Promising Practices:

- The Zeta Charter School - Inwood ("Zeta Inwood") pre-K program offers a warm, welcoming learning environment, and students actively engage in discussion, imaginative play and art making.
- Zeta Inwood pre-K classrooms consistently adhere to themes and center-based activities prescribed by AppleTree curriculum.
- Students display strong self-regulation and internalization of classroom routines.
- The program is currently focused on providing further support for language development by coaching teachers to create opportunities for conversation with students throughout the day.

Using the Quality Assurance Protocol

The Quality Assurance Protocol has been developed to help ensure comprehensive and consistent monitoring of program quality in providers of full-day prekindergarten programs pursuant to New York State Education Law Section 3602-e and 3602-ee. While this document is intended for use by program monitors, it may be used by school districts and individual entities as a self-assessment tool and to assist in preparing for a smooth monitoring visit.

Purpose: The purpose of the Quality Assurance Protocol is to engage prekindergarten program providers in creating and maintaining a high-quality prekindergarten program, and to be used as an ongoing tool by the Department for technical assistance and support.

Instructions: The 'Indicators of Compliance' column outlines the indicator to be evaluated. The 'Supporting Documents' column lists documents that may be used to support successful implementation of the applicable indicator. At the end of each Quality Standard Section there is a list of observable practices that indicate quality. *These lists, while not totally inclusive, may assist an observer evaluating a program's quality.*

A representative of the monitoring team will contact the grantee prior to the monitoring visit to specify which documents will be required. School districts are reminded to share the Quality Assurance Protocol with partnering community providers.

Definitions for Program Performance:

0: Non-compliant	Evidence shows <i>negligible effort</i> in adhering to and meeting compliance indicators and no effort through observable and documented efforts.
1: Minimal	Evidence shows <i>inconsistent effort</i> in adhering to and meeting compliance indicators and little effort to be compliant through observable and documented efforts.
2: Acceptable	Evidence shows <i>consistent effort</i> in adhering to and meeting compliance indicators and some effort to go beyond minimum compliance through observable and documented efforts.
3: Enhanced	Evidence shows <i>strong effort</i> in adhering to and meeting compliance indicators and strong effort to go beyond acceptable compliance through intentional observable and documented efforts.
4: Excels	Evidence shows <i>outstanding effort</i> in adhering to and meeting compliance indicators and outstanding effort to go beyond enhanced compliance through intentional observable and documented efforts.

B: Curriculum Comments

- Zeta Inwood uses the AppleTree curriculum and each site aligns classroom learning with the units of study. With AppleTree, teachers participate in nationwide unit launches with other AppleTree practitioners.
- To support the fidelity of curriculum implementation, Zeta Inwood has added a pre-K assistant principal to oversee its site. Assistant principals serve as resident curriculum experts and work closely with AppleTree consultants to offer regular feedback to teachers in one on one and group settings.
- To supplement the core curriculum, Zeta Inwood offers an artist-in-residence program, field study opportunities, and guest speakers to increase student engagement for unit themes.

C: Learning Environment, Materials, and Supplies

Indicators of Compliance		Sources of Evidence	Program Performance (0-4)
C-1	The program's use of space, scheduling, and other environmental factors will promote student learning and development. <i>For example, the classroom is divided into clearly defined, well-equipped learning centers. Examples of learning centers may include, but are not limited to: dramatic play; blocks and construction; library, language arts, technology/media; science and nature; mathematics and manipulative materials; writing; creative arts; sand and water play; music; and those that have been developed using principles of Universal Design, or have been modified or adapted to meet the unique needs of preschool students with disabilities.</i>	<input checked="" type="checkbox"/> Reviewer Observation <input checked="" type="checkbox"/> Other: Sample schedule and lesson plan	4

C-5	The program has implemented activities that will promote student learning and development opportunities and will encourage students to be self-assured and independent through a balanced schedule of teacher-initiated and child-initiated learning activities.	<input checked="" type="checkbox"/> Activity Schedule <input checked="" type="checkbox"/> Reviewer Observation <input checked="" type="checkbox"/> Lesson Plans <input type="checkbox"/> Other:	4

C: Learning Environment, Materials and Supplies Comments

- Zeta Inwood opted out of NYCDOE services for its pre-K program, and it uses the environmental quality scale provided by AppleTree to set a baseline for classroom environment at the beginning of the school year. During the remainder of the school year, pre-K classrooms undergo formal evaluations conducted by CLASS consultants, and instructional leaders conduct informal CLASS observations to develop feedback for teachers.

