

**EXCELLENCE BOYS
CHARTER SCHOOL**

**2012-13 ACCOUNTABILITY PLAN
PROGRESS REPORT**

Submitted to the SUNY Charter Schools Institute on:

August 27, 2013

By Donnie Stuart, Felix Li and Samantha Tweedy

225 Patchen Avenue

Brooklyn, NY 11233

P: (718) 638-1830

F: (718) 638-2548

www.excellenceboys.org

Donnie Stuart (Middle Academy Director of Operations), Felix Li (Elementary Academy Director of Operations) and Samantha Tweedy (Head of School) prepared this 2012-13 Accountability Progress Report on behalf of the school's Board of Trustees:

Trustee's Name	Board Position
Laura Blankfein	Trustee, Program
Cecily Carson	Trustee, Executive
Loren Compton-Williams	Trustee, Finance
Sabrina Dycus	Trustee, Finance
Shakima Jones	Trustee, None
Alison Mass	Trustee, None
Tony Pasquariello	Trustee, Finance
Brett Peiser	Trustee, Accountability
Rosa Pizzi	Trustee, None
David Saltzman	Chair, Accountability
Tokumbo Shobowale	Trustee, None
Chrystal Stokes Williams	Trustee, Finance
Joseph Wayland	Vice Chair, Finance

Samantha Tweedy has served as the Head of School since 2012.

INTRODUCTION

Excellence Boys Charter School of Bedford Stuyvesant prepares students to enter, succeed in, and graduate from outstanding college preparatory high schools and colleges.

We cultivate in our scholars the knowledge, skills, and character necessary to succeed academically, embrace responsibility, and become honorable citizens and courageous leaders of our communities, country, and world.

In pursuit of this mission, the school successfully completed its ninth year of operation in June 2013.

Student Population

During the 2012-2013 school year, Excellence Boys' student population consisted of 545 boys in Kindergarten-9th Grade. Of these students, 95% were African American, 3% were Latino and 2% were Asian. 70% of Excellence Boys' students were eligible for free or reduced price lunch.

Most of Excellence Boys' students enter the school far below grade level. As a proxy for entering Kindergarten achievement levels, Excellence assumes that its Kindergarten students enroll with rates of academic proficiency similar to its 2004-05 1st Graders (the first testing cohort for which there is a national norm for the 1st Grade TerraNova CAT 2nd Edition, a nationally recognized standard assessment of academic skills in Reading, Language, and Math). Based on those assessments in 2004, only 33% of students scored at or above grade level on the reading portion of the assessment, and only 15% scored at or above grade level on the math portion.

Alarming, these boys' numbers lag behind even the under-performance displayed by their peers in other public schools in Community School District 16.

Excellence Boys Charter School of Bedford Stuyvesant was founded to respond to these community trends and to ensure that its young boys graduate from the nation's top public and private colleges and universities.

With our scholars' positive academic, social, and physical indicators in hand, we are confident that Excellence Boys is well on its way to achieving that goal.

Teach Until They Learn

Excellence Boys Charter School provides its students with every possible opportunity to learn. This means that Excellence Boys not only has a longer school day that begins at 7:30 AM and ends at 4:00 PM with 6+ hours of instruction, but also has a longer school year consisting of 185 instructional days. Over the course of the school year, this is equivalent to at least 25% more instructional time than the New York City Department of Education's minimum of 5 hours of daily instruction over 181 school days in Grades K-8.

Each day consists of at least 2.5 hours of literacy instruction, at least 90 minutes of math instruction, a daily class in social studies or science, a daily fitness class, and a daily music or art class.

Even as students leave for the day, the learning continues. Each student, including Kindergarteners, takes home at least 30 minutes of homework (called Life's Work at Excellence Boys) every evening. Parents/guardians review and sign each evening's assignment upon completion.

Excellence in Character

More instructional time, however, is not enough. Excellence Boys Charter School holds students to high standards in behavior and community involvement. To maintain an energetic, orderly, and productive environment where teachers can focus on teaching and students can focus on learning, the school implements a strict code of conduct, provides explicit daily instruction in core values, and enforces a dress code consisting of a shirt, tie, belt, dress pants, and shoes.

Additionally, routines and rituals constantly reinforce Excellence Boys' expectations, core values, and mission. This process begins before students even enter the building. Every morning, staff meet students outside the school's front door to greet each student by name and shake each student's hand as they cross the threshold. This reminds students to conduct themselves with self-respect, dignity, and love—Excellence Boys is a place for *scholars*.

Each week ends with a Friday Community Meeting. Each Community Meeting is an opportunity to reinforce and celebrate the values of Excellence Boys and extend the classroom through student-performed skits that feature Vocabulary Challenges. Each meeting closes with the presentation of the Excellence Boys Spirit Stick, awarded to the student who best exemplifies the spirit of Excellence Boys in that particular week. This scholar then has the honor and responsibility of carrying the Spirit Stick throughout the following week and serving as a role model to other students.

Staff

One Lead Teacher and one Teacher are assigned to each K-4 classroom and provide differentiated instruction in small groups and individually. Students in Grades 5-8 get similar differentiated instruction through each classroom's subject teachers in Reading, Writing, Math, Social Studies, and Science. In 2012-13, every teacher held a Bachelor's Degree and 100% either held or were working toward a Masters Degree.

The 2012-13 Excellence teaching staff was diverse: 39% of the staff was male and 53% was African American, Hispanic, or Asian. Both of these figures represent successes in important "hard to staff" demographics.

Open Doors

"Open Doors" at Excellence Boys Charter School is a phrase that describes the school's desire to broaden the horizons of its students. It also refers, however, to the school's philosophy in engaging the community, particularly families. Excellence Boys has worked toward this goal from the very beginning.

