schools administer multiple high school science assessments; current Regent exams are Living Environment, Earth Science, Chemistry and Physics. The school administered exam(s). It scores Regents on a scale from 0 to 100; students must score at least 65 to pass. This measure requires students in each Accountability Cohort to pass any one of the Regents science exams by their fourth year in the cohort. Students may have taken a particular Regents science exam multiple times or have taken multiple science exams. Students have until the summer of their fourth year to pass a science exam.

Due to the state's cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22, some students in the 2018 Cohort who had not previously sat for the exam but were scheduled to sit for this exam during a cancellation would be exempted from the graduation requirement. As such, the school should report both the number of students who were exempted from the exam as well as the percentage of students passing among the students who sat for the exam.

RESULTS AND EVALUATION

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year.

SUMMARY OF THE HIGH SCHOOL SCIENCE GOAL

The Academy High School Uniondale has already met the high school science goal for its first graduation cohort (2020) and is poised to meet this goal for the 2021 cohort as well.

ACTION PLAN

The school provided a combination of virtual and in-person labs during the 2020-2021 school year and used lessons learned to supplement in-person labs in the 2021-2022 school year. Teachers seamlessly integrated technology into the curriculum to provide a robust science experience for students. The school partnered with The Cradle of Aviation Museum to provide enrichment opportunities for chemistry students. For the 2022-2023 school year, the Academy will expand this partnership to provide more enrichment opportunities for all students.

The school will continue to support struggling students by providing academic services in science. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy.

Teachers will be provided with intensive daily professional development and support. There will be focus on content, pedagogy, practice, and rigor. Moreover, there will be ongoing professional development focused on social and emotional learning.

GOAL 6: SOCIAL STUDIES

Goal 6: Social Studies

All students at the school will demonstrate competency in the understanding and application of social studies.

2021-22 ACCOUNTABILITY PLAN PROGRESS REPORT

Goal 6: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on the New York State Regents U.S. History exam by the completion of their fourth year in the cohort.

METHOD

New York State administers two high school social studies assessments: U.S. History and Global History. In order to graduate, students must pass both of these Regent's exams with a score of 65 or higher. This measure requires students in each Accountability Cohort to pass the two exams by the completion of their fourth year in the cohort. Students may have taken the exams multiple times and have until the summer of their fourth year to pass it. Once students pass it, performance on subsequent administrations of the same exam do not affect their status as passing.

Due to the state's cancellation of multiple administrations of the Regents exams in 2019-20, 2020-21, and 2021-22, some students in the 2018 Cohort who had not previously sat for the exam but were scheduled to sit for this exam during a cancellation would be exempted from the graduation requirement. As such, the school should report both the number of students who were exempted from the exam as well as the percentage of students passing among the students who sat for the exam.

RESULTS

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. The school will expand to serve 9th through 12th grade by the 2023-24 school year. The 2022-2023 school year is the first year that a US History course will be offered to students.

Goal 6: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on the New York State Regents Global History exam by the completion of their fourth year in the cohort.

METHOD

This measure requires students in each Accountability Cohort to pass the Global History exam by the completion of their fourth year in the cohort. Students may have taken the exam multiple times, and had until the summer of their fourth year to pass it. Once students pass it, performance on subsequent administrations of the same exam do not affect their status as passing.

SUMMARY OF THE HIGH SCHOOL SOCIAL STUDIES GOAL

The Academy High School Uniondale has only been in operation for two years and does not have a cohort for evaluation under this indicator. However, the school is demonstrating progress toward this goal as indicated by the scores of students in the 2020 cohort.

ACTION PLAN

The school will continue to support struggling students by providing academic services in social studies. Students will receive support services during the school day, extended school day, extended school week such as Saturday tutoring, extended school year including 6-week summer school program. Moreover, teachers will be provided with ongoing professional development to increase their knowledge-based related to standards-based curriculum and pedagogy. For the 2022-2023 school year, there is a focus on collaboration across the history and English departments to promote skill development in reading and writing.

GOAL 7: ESSA

Due to COVID-19 and the subsequent changes to the state’s testing, accountability, and federal reporting requirements, the 2021-22 school accountability statuses are the same as those assigned for the 2020-21 school year. Assigned accountability designations and further context can be found [here](#).

Goal 7: Absolute Measure

Under the state’s ESSA accountability system, the school is in good standing: the state has not identified the school for comprehensive or targeted improvement.

METHOD

Because *all* students are expected to meet the state's performance standards, the federal statute stipulates that various sub-populations and demographic categories of students among all tested students must meet the state standard in and of themselves aside from the overall school results. As New York State, like all states, is required to establish a specific system for making these determinations for its public schools, charter schools do not have latitude in establishing their own performance levels or criteria of success for meeting the ESSA accountability requirements. Each year, the state issues School Report Cards that indicate a school’s status under the state accountability system.

RESULTS AND EVALUATION

The Academy Charter School – Uniondale was in Good Standing for 2021-22. It has been in Good Standing each year it has been in existence.

APPENDIX A: DATA REPORTING TABLES

The following section contains sample tables for the optional reporting of grade-level and school-level results under the ELA and mathematics goal areas. The tables align to the measures and targets for the NWEA MAP and I-Ready assessments. Schools that administer other nationally-normed assessments or internally-developed assessments should modify these tables as necessary.

Paste the completed tables in the “Internal Exam Results” sections under the respective goal area. Table titles need to be adapted to reflect the appropriate subject area, i.e., English language arts, mathematics, etc.

Guidance for calculating the results in each of the tables below is available [here](#).

NWEA

2021-22 NWEA MAP [ELA/Mathematics] Assessment End of Year Results					
Measure	Subgroup	Target	Tested	Results	Met?
Measure 1: Each year, the school's median growth percentile of all 3 rd through 8 th grade students will be greater than 50. Student growth is the difference between the beginning of year score and the end of year score.	All students	50	[#]	[X]	[Yes/No]
Measure 2: Each year, the school's median growth percentile of all 3 rd through 8 th grade students whose achievement did not meet or exceed the RIT score proficiency equivalent in the fall will meet or exceed 55 in the spring administration.	Low initial achievers	55	[#]	[X]	[Yes/No]
Measure 3: Each year, the median growth percentile of 3 rd through 8 th grade students with disabilities at the school will be equal to or greater than the median growth of 3 rd through 8 th grade general education students at the school.	Students with disabilities ¹²	[X] ¹³	[#]	[X]	[Yes/No]

¹² Schools may elect to report the aggregated data for a different subpopulation of students if the total tested number of students with disabilities is 5 or fewer, or if the school’s mission aligns to serving a different specific subpopulation. For schools that choose a different subpopulation (e.g. English language learners, students experiencing housing insecurity, etc.), please explain the rationale in the narrative section

¹³ Target should reflect the median growth percentile for all general education students. In the case that the school elects to measure the achievement of a different subpopulation, the target should reflect the median growth percentile of all students at the school not included in that subpopulation.