D: Family Engagement and Support Comments

- Pre-K staff at Zeta Inwood communicate with families through formal check-in's twice a year, newsletter communications, and informally via Parent Square. Families also receive emails describing the content of each learning unit along with student progress updates. Zeta Inwood also shares professional development plans with families to increase transparency related to teacher capacity.
- The program sends DOE and internally developed surveys to solicit feedback from families throughout the year.
- To assist with the transition to Kindergarten, Zeta Inwood places pre-K and Kindergarten classrooms on the same floor at each applicable campus and provide time at the end of each school year for teachers to familiarize themselves with students from the upcoming cohort.
- Zeta Inwood intentionally recruits pre-K teachers and school staff from the surrounding community and network staff conduct direct outreach with neighborhood families as a recruitment strategy.

E: Staffing Patterns, Teacher Education and Experience Comments

- Academic directors visit each pre-K campus four to five days per week to observe classrooms and give feedback to principals. After formal CLASS observations, directors meet with AppleTree curriculum consultants to review outcomes and define professional development priorities.
- At the time of the visit, the Zeta Charter Schools network requested an extension to transfer its existing set of completed staff fingerprints to the new system required by the NYC DOE.

I: Screening and Assessment Comments

- Zeta Inwood screens all pre-K students at the beginning of the school year with the ASQ-3 tool and uses data to inform instruction and small group instruction.
- Zeta Inwood conducts three formal student performance assessments each year and the Apple Tree curriculum offers informal assessments embedded within each lesson. The Zeta Charter Schools network coaches teachers in various methods of in-the-moment assessment such as posing higher order thinking questions and conferring with students to provide one on one support with writing skills. Zeta Inwood pre-K teachers collect skills-based assessment data during small group instruction and use the outcomes to guide instructional planning.

Promising Practices:

- The Zeta Charter School - South Bronx (“Zeta South Bronx”) pre-K program offers a warm, welcoming learning environment, and students actively engage in discussion, imaginative play, and art making.
- Zeta South Bronx pre-K classrooms consistently adhere to themes and center-based activities prescribed by AppleTree curriculum.
- Students display strong self-regulation and internalization of classroom routines.
- The program is currently focused on providing further support for language development by coaching teachers to create opportunities for conversation with students throughout the day.

Using the Quality Assurance Protocol

The Quality Assurance Protocol has been developed to help ensure comprehensive and consistent monitoring of program quality in providers of full-day prekindergarten programs pursuant to New York State Education Law Section 3602-e and 3602-ee. While this document is intended for use by program monitors, it may be used by school districts and individual entities as a self-assessment tool and to assist in preparing for a smooth monitoring visit.

Purpose: The purpose of the Quality Assurance Protocol is to engage prekindergarten program providers in creating and maintaining a high-quality prekindergarten program, and to be used as an ongoing tool by the Department for technical assistance and support.

Instructions: The 'Indicators of Compliance' column outlines the indicator to be evaluated. The 'Supporting Documents' column lists documents that may be used to support successful implementation of the applicable indicator. At the end of each Quality Standard Section there is a list of observable practices that indicate quality. *These lists, while not totally inclusive, may assist an observer evaluating a program's quality.*

A representative of the monitoring team will contact the grantee prior to the monitoring visit to specify which documents will be required. School districts are reminded to share the Quality Assurance Protocol with partnering community providers.

Definitions for Program Performance:

0: Non-compliant	Evidence shows <i>negligible effort</i> in adhering to and meeting compliance indicators and no effort through observable and documented efforts.
1: Minimal	Evidence shows <i>inconsistent effort</i> in adhering to and meeting compliance indicators and little effort to be compliant through observable and documented efforts.
2: Acceptable	Evidence shows <i>consistent effort</i> in adhering to and meeting compliance indicators and some effort to go beyond minimum compliance through observable and documented efforts.
3: Enhanced	Evidence shows <i>strong effort</i> in adhering to and meeting compliance indicators and strong effort to go beyond acceptable compliance through intentional observable and documented efforts.
4: Excels	Evidence shows <i>outstanding effort</i> in adhering to and meeting compliance indicators and outstanding effort to go beyond enhanced compliance through intentional observable and documented efforts.

B: Curriculum Comments

- Zeta South Bronx uses the AppleTree curriculum and each site aligns classroom learning with the units of study. With AppleTree, teachers participate in nationwide unit launches with other AppleTree practitioners.
- To support the fidelity of curriculum implementation, Zeta South Bronx has added a pre-K assistant principal to lead its site. Assistant principals serve as resident curriculum experts and work closely with AppleTree consultants to offer regular feedback to teachers in one on one and group settings.
- To supplement the core curriculum, Zeta South Bronx offers an artist-in-residence program, field study opportunities, and guest speakers to increase student engagement for unit themes.