Upon enrollment, families are asked to sign a *Family & School Covenant* in which families and the school pledge to support and engage one another in the joint effort of raising Excellence Boys scholars.

Bi-weekly phone calls home from teachers, frequent family conferences, report cards which families were required to pick up in person, and school events kept families apprised of and engaged in their children's performance.

In 2012-2013, Excellence Boys hosted monthly Families For Achievement meetings, opportunities for families to gather together to learn more about the school's curriculum and learn ways in which they can extend the classroom through activities at home. Topics of the 2012-2013 Families For Achievement included:

FIC Nights:

- Literacy Night
- Math Night
- Health and Wellness Night
- Science Expo
- Family vs. Staff vs. Scholar Basketball Nights
- Family vs. Scholar Dodgeball Night
- Family Movie Night

Families for Achievement engaged parents through a variety of activities, including:

- Preparing Motivational Signs for State Exams
- Designating a Parent Speaker for 8th Grade Graduation
- Organizing 4 Winter Celebration events

Dissemination

Excellence Boys Charter School considers the dissemination of its educational model to be an important objective inherent to its status as a charter public school. Acting upon this belief, Excellence Boys operated with an open door policy for guests and visitors who desired an opportunity to observe the school first hand.

In the 2012-2013 school year, Excellence Boys' visitors included:

Achievement First
Barclays Bank
Camp Robin Hood
Goldman Sachs
Hyde Leadership Charter School
New York City Charter Center and incubated school leaders
Prodeo Academy
Relay Graduate School of Education
Teach For America New York City
Teach For America National Office
US Attorney General

*Data is as of BEDs Day

ENGLISH LANGUAGE ARTS

Goal 1: English Language Arts

Excellence Boys Charter School students, enrolled in at least their second year, will meet or exceed New York State Elementary Learning Standards in English Language Arts

Background

The English Language Arts curriculum at Excellence Boys Charter School of Bedford Stuyvesant is designed to ensure that students become fully literate and learn to read, write, and speak well. The school's ELA curriculum is very closely aligned to the New York State English Language Arts Standards. As reading ability is central to student performance in all subjects in high school and college, developing this fundamental skill early determines the ultimate academic success of Excellence Boys. Most of Excellence Boys' scholars enter the school on their first day of Kindergarten far below grade level.

In the key literacy-building years of Kindergarten through 4th grade, each Excellence Boys classroom has two teachers. Excellence Boys relies on nearly three hours daily of literacy instruction in these early years to increase scholars' rates of reading and writing proficiency. In 5th Grade through 8th Grade, each subject has its own teacher. By 5th Grade, students have two hours of literacy instruction each day.

Excellence Boys administers several different assessments throughout the year for various grade levels. Commercial assessments include the STEP Program (see “Summary of ELA Goal” section). School-created assessments include: bimonthly compositions and quarterly Interim Assessments. The Special Education Coordinator and Director of Staff Development help develop and lead extensive and intensive professional development to ensure that Excellence Boys’ English Language Arts goals are met.

Goal 1: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State English language arts examination for grades 3-8.¹

Method

The school administered the New York State Testing Program English language arts assessment to students in 3rd through 8th grade in April 2013. Each student’s raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year’s test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

**2012-13 State English Language Arts Exam
Number of Students Tested and Not Tested**

Grade	Total Tested	Not Tested ²			Total Enrolled
		IEP	ELL	Absent	
3	78	0	0	0	78
4	67	0	0	0	67
5	41	0	0	0	41
6	33	0	0	0	33
7	31	0	0	0	31
8	23	0	0	0	23
All	273	0	0	0	273

Results

On the 2012-13 NYS ELA exam, 37% of students in their second year at Excellence Boys scored proficient or advanced.

¹ Because of the state’s new 3-8 testing program, aligned to its high school college and career readiness standards, the Institute is no longer using Time Adjusted Level 3 cut scores. Please report results for previous years using the state’s published results for scoring at proficiency.

² Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

**Performance on 2012-13 State English Language Arts Exam
By All Students and Students Enrolled in At Least Their Second Year**

Grade s	All Students		Enrolled in at least their Second Year	
	Percent	Number Tested	Percent	Number Tested
3	45%	78	45%	78
4	40%	67	40%	67
5	22%	41	22%	41
6	30%	33	30%	33
7	39%	31	39%	31
8	39%	23	39%	23
All	37%	273	37%	273

Evaluation

In the first year of the administration of the NYS Common Core exam in English Language Arts, the school did not meet this measure. It is still the school's goal to see that at least 75% of students reach proficiency on the Common Core exam, and we are looking forward to implementing a higher level of rigor in our English Language Arts classes going forward to better prepare our students to meet this bar.

Additional Evidence

Though we have seen scores drop with the advent of the Common Core English Language Arts exam this year, we feel energized by the rigor that the new exams present for our students as we work to prepare them for college. We look forward to seeing these numbers increase in the coming years as we revise curriculum and work to ensure all students are prepared for the rigor of the new exams.

English Language Arts Performance by Grade Level and School Year

Grade	Percent of Students Enrolled in At Least Their Second Year Achieving Proficiency					
	2010-11		2011-12		2012-13	
	Percent	Number Tested	Percent	Number Tested	Percent	Number Tested
3	65%	48	73%	71	45%	78

4	85%	46	67%	42	40%	67
5	40%	42	64%	45	22%	41
6	72%	25	57%	35	30%	33
7	70%	20	60%	25	39%	31
8			65%	20	39%	23
All	66%	181	66%	238	37%	273

Goal 1: Absolute Measure

Each year, the school’s aggregate Performance Level Index (PLI) on the State English language arts exam will meet the Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an Annual Measurable Objective (AMO) each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state’s learning standards in English language arts. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the current year’s English language arts AMO. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.³

Results

Excellence Boys scored a PI of 116 for the 2012-13 school year. Because the State Education Department has not yet recalibrated the AMO to align with the new testing program, we cannot evaluate this score.

