Specific Instructions for Completing Each Section

Cover Page

Each copy of the Annual Report should begin with a completed Cover Page, form below.

Disclosure of Financial Interest

The Trustee Disclosure Form is required to be filled out by each trustee who served on the school's board during the previous school year. Where the school is unable to obtain a Trustee Disclosure Form for each such trustee, the school corporation is responsible for listing any transactions or providing such information as required by the form. Such a form must be signed by the school corporation on behalf of the board member. All sections must be completed. If a section does not apply, make sure to write "none." Please do not leave any section blank.

Please note that in schools with charters entered into in 2004 and thereafter, should a trustee fail to submit such form within 30 days of the August 2nd deadline, or should such form be materially incomplete or misleading, the school's charter requires the school corporation to remove that trustee (see paragraph 2.10(g) of the charter).

Modifications to the School's Educational Program and Governance Structure

In this section of the report the school should *briefly* describe any significant changes to the school's educational program as well as its governance structure. There is no specific form for the Statement of Modifications. Just as a school should be brief, it should also be selective in reporting such changes. In general, the Institute has no interest in such day-to-day operational details as whether the school has changed office supply vendors. However, where the school has moved from using one core program to another (e.g., Saxon Math to Everyday Math), this change and *a very brief* explanation for the change should be noted. Similarly, while the day-to-day administrative roles of school personnel, and adjustments thereto, need not be reported on, major overhauls should be reported, e.g., the school has moved to a dual leadership model where the charter indicated that a single principal would be in charge of instruction. There is no need to report on changes that a school has applied for—either a program change or a revision to the charter—if that change has already been approved. This is not required of schools coming to renewal, as this statement was submitted in the school's application for renewal.

Statement of Assurances

The school must submit Statement of Assurances with the signatures of the school leader/principal and the chairperson of the school's board of trustees. Hard copies with notarized, original signatures need not be submitted for this report.