C: Learning Environment, Materials, and Supplies

Indicators of Compliance		Sources of Evidence	Program Performance (0-4)
C-1	The program's use of space, scheduling, and other environmental factors will promote student learning and development. <i>For example, the classroom is divided into clearly defined, well-equipped learning centers. Examples of learning centers may include, but are not limited to: dramatic play; blocks and construction; library, language arts, technology/media; science and nature; mathematics and manipulative materials; writing; creative arts; sand and water play; music; and those that have been developed using principles of Universal Design, or have been modified or adapted to meet the unique needs of preschool students with disabilities.</i>	<input checked="" type="checkbox"/> Reviewer Observation <input checked="" type="checkbox"/> Other: Sample schedule and lesson plan	4

C: Learning Environment, Materials and Supplies Comments

- Zeta South Bronx opted out of NYCDOE services for its pre-K program, and it uses the environmental quality scale provided by AppleTree to set a baseline for classroom environment at the beginning of the school year. During the remainder of the school year, pre-K classrooms undergo formal evaluations conducted by CLASS consultants, and instructional leaders conduct informal CLASS observations to develop feedback for teachers.

D: Family Engagement and Support Comments

- Pre-K staff at Zeta South Bronx communicate with families through formal check-in's twice a year, newsletter communications, and informally via Parent Square. Families also receive emails describing the content of each learning unit along with student progress updates. Zeta South Bronx also shares professional development plans with families to increase transparency related to teacher capacity.
- The program sends DOE and internally developed surveys to solicit feedback from families throughout the year.
- To assist with the transition to Kindergarten, Zeta South Bronx places pre-K and Kindergarten classrooms on the same floor at each applicable campus and provide time at the end of each school year for teachers to familiarize themselves with students from the upcoming cohort.
- Zeta South Bronx intentionally recruits pre-K teachers and school staff from the surrounding community, and network staff conduct direct outreach with neighborhood families as a recruitment strategy.

E: Staffing Patterns, Teacher Education and Experience Comments

- Academic directors visit each pre-K campus four to five days per week to observe classrooms and give feedback to principals. After formal CLASS observations, directors meet with AppleTree curriculum consultants to review outcomes and define professional development priorities.
- At the time of the visit, the Zeta Charter Schools network requested an extension to transfer its existing set of completed staff fingerprints to the new system required by the NYC DOE.

I: Screening and Assessment Comments

- Zeta South Bronx screens all pre-K students at the beginning of the school year with the ASQ-3 tool and uses data to inform instruction and small group instruction.
- Zeta South Bronx conducts three formal student performance assessments each year, and the AppleTree curriculum offers informal assessments embedded within each lesson. The Zeta Charter Schools network coaches teachers in various methods of in-the-moment assessment such as posing higher order thinking questions and conferring with students to provide one on one support with writing skills. Zeta South Bronx pre-K teachers collect skills-based assessment data during small group instruction and use the outcomes to guide instructional planning.

Promising Practices:

- The Zeta Charter School – Bronx Mount Eden (“Zeta Mount Eden”) pre-K program offers a warm, welcoming learning environment, and students actively engage in discussion, imaginative play and art making.
- Zeta Mount Eden pre-K classrooms consistently adhere to themes and center-based activities prescribed by AppleTree curriculum.
- Students display strong self-regulation and internalization of classroom routines.
- The program is currently focused on providing further support for language development by coaching teachers to create opportunities for conversation with students throughout the day.

Using the Quality Assurance Protocol

The Quality Assurance Protocol has been developed to help ensure comprehensive and consistent monitoring of program quality in providers of full-day prekindergarten programs pursuant to New York State Education Law Section 3602-e and 3602-ee. While this document is intended for use by program monitors, it may be used by school districts and individual entities as a self-assessment tool and to assist in preparing for a smooth monitoring visit.

Purpose: The purpose of the Quality Assurance Protocol is to engage prekindergarten program providers in creating and maintaining a high-quality prekindergarten program, and to be used as an ongoing tool by the Department for technical assistance and support.

Instructions: The 'Indicators of Compliance' column outlines the indicator to be evaluated. The 'Supporting Documents' column lists documents that may be used to support successful implementation of the applicable indicator. At the end of each Quality Standard Section there is a list of observable practices that indicate quality. *These lists, while not totally inclusive, may assist an observer evaluating a program's quality.*

A representative of the monitoring team will contact the grantee prior to the monitoring visit to specify which documents will be required. School districts are reminded to share the Quality Assurance Protocol with partnering community providers.