English Language Arts 2012-13 Performance Level Index (PLI)

Number in Cohort	Percent of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
	20%	42%	29%	8%

$$\begin{array}{rccccccccc}
 \text{PI} & = & 42 & + & 29 & + & 8 & = & 79 \\
 & & & & 29 & + & 8 & = & \underline{37} \\
 & & & & & & \text{PLI} & = & 116
 \end{array}$$

Evaluation

³ In contrast to SED’s Performance Index, the PLI does not account for year-to-year growth toward proficiency.

The State Education Department has not recalibrated the AMO to align with the new English Language Arts 3-8 testing program

Leave Blank

Goal 1: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the local school district.

Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.⁴

Results

Excellence Boys outperformed Community School District 16 on the first administration of the Common Core English Language Arts exam by 24 percentage points. The school outperformed the district in all grades.

**2012-13 State English Language Arts Exam
Charter School and District Performance by Grade Level**

Grade	Percent of Students at Proficiency			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent	Number Tested	Percent	Number Tested
3	45%	78	14%	743
4	40%	67	19%	759
5	22%	41	17%	736
6	30%	33	9%	609
7	39%	31	11%	685
8	39%	23	10%	702
All	37%	273	13%	4234

⁴ Schools can acquire these data when the State Education Department releases its Access database containing grade level ELA and math test results for all schools and districts statewide. The SED announces the release of the data on its [News Release webpage](#).

Evaluation

The school met this measure in all grades.

Additional Evidence

Despite changes to the NYS ELA testing program, Excellence Boys students continue to outperform their district counterparts in English Language Arts by a significant margin across all grades.

**English Language Arts Performance of Charter School and Local District
by Grade Level and School Year**

Grade	Percent of Students Enrolled in at Least their Second Year Who Are at Proficiency Compared to Local District Students					
	2010-11		2011-12		2012-13	
	Charter School	Local District	Charter School	Local District	Charter School	Local District
3	65%	39%	73%	41%	45%	14%
4	85%	49%	67%	50%	40%	19%
5	40%	42%	64%	43%	22%	17%
6	72%	26%	57%	28%	30%	9%
7	70%	18%	60%	29%	39%	11%
8			65%	23%	39%	10%
All	66%	36%	66%	36%	37%	13%

Goal 1: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.⁵

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school's performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school's actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

⁵ The Institute will begin using *economically disadvantaged* instead of *eligibility for free lunch* as the demographic variable in 2012-13. Schools should report previous year's results using reported free-lunch statistics.

Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2012-13 analysis is not yet available. This report contains 2011-12 results (using free-lunch eligible percentage), the most recent Comparative Performance Analysis available.

Results

The table below shows that the school’s overall comparative performance is higher than expected overall and when broken down by grade.

2011-12 English Language Arts Comparative Performance by Grade Level

Grade	Percent Eligible for Free Lunch	Number Tested	Percent of Students at Levels 3&4		Difference between Actual and Predicted	Effect Size
			Actual	Predicted		
3		71	73%	54.9	18.3	1.27
4		42	67%	58.8	7.9	0.57
5		45	64%	56.7	9.2	0.65
6		35	57%	53.2	3.9	0.28
7		25	60%	49.0	11.0	0.70
8		20	65%	47.4	17.6	1.17
All	46.5%	237	66.2	54.4	11.8	0.82

School’s Overall Comparative Performance:
Higher than expected to a large degree

Evaluation

The school met this measure in all grades.

Goal 1: Growth Measure⁶
 Each year, under the state’s Growth Model, the school’s mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state’s unadjusted median growth percentile.

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score in 2011-12 including students who were retained in the same grade.

⁶ See Guidelines for [Creating a SUNY Accountability Plan](#) for an explanation.

Students with the same 2011-12 scores are ranked by their 2012-13 scores and assigned a percentile based on their relative growth in performance (mean growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

The State Education Department has not yet reported schools' mean growth percentiles for the 2012-13 school year.⁷

Results

Leave Blank

Summary of the English Language Arts Goal

Excellence Boys achieved two of the three relevant English Language Arts goals based on results of the 2011-12 and 2012-13 state exams. We are proud that our students continue to outperform the district in all grades in ELA and that our students are exceeding predicted performance based on free lunch status. However, we know that we still have a long way to go in terms of absolute performance and that the new rigorous common core standards will provide us with an opportunity to work harder to improve student performance in ELA.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State English language arts exam for grades 3-8.	Did not Achieve
Absolute	Each year, the school's aggregate Performance Level Index (PLI) on the state English language arts exam will meet that year's Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.	N/A
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of students in the same tested grades in the local school district.	Achieved
Comparative	Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State. (Using 2011-12 school district results.)	Achieved
Growth	Each year, under the state's Growth Model the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.	N/A

⁷ See the Guidelines.

Action Plan

In 2013-14, Excellence Boys will continue to build on existing strategies and will employ several new initiatives to continue to develop our students' ELA skills.

