Promising Practices:

- DREAM's founding pre-Kindergarten ("pre-K") director transitioned at the end of last school year, and the new academic dean of pre-K brings extensive pre-K experience to the program's leadership. With a close working relationship with the DREAM East Harlem elementary principal, the program easily managed the transition.
- Last year, the program identified the transition from pre-K to Kindergarten as a challenge due to differences in structure between the pre-K program and Kindergarten, specifically with centers implementation. The program is conducting more purposeful and effective actions to appropriately acclimate students and families to the Kindergarten transition. For example, in June 2023, the program held a Kindergarten immersion day where students and families met with Kindergarten teachers and learned about expectations.

Required Corrective Actions for Program Compliance:

- The Institute did not identify areas for corrective action.

Recommendations for Program Quality Improvement:

- The Institute did not identify any recommendations for program quality improvement.

Using the Quality Assurance Protocol

The Quality Assurance Protocol has been developed to help ensure comprehensive and consistent monitoring of program quality in providers of full-day prekindergarten programs pursuant to New York State Education Law Section 3602-e and 3602-ee. While this document is intended for use by program monitors, it may be used by school districts and individual entities as a self-assessment tool and to assist in preparing for a smooth monitoring visit.

Purpose: The purpose of the Quality Assurance Protocol is to engage prekindergarten program providers in creating and maintaining a high-quality prekindergarten program, and to be used as an ongoing tool by the Department for technical assistance and support.

Instructions: The 'Indicators of Compliance' column outlines the indicator to be evaluated. The 'Supporting Documents' column lists documents that may be used to support successful implementation of the applicable indicator. At the end of each Quality Standard Section there is a list of observable practices that indicate quality. *These lists, while not totally inclusive, may assist an observer evaluating a program's quality.*

A representative of the monitoring team will contact the grantee prior to the monitoring visit to specify which documents will be required. School districts are reminded to share the Quality Assurance Protocol with partnering community providers.

Definitions for Program Performance:

0: Non-compliant	Evidence shows <i>negligible effort</i> in adhering to and meeting compliance indicators and no effort through observable and documented efforts.
1: Minimal	Evidence shows <i>inconsistent effort</i> in adhering to and meeting compliance indicators and little effort to be compliant through observable and documented efforts.
2: Acceptable	Evidence shows <i>consistent effort</i> in adhering to and meeting compliance indicators and some effort to go beyond minimum compliance through observable and documented efforts.
3: Enhanced	Evidence shows <i>strong effort</i> in adhering to and meeting compliance indicators and strong effort to go beyond acceptable compliance through intentional observable and documented efforts.
4: Excels	Evidence shows <i>outstanding effort</i> in adhering to and meeting compliance indicators and outstanding effort to go beyond enhanced compliance through intentional observable and documented efforts.

B: Curriculum Comments

- DREAM's pre-K partners with AppleTree to implement the Every Child Ready Curriculum, which is predominantly focused on delivering high quality small group learning and centers-based learning with distinct unit themes.
- This year, AppleTree made adjustments to its small group curriculum and streamlined assessments to ensure better alignment between the group work and assessments.

C: Learning Environment, Materials, and Supplies

Indicators of Compliance		Sources of Evidence	Program Performance (0-4)
C-1	The program's use of space, scheduling, and other environmental factors will promote student learning and development. <i>For example, the classroom is divided into clearly defined, well-equipped learning centers. Examples of learning centers may include, but are not limited to: dramatic play; blocks and construction; library, language arts, technology/media; science and nature; mathematics and manipulative materials; writing; creative arts; sand and water play; music; and those that have been developed using principles of Universal Design, or have been modified or adapted to meet the unique needs of preschool students with disabilities.</i>	<input checked="" type="checkbox"/> Reviewer Observation <input type="checkbox"/> Other:	4

C: Learning Environment, Materials and Supplies Comments

- DREAM's pre-K opted out of the NYCDOE services for the 2021-22 school year. While the charter had an ECERS-R conducted a few years ago by the NYCDOE, it shifted away from receiving this specific review for its environment review. The program now uses an environmental rating tool developed by AppleTree to provide ongoing reviews of the pre-K environment.
- One reflection from the program is looking at results from social-emotional surveys from Kindergarten students and noting specific practices that can be implemented in pre-K to support students' self-management and advocacy skills.

E: Staffing Patterns, Teacher Education and Experience Comments

- DREAM creates many learning opportunities for its pre-K teachers with a responsive and robust professional development calendar.
- The new pre-K academic dean has CLASS training and conducts informal observations with other DREAM staff members in addition to AppleTree's formal CLASS observations. Using the informal observations, the program uses areas of improvement as priority areas for professional development and coaching.