Definitions for Program Performance:

0: Non-compliant	Evidence shows <i>negligible effort</i> in adhering to and meeting compliance indicators and no effort through observable and documented efforts.
1: Minimal	Evidence shows <i>inconsistent effort</i> in adhering to and meeting compliance indicators and little effort to be compliant through observable and documented efforts.
2: Acceptable	Evidence shows <i>consistent effort</i> in adhering to and meeting compliance indicators and some effort to go beyond minimum compliance through observable and documented efforts.
3: Enhanced	Evidence shows <i>strong effort</i> in adhering to and meeting compliance indicators and strong effort to go beyond acceptable compliance through intentional observable and documented efforts.
4: Excels	Evidence shows <i>outstanding effort</i> in adhering to and meeting compliance indicators and outstanding effort to go beyond enhanced compliance through intentional observable and documented efforts.

B: Curriculum Comments

- Zeta Mount Eden uses the AppleTree curriculum and each site aligns classroom learning with the units of study. With AppleTree, teachers participate in nationwide unit launches with other AppleTree practitioners.
- To support the fidelity of curriculum implementation, Zeta Mount Eden has added a pre-K assistant principal to lead its site. Assistant principals serve as resident curriculum experts and work closely with AppleTree consultants to offer regular feedback to teachers in one on one and group settings.
- To supplement the core curriculum, Zeta Mount Eden offers an artist-in-residence program, field study opportunities, and guest speakers to increase student engagement for unit themes.

C: Learning Environment, Materials, and Supplies

Indicators of Compliance		Sources of Evidence	Program Performance (0-4)
C-1	The program's use of space, scheduling, and other environmental factors will promote student learning and development. <i>For example, the classroom is divided into clearly defined, well-equipped learning centers. Examples of learning centers may include, but are not limited to: dramatic play; blocks and construction; library, language arts, technology/media; science and nature; mathematics and manipulative materials; writing; creative arts; sand and water play; music; and those that have been developed using principles of Universal Design, or have been modified or adapted to meet the unique needs of preschool students with disabilities.</i>	<input checked="" type="checkbox"/> Reviewer Observation <input checked="" type="checkbox"/> Other: Sample schedule and lesson plan	4

C: Learning Environment, Materials and Supplies Comments

- Zeta Mount Eden opted out of NYCDOE services for its pre-K program, and it uses the environmental quality scale provided by AppleTree to set a baseline for classroom environment at the beginning of the school year. During the remainder of the school year, pre-K classrooms undergo formal evaluations conducted by CLASS consultants, and instructional leaders conduct informal CLASS observations to develop feedback for teachers.

D: Family Engagement and Support Comments

- Pre-K staff at Zeta Mount Eden communicate with families through formal check-in's twice a year, newsletter communications, and informally via Parent Square. Families also receive emails describing the content of each learning unit along with student progress updates. Zeta Mount Eden also shares professional development plans with families to increase transparency related to teacher capacity.
- The program sends DOE and internally developed surveys to solicit feedback from families throughout the year.
- To assist with the transition to Kindergarten, Zeta Mount Eden places pre-K and Kindergarten classrooms on the same floor at each applicable campus and provide time at the end of each school year for teachers to familiarize themselves with students from the upcoming cohort.
- Zeta Mount Eden intentionally recruits pre-K teachers and school staff from the surrounding community, and network staff conduct direct outreach with neighborhood families as a recruitment strategy.

E: Staffing Patterns, Teacher Education and Experience Comments

- Academic directors visit each pre-K campus four to five days per week to observe classrooms and give feedback to principals. After formal CLASS observations, directors meet with AppleTree curriculum consultants to review outcomes and define professional development priorities.
- At the time of the visit, the Zeta Charter Schools network requested an extension to transfer its existing set of completed staff fingerprints to the new system required by the NYC DOE.

I: Screening and Assessment Comments

- Zeta Mount Eden screens all pre-K students at the beginning of the school year with the ASQ-3 tool and uses data to inform instruction and small group instruction.
- Zeta Mount Eden conducts three formal student performance assessments each year and the AppleTree curriculum offers informal assessments embedded within each lesson. The Zeta Charter Schools network coaches teachers in various methods of in-the-moment assessment such as posing higher order thinking questions and conferring with students to provide one on one support with writing skills. Zeta Mount Eden pre-K teachers capture skills-based assessment data during small group instruction and use the outcomes to guide instructional planning.