- Excellence Boys will continue to improve implementation of the Common Core Standards to develop our scholars' literacy skills. Teachers will receive targeted professional development in order to improve the effectiveness at implementing the Common Core. Teachers will align assessments and scope & sequence to the Common Core Standards.
- Excellence Boys (K-4) will continue to implement the STEP Assessment, (Strategic Teaching and Evaluation of Progress), a developmental literacy assessment that includes a set of tools tightly aligned with scientifically established benchmarks in reading development. Excellence Boys will again be offering extensive professional development and support to teachers around the STEP Program three times in the 2013-14 school year.
- Excellence Boys K-4 teachers will participate in two full days of training in teaching reading during August PD as well as multiple sessions of literacy PD over the course of the school year.
- Excellence Boys will again administer bimonthly compositions for all K-4 students to assess writing progress and provide data to drive improvements in writing instruction.
- Excellence Boys' K-4 teachers will participate in one full day of training in Writing Instruction during August PD.
- Excellence Boys' Special Education Teachers will continue to provide literacy intervention for those students in K-8 who need additional help in developing their print knowledge, alphabet awareness, phonological awareness, phonemic awareness, decoding, vocabulary, fluency, and spelling. For this intervention work, Excellence Boys will continue to employ the Wilson Foundations Program Wilson. The Special Education Teachers will continue to receive on-going training and support from the Uncommon Schools Director of Special Education.
- Students in 5th through 8th grade will continue to complete rigorous quarterly comprehensive written projects with an emphasis on developing ideas, drafting, and critical revision. They will also continue to read, discuss, and write about 7-8 class books annually which are at or slightly above grade level.
- Students in 5th through 8th grade will engage in more rigorous non-fiction reading in science and history classes.
- 5th and 6th Grade students will continue a daily 30 minute block of Guided Reading and will add a 30 minute block of Independent Reading. 7th and 8th Grade scholars will continue engaging in a daily 30 minute Independent Reading block.

MATHEMATICS

Goal 2: Mathematics

Excellence Boys Charter School students, enrolled in at least their second year, will meet or exceed New York State Elementary Learning Standards in Mathematics.

Background

The Math curriculum at Excellence Boys Charter School is designed to ensure that students master math procedures and problem solving skills. Students are expected to:

- Master math procedures by fifth grade
- Apply mathematical knowledge and skill to solve problems by eighth grade

In Grades K-4, Excellence Boys Charter School implements the Investigations in Numbers, Data and Space curriculum in to help students develop a foundation in math fact knowledge and problem solving skills. Students receive approximately 90 minutes of daily math instruction. In Grades 5 and 6, Math is taught in one 90 minute block. In Grade 7, students take two 55 minute blocks of Pre-Algebra. In Grade 8, students take two 55 minute blocks of Algebra.

Excellence Boys administers quarterly school-designed Interim Assessments in K-8, the results of which are used improve instruction and increase student achievement. In 2012-13, two Academy Principals and a Director of Staff Development helped develop and lead extensive and intensive teacher development sessions.

Goal 2: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State mathematics examination for grades 3-8.⁸

Method

The school administered the New York State Testing Program mathematics assessment to students in 3rd through 8th grade in April 2013. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

⁸ Because of the state's new 3-8 testing program, aligned to its high school college and career readiness standards, the Institute is no longer using Time Adjusted Level 3 cut scores. Please report results for previous year's using the state's published results for scoring at proficiency.

**2012-13 State Mathematics Exam
Number of Students Tested and Not Tested**

Grade	Total Tested	Not Tested ⁹			Total Enrolled
		IEP	ELL	Absent	
3	78				78
4	67				67
5	41				41
6	33				33
7	31				31
8	23				23
All	273				273

Results

On the 2012-13 NYS Math exam, 47% of students in their second year at Excellence Boys scored proficient or advanced.

**Performance on 2012-13 State Mathematics Exam
By All Students and Students Enrolled in At Least Their Second Year**

Grades	All Students		Enrolled in at least their Second Year	
	Percent	Number Tested	Percent	Number Tested
3	54%	78	54%	78
4	48%	67	48%	67
5	34%	41	34%	41
6	39%	33	39%	33
7	45%	31	45%	31
8	57%	23	57%	23
All	47%	273	47%	273

Evaluation

In the first year of the administration of the NYS Common Core exam in Math, the school did not meet this measure. It is still the school's goal to see that at least 75% of students reach proficiency on the Common Core exam, and we are looking forward to implementing a higher level of rigor in our Math classes going forward to better prepare our students to meet this bar.

⁹ Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

Additional Evidence

Excellence Boys has historically performed well on the NYS Mathematics assessments, exceeding the goal of 75% of students reaching proficiency each year prior to 2012-13. While the school did not meet or exceed this goal this year, we are confident that our strong track record in mathematics as well as the deep level of Common Core alignment that our instructional leaders have conducted will help the school demonstrate strong performance going forward.

Mathematics Performance by Grade Level and School Year

Grade	Percent of Students Enrolled in At Least Their Second Year Achieving Proficiency					
	2010-11		2011-12		2012-13

7	100%	20	92%	25	45%	31
8			100%	20	57%	23
All	87%	181	86%	238	47%	273

Goal 2: Absolute Measure

Each year, the school's aggregate Performance Level Index (PLI) on the State mathematics exam will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system..

Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an Annual Measurable Objective (AMO) each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state's learning standards in mathematics. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the current year's mathematics AMO. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.¹⁰

Results

Excellence Boys scored a Mathematics PLI of 137 during the 2012-13 school year. Because the State Education Department has not yet recalibrated the Annual Measurable Objective to align with the Common Core mathematics exam, we cannot evaluate this PLI in comparison to a statewide bar.

¹⁰ In contrast to SED's Performance Index, the PLI does not account for year-to-year growth toward proficiency.

Mathematics 2012-13 Performance Level Index (PLI)

Number in Cohort	Percent of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
273	11%	43%	33%	14%

$$\begin{array}{rclclclclcl}
 \text{PI} & = & 43 & + & 33 & + & 14 & = & 90 \\
 & & & & 33 & + & 14 & = & \underline{47} \\
 & & & & & & \text{PLI} & = & 137
 \end{array}$$

Evaluation

The State Education Department has not recalibrated the AMO to align with the new Mathematics 3-8 testing program

Leave Blank

Goal 2: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the local school district.

Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.¹¹

Results

Excellence Boys' percentage of students scoring proficient or advanced proficient on the NYS Common Core mathematics exam exceeded the percentage of students in Community School District 16 scoring proficient or advanced proficient on the exam in the same grades by 34 percentage points overall.

¹¹ Schools can acquire these data when the State Education Department releases its Access database containing grade level ELA and math test results for all schools and districts statewide. The SED announces the release of the data on its [News Release webpage](#).

**2012-13 State Mathematics Exam
Charter School and District Performance by Grade Level**

Grade	Percent of Students at Proficiency			
	Charter School Students In At Least 2 nd Year		All District Students	
	Percent	Number Tested	Percent	Number Tested
3	54%	78	14%	748
4	48%	67	25%	757
5	34%	41	17%	740
6	39%	33	8%	611
7	45%	31	4%	694
8	57%	23	6%	696
All	47%	273	13%	4246

Evaluation

Once again, Excellence Boys met its comparative measure with its percentage of student scoring proficient exceeding the percentage of students in CSD 16 scoring proficient or advanced proficient across grades 3-8. The percentage of students at Excellence Boys scoring proficient in each grade was at least double the percentage in the district in all but 4th grade. In grade 8, Excellence Boys' performance exceeded the district's performance by 51 percentage points. While Excellence Boys not satisfied with its performance and hopes to get all students to proficiency as quickly as possible, the school is glad that it is able to offer students a viable alternative to math instruction in the district which is putting far fewer students on a path to mathematics proficiency.

**Mathematics Performance of Charter School and Local District
by Grade Level and School Year**

Grade	Percent of Students Enrolled in at Least their Second Year Who Are at Proficiency Compared to Local District Students					
	2010-11		2011-12		2012-13	
	Charter School	Local District	Charter School	Local District	Charter School	Local District
3	83%	50.3%	80%	45%	54%	14%
4	96%	54.9%	86%	62%	48%	25%
5	69%	53.2%	76%	57%	34%	17%
6	100%	38.0%	97%	40%	39%	8%
7	100%	35.5%	92%	44%	45%	4%
8			100%	41%	57%	6%
All	87%	47.3%	86%	48%	47%	13%

Goal 2: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.¹²

Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school’s performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school’s actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools’ actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2012-13 analysis is not yet available. This report contains 2011-12 results (using free-lunch eligible percentage), the most recent Comparative Performance Analysis available.

Results

The chart below displays how Excellence Boys students in each grade performed compared to students in public schools in New York State with the same grade and a similar population of free-lunch-eligible students. As evidenced in the chart, Excellence Boys students performed much better than predicted in all grades, and had significant positive effect sizes overall and in each grade.

2011-12 Mathematics Comparative Performance by Grade Level

Grade	Percent Eligible for Free Lunch	Number Tested	Percent of Students at Levels 3&4		Difference between Actual and Predicted	Effect Size	
			Actual	Predicted			
3		71	80.3	60.6	19.7	1.25	
4		42	85.8	68.6	17.2	1.15	
5		45	75.5	66.1	9.4	0.57	
6		35	97.1	62.7	34.4	1.86	
7		25	92.0	61.9	30.1	1.66	
8		20	100.0	58.0	42.0	2.21	
All		46.5%	238	85.7	63.3	22.5	1.32

School’s Overall Comparative Performance:

Higher than expected to a large degree.

¹² The Institute will begin using *economically disadvantaged* instead of *eligibility for free lunch* as the demographic variable in 2012-13. Schools should report previous year’s results using reported free-lunch statistics.

Evaluation

Once again, Excellence Boys met and exceeded this measure with a significant positive effect size.

Additional Evidence

In addition, the school administered the NYS Integrated Algebra Regents in Grade 8. The results of the Integrated Algebra Regents exam are below. While performance on this goal does not yet apply since 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13), we feel that the Regents results for the 8th grade cohort are representative of the strong mathematics instruction students are receiving to help prepare them for college.

Mathematics Regents Performance Level and Passing Rate by Fourth Year Accountability Cohort

Grade	Cohort Size	Percent at Each Level ¹³				Percent Passing ¹⁴
		Level 1	Level 2	Level 3	Level 4	
8 th	20	9%	17%	61%	13%	74%

Goal 2: Growth Measure¹⁵

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score in 2011-12 including students who were retained in the same grade. Students with the same 2011-12 scores are ranked by their 2012-13 scores and assigned a percentile based on their relative growth in performance (mean growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

The State Education Department has not yet reported schools' mean growth percentiles for the 2012-13 school year.

Results

Leave Blank

¹³ Level 1 = less than 55; Level 2= at least 55, but less than 65; Level 3 at least 65, but less than 85; Level 4 = at least 85.

¹⁴ With a score of at least 65

¹⁵ See Guidelines for [Creating a SUNY Accountability Plan](#) for an explanation.

Summary of the Mathematics Goal

While Excellence Boys students have consistently demonstrated strong performance in math, the Common Core standards presented a new level of rigor that fewer students were able to meet this year. Despite this more rigorous exam, the school met two of its three accountability plan goals. Student performance in math at Excellence Boys continues to exceed the performance of students in the local district and the performance of similar students across the state based on free lunch eligibility. The school did not meet its absolute goal this year, however, of at least 75% of students scoring proficient or advanced proficient on the Common Core math exam; 47% of students in at least their second year at Excellence Boys score proficient or advanced.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students who are enrolled in at least their second year will perform at proficiency on the New York State mathematics exam for grades 3-8.	Did Not Achieve
Absolute	Each year, the school's aggregate Performance Level Index (PLI) on the state mathematics exam will meet that year's Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.	N/A
Comparative	Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of students in the same tested grades in the local school district.	Achieved
Comparative	Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State. (Using 2011-12 school district results.)	Achieved
Growth	Each year, under the state's Growth Model the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.	N/A

Action Plan

Based on evidence from historical New York State Math Test performance, comparative 2012-2013 Common Core Math Assessment data, TerraNova Second Edition, Investigations Curricula and its Middle Academy Math Procedures Curricula, Excellence Boys students have performed well and have validated the school's curriculum implementation. However, the absolute performance across all grades in mathematics on the 2012-13 Common Core Mathematics Exam has demonstrated that we need to put more careful thought into what we are doing to increase the rigor of the school's math program.

Excellence Boys again benefited from its "Math Meeting" (K-2) and "Power Up/Fact Practice" (3-4) concept, in which twenty minutes of each day is dedicated to reviewing essential background concepts related to math, such as counting, knowing the days of the week, and writing the date. Excellence Boys' math curriculum was further supplemented with exercises in mental computation, graphing, pattern recognition, and money. Excellence Boys' Middle Academy Math curriculum was

developed from some of the some of the very best practices and lesson plans from other high achieving charter middle schools.

- Excellence Boys will continue to offer weekly Math Inquiry Group sessions for professional development for K-4 teachers.
- Excellence Boys will improve Math implementation of the Common Core Standards by aligning assessments and scope & sequence to the Common Core.
- Excellence Boys teachers who plan math instruction will receive training in the Common Core standards for math. All K-4 teachers will receive professional development in using story problems to increase critical thinking in math.
- In 2013-14, Excellence Boys' Middle Academy 5th and 6th grade students will have 90 minutes of daily math instruction, with an emphasis on Math Procedures and Problem Solving to drive both procedural fluency and critical thinking around math concepts. In addition, all 7th Grade students will have 2 hours of Pre-Algebra and 8th Grade students will have 2 hours of Algebra daily in preparation for the Algebra Regents Exam at the end of the year.
- For the 2013-14 school year, Excellence Boys will continue its in-school and after school tutoring program. Students who are identified as at-risk of under-performance will be assigned to after school tutoring for up to two days a week.

SCIENCE

Goal 3: Science

Excellence Boys Charter School students, enrolled in at least their second year, will meet or exceed New York State Elementary Learning Standards in Science.

Background

Excellence Boys' curricula in Science and Social Studies are based on a combination of the NYS Science and Social Studies Standards and the Core Knowledge curriculum, designed by Professor E. D. Hirsch, Jr., author of *Cultural Literacy* and *The Schools We Need*. The school meets all New York City and State Standards and will go beyond them in our coverage of some units, such as Science Biographies for each grade level.

The Excellence Boys curriculum for Core Knowledge (Science and Social Studies) relies on the Scott Foresman textbook series, which are aligned to NYS standards, and associated multi-media resource materials. Both the Science and Social Studies curricula from Scott Foresman contain teacher-friendly materials with extensive professional development resources. The curricula are highly adaptable so teachers have the freedom and flexibility to modify the curricula based on the needs of their particular students. Each curriculum contains a test-preparation component which is valuable for assessments. Finally, the Science and Social Studies programs provide ample opportunities for integration across all subjects, especially reading and writing.

Goal 3: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State science examination.

Method

Tested students who were enrolled in at least their second year are compared to all tested students in the public school district 16. Comparisons are between the results for Excellence Boys 4th grade students and the results for 4th grade students in school district 16. In 8th grade, in lieu of administering the New York State Testing Program science assessment in 8th grade science, the school administered the Regents examination in the Living Environment. The state has set the passing score for Regents exams at 65.

Results

4th Grade: The vast majority of 4th grade students (97%) achieved proficiency on the State Science Exam.

Charter School Performance on 2012-13 State Science Exam By All Students and Students Enrolled in At Least Their Second Year

Grade	Percent of Students Enrolled in At Least Their Second Year at Proficiency

Summary of the Science Goal

The absolute measure was achieved and comparative data was not yet available.

Type	Measure	Outcome
Absolute	Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State examination.	Achieved
Comparative	Each year, the percent of all tested students enrolled in at least their second year and performing at proficiency on the state exam will be greater than that of all students in the same tested grades in the local school district.	N/A

Action Plan

In 2013-14, Excellence Boys will continue to employ the Scott Foresman Science and Social Studies programs and extensive hands-on experiments to move students towards competency in the understanding and application of Science and Social Studies.

Excellence Boys remains strongly committed to ensuring that our scholars develop the core knowledge that will allow them to become critical thinkers in all areas and, as E.D. Hirsch demonstrates, will support their development in reading comprehension. We are equally committed to meeting our Accountability Plan goals in Science.

NCLB

Goal 4: NCLB

The school will make Adequate Yearly Progress.

Goal 4: Absolute Measure

Under the state's NCLB accountability system, the school's Accountability Status is in good standing: the state has not identified the school as a Focus School nor determined that it has met the criteria to be identified as a local-assistance-plan school.

Method

Since *all* students are expected to meet the state's learning standards, the federal No Child Left Behind legislation stipulates that various sub-populations and demographic categories of students among all tested students must meet state proficiency standards. New York, like all states, established a system for making these determinations for its public schools. Each year the state issues School Report Cards which indicate each school's status under the state's No Child Left Behind (NCLB) accountability system.

Results

For the 2012-13 school year, Excellence Boys Charter School was found to be in Good Standing.

NCLB Status by Year

Year	Status
2010-11	Good Standing
2011-12	Good Standing
2012-13	Good Standing

APPENDIX A: HIGH SCHOOL GOALS AND MEASURES

ENGLISH LANGUAGE ARTS

Goal 1: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on the New York State Regents English exam by the completion of their fourth year in the cohort.