Promising Practices:

- The Zeta Charter School – Bronx Tremont Park (“Zeta Tremont Park”) pre-K program offers a warm, welcoming learning environment, and students actively engage in discussion, imaginative play, and art making.
- Zeta Tremont Park pre-K classrooms consistently adhere to themes and center-based activities prescribed by the AppleTree curriculum.
- Students display strong self-regulation and an internalization of classroom routines. The program is currently focused on providing further support for language development by coaching teachers to create opportunities for conversation with students throughout the day.

Using the Quality Assurance Protocol

The Quality Assurance Protocol has been developed to help ensure comprehensive and consistent monitoring of program quality in providers of full-day prekindergarten programs pursuant to New York State Education Law Section 3602-e and 3602-ee. While this document is intended for use by program monitors, it may be used by school districts and individual entities as a self-assessment tool and to assist in preparing for a smooth monitoring visit.

Purpose: The purpose of the Quality Assurance Protocol is to engage prekindergarten program providers in creating and maintaining a high-quality prekindergarten program, and to be used as an ongoing tool by the Department for technical assistance and support.

Instructions: The 'Indicators of Compliance' column outlines the indicator to be evaluated. The 'Supporting Documents' column lists documents that may be used to support successful implementation of the applicable indicator. At the end of each Quality Standard Section there is a list of observable practices that indicate quality. *These lists, while not totally inclusive, may assist an observer evaluating a program's quality.*

A representative of the monitoring team will contact the grantee prior to the monitoring visit to specify which documents will be required. School districts are reminded to share the Quality Assurance Protocol with partnering community providers.

Definitions for Program Performance:

0: Non-compliant	Evidence shows <i>negligible effort</i> in adhering to and meeting compliance indicators and no effort through observable and documented efforts.
1: Minimal	Evidence shows <i>inconsistent effort</i> in adhering to and meeting compliance indicators and little effort to be compliant through observable and documented efforts.
2: Acceptable	Evidence shows <i>consistent effort</i> in adhering to and meeting compliance indicators and some effort to go beyond minimum compliance through observable and documented efforts.
3: Enhanced	Evidence shows <i>strong effort</i> in adhering to and meeting compliance indicators and strong effort to go beyond acceptable compliance through intentional observable and documented efforts.
4: Excels	Evidence shows <i>outstanding effort</i> in adhering to and meeting compliance indicators and outstanding effort to go beyond enhanced compliance through intentional observable and documented efforts.

B: Curriculum Comments

- Zeta Tremont Park uses the AppleTree curriculum and each site aligns classroom learning with the units of study. With AppleTree, teachers participate in nationwide unit launches with other AppleTree practitioners.
- To support the fidelity of curriculum implementation, Zeta Tremont Park has added a pre-K assistant principal to lead its site. Assistant principals serve as resident curriculum experts and work closely with AppleTree consultants to offer regular feedback to teachers in one on one and group settings.
- To supplement the core curriculum, Zeta Tremont Park offers an artist-in-residence program, field study opportunities, and guest speakers to increase student engagement for unit themes.

C: Learning Environment, Materials and Supplies Comments

- Zeta Tremont Park opted out of NYCDOE services for its pre-K program, and it uses the environmental quality scale provided by AppleTree to set a baseline for classroom environment at the beginning of the school year. During the remainder of the school year, pre-K classrooms undergo formal evaluations conducted by CLASS consultants, and instructional leaders conduct informal CLASS observations to develop feedback for teachers.

D: Family Engagement and Support Comments

- Pre-K staff at Zeta Tremont Park communicate with families through formal check-in's twice a year, newsletter communications, and informally via Parent Square. Families also receive emails describing the content of each learning unit along with student progress updates. Zeta Tremont Park also shares professional development plans with families to increase transparency related to teacher capacity.
- The program sends DOE and internally developed surveys to solicit feedback from families throughout the year.
- To assist with the transition to Kindergarten, Zeta Tremont Park places pre-K and Kindergarten classrooms on the same floor at each applicable campus and provide time at the end of each school year for teachers to familiarize themselves with students from the upcoming cohort.
- Zeta Tremont Park intentionally recruits pre-K teachers and school staff from the surrounding community, and network staff conduct direct outreach with neighborhood families as a recruitment strategy.

I: Screening and Assessment Comments

- Zeta Tremont Park screens all pre-K students at the beginning of the school year with the ASQ-3 tool and uses data to inform instruction and small group instruction.
- Zeta Tremont Park conducts three formal student performance assessments each year, and the AppleTree curriculum offers informal assessments embedded within each lesson. The Zeta Charter Schools network coaches teachers in various methods of in-the-moment assessment such as posing higher order thinking questions and conferring with students to provide one on one support with writing skills. Zeta South Bronx pre-K teachers collect skills-based assessment data during small group instruction and use the outcomes to guide instructional planning.