(S) Each year, 65 percent of students in the high school Accountability Cohort will meet the college and career ready standard (currently scoring 75 on the New York State Regents English exam) by the completion of their fourth year in the cohort.

Method

The school administered the New York State Regents Comprehensive English exam that students must pass to graduate. The school scores Regents on a scale from 0 to 100. The State Education Department defines the following pass levels: scoring 65 to meet the graduation requirement for a Regents diploma; and scoring 75 to meet the college and career readiness standard.¹⁸ This measure examines the percent of the Accountability Cohort that passed the exam by the completion of their fourth year in the cohort. Students have until the summer of their fourth year to do so.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

English Regents Passing Rate with a Score of 65 by Fourth Year Accountability Cohort¹⁹

Cohort Designation	Number in Cohort	Percent Passing with a score of 65
2007	N/A	N/A
2008	N/A	N/A
2009	N/A	N/A

Evaluation

N/A

¹⁸ The statewide adaptation of the Common Core State Standards includes incorporating college and career readiness performance standards for the English language arts exam. The state has benchmarked student ELA test performance to the likely need for remedial course work when students enter college by comparing student 3-8 test results and Regents results to their post-secondary experience at SUNY and CUNY. Besides raising the cut scores for proficiency in the 3-8 testing program, the state has begun to set college and career readiness standards for passing Regents.

¹⁹ Based on the highest score for each student on the English Regents exam

Additional Evidence

As this is Excellence Boys’ first year with high school grades, the ELA goals are not yet applicable. However, 79% of Excellence Boys’ 9th grade students already received college and career ready score on their New York State Regents English exam (the other 21% received a score between 65 and 75). We expect that we will continue to make progress toward our goal over the next three years by continuing to refine our curriculum and offer supports throughout the school day and after school from peers and staff.

English Regents Passing Rate with a score of 65 by Cohort and Year

Cohort Designation	2010-11		2011-12		2012-13	
	Number in Cohort	Percent Passing	Number in Cohort	Percent Passing	Number in Cohort	Percent Passing
2012					14	100%

Goal 1: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will did not score proficient on the New York State 8th grade English language arts exam will score at least 65 on the New York State Regents English exam by the completion of their fourth year in the cohort.

(§) Each year, 65 percent of students in the high school Accountability Cohort who did not score proficient on their New York State 8th grade English language arts exam will meet the college and career ready standard (currently scoring 75 on the New York State Regents English exam) by the completion of their fourth year in the cohort.

Method

The school demonstrates the effectiveness of its English language arts program by enabling students who were not meeting proficiency standards in the eighth grade to meet the English requirement for graduation with a Regents diploma (the college and career readiness standard).

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13)

English Regents Passing Rate with a Score of 65 (75) among Students Who Were Not Proficient in the 8th Grade by Fourth Year Accountability Cohort ²⁰

2008	N/A	N/A

²⁰ Based on the highest score for each student on the English Regents exam

2009	N/A	N/A
------	-----	-----

Evaluation

N/A

Additional Evidence

N/A

Goal 1: Absolute Measure
 Each year, the Accountability Performance Level (APL) on the Regents English exam of students completing their fourth year in the Accountability Cohort will meet the Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.

Method

In receiving a waiver for its federal No Child Left Behind accountability system, the New York State Education Department now holds high schools accountable for making annual yearly progress towards meeting college and career readiness standards. See page 72 of SED’s ESEA waiver application for the high school AMOs:

http://www.p12.nysed.gov/accountability/documents/NYSESEAFlexibilityWaiver_REVISED.pdf

The AMO continues to be its basis for determining if schools are making satisfactory progress toward the annual goal. To achieve this measure, all tested students in the Accountability Cohort must have an Accountability Performance Level (APL) that equals or exceeds the 2012-13 English language arts AMO of **163**.

The APL is calculated by adding the sum of the percent of students in the Accountability Cohort at Levels 2 through 4 to the sum of the percent of students at Level 3 and 4. Thus, the highest possible APL is 200. The Regents exams are scored on a scale from 0 to 100; 0 to 64 is Level 1, 65 to 74 is Level 2, 75 to 89 is Level 3, and 90 to 100 is Level 4.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

**English Language Arts Accountability Performance Level (APL)

Evaluation

N/A.

Additional Evidence

N/A

Goal 1: Comparative Measure

(S) Each year, students in the high school *Total Cohort* will exceed the predicted pass rate on a Regents mathematics exam or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all high schools in New York State.

Method

The Charter Schools Institute will conduct a Comparative Performance Analysis, as it has for 3-8 schools. The Institute examines the school's performance in terms of demographically similar high schools state-wide by using a regression analysis to control for the percentage of economically disadvantaged students among all high schools in New York State. The Institute compares the school's actual performance to the predicted performance of high schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other high schools with similar economically disadvantaged statistics produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a small degree, is the target for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2012-13 analysis is not yet available.

Results

Leave Blank

Goal 1: Comparative Measure

Each year, the percent to students in the high school Accountability Cohort passing the Regents English exam with a score of 65 or above will exceed that of the high school Accountability Cohort from the local school district.

(S) Each year, the Accountability Performance Level (APL) in Regents English of students in the fourth year of their high school Accountability Cohort will exceed the APL of comparable students from the local school district.

Method

The school compares the performance of students in their fourth year in the charter school Accountability Cohort to that of the respective cohort of students in the local school district. Given

that students may take Regents exam up through the summer of their fourth year, the school presents most recently available school district results.²¹

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

Additional Evidence

N/A

Goal 1: Growth Measure

(S) Each year, under the state’s high school Growth Model (under development) the relative growth of selected students will exceed the state’s median growth.

Method

This measure will examine the change in performance of the same group of students during the course of their high school careers and the progress they are making in comparison to other students with the similar scores in the eighth grade. The analysis only includes students from whom the eighth grade scores are available. In following the existing 3-8 Growth Model, students with the same scores are ranked and assigned a percentile based on their relative growth in performance (mean growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to perform above the statewide median, it will have a mean growth percentile greater than 50.

The State Education Department has not yet developed the high school Growth Model.

Results

Absolute	Each year, the Accountability Performance Level (APL) on the Regents English exam of students completing their fourth year in the Accountability Cohort will meet the Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.	N/A
Comparative	(§) Each year, students in the high school Total Cohort will exceed the predicted pass rate on the Regents English exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all high schools in New York State.	N/A
Comparative	Each year, the percent to students in the high school Accountability Cohort passing the Regents English exam with a score of 65 or above will exceed that of the high school Accountability Cohort from the local school district. (Using 2011-12 school district results.)	N/A
	(§) Each year, the Accountability Performance Level (APL) in Regents English of students in the fourth year of their high school Accountability Cohort will exceed the APL of comparable students from the local school district. (Using 2011-12 school district results.)	
Growth	(§) Each year, under the state’s high school Growth Model (under development) the relative growth of selected students will exceed the state’s median growth.	N/A

Action Plan

Excellence Boys, having just completed its first year serving high school grades, will continue to refine its English curriculum and determine ways to offer additional supports from staff and peers to students who struggle to reach this benchmark.

²³ If the school includes a middle school component, add these measures to the subject area goal for the younger grades.

MATHEMATICS

Goal 2: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on a New York State Regents mathematics exam by the completion of their fourth year in the cohort.

(§) Each year, 65 percent of students in the high school Accountability Cohort will meet the college and career ready standard (currently scoring 80 on a New York State Regents math exam) by the completion of their fourth year in the cohort.

Method

The school administered the New York State Regents in Geometry. The school scores Regents on a scale from 0 to 100. The State Education Department defines the following pass levels: scoring 65 to meet the graduation requirement for a Regents diploma; and scoring 80 to meet the college and career readiness standard.²⁴ This measure requires students in each Accountability Cohort to achieve the requisite score on any one of the Regents mathematics exams by their fourth year in the cohort. Students may have taken a particular Regents mathematics exam multiple times or have taken multiple mathematics exams. Students have until the summer of their fourth year to pass a mathematics exam.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

Mathematics Regents Passing Rate with a Score of 65 by Fourth Year Accountability Cohort²⁵

Cohort Designation	Number in Cohort	Percent Passing with a score of 65
2007	N/A	N/A
2008	N/A	N/A
2009	N/A	N/A

Evaluation

N/A

²⁴ The statewide adaptation of the Common Core State Standards includes incorporating college and career readiness performance standards for the English language arts exam. The state has benchmarked student mathematics test performance to the likely need for remedial course work when students enter college by comparing student 3-8 test results and Regents results to their post-secondary experience at SUNY and CUNY. Besides raising the cut scores for proficiency in the 3-8 testing program, the state has begun to set college and career readiness standards for passing Regents.

²⁵ Based on the highest score for each student on the Mathematics Regents exam

Additional Evidence

Even though this goal does not yet apply to Excellence Boys, our students are showing strong progress towards this goal, with 100% of students passing the Integrated Algebra Regents as 8th graders in 2012 and 21% of Excellence Boys' 9th grade students already received a college and career ready score on their New York State Regents Geometry exam (while 50% received a score between 65 and 80) as 9th graders in 2013. We hope to continue to build on these strong results as students encounter more Regents exams in their high school career.

Mathematics Regents Passing Rate with a score of 65 by Cohort and Year

Cohort Designation	2010-11		2011-12		2012-13	
	Number in Cohort	Percent Passing	Number in Cohort	Percent Passing	Number in Cohort	Percent Passing
2009						
2010						
2011			20	100%		
2012					14	71%

Goal 2: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will did not score proficient on the New York State 8th grade mathematics exam will score at least 65 on a New York State Regents mathematics exam by the completion of their fourth year in the cohort.

(S) Each year, 65 percent of students in the high school Accountability Cohort who did not score proficient on their New York State 8th grade math exam will meet the college and career ready standard (currently scoring 80 on a New York State Regents math exam) by the completion of their fourth year in the cohort.

Method

The school demonstrates the effectiveness of its mathematics program by enabling students who were not meeting proficiency standards in the eighth grade to meet the mathematics requirement for graduation with a Regents diploma (the college and career readiness standard).

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

Mathematics Regents Passing Rate with a Score of 65 (80) among Students Who Were Not Proficient in the 8th Grade by Fourth Year Accountability Cohort ²⁶

2007	N/A	N/A
2008	N/A	N/A
2009	N/A	N/A

Evaluation

N/A

Additional Evidence

N/A

Goal 2: Absolute Measure
 Each year, the Accountability Performance Level (APL) on a Regents mathematics exam of students completing their fourth year in the Accountability Cohort will meet the Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.

Method

In receiving a waiver for its federal No Child Left Behind accountability system, the State Education Department now law holds high schools accountable for making annual yearly progress towards meeting college and career readiness standards. See page 72 of SED’s ESEA waiver application for the high school AMOs:

http://www.p12.nysed.gov/accountability/documents/NYSESEAFlexibilityWaiver_REVISED.pdf

The AMO continues to be its basis for determining if schools are making satisfactory progress toward the annual goal. To achieve this measure, all tested students in the Accountability Cohort must have an Accountability Performance Level (APL) that equals or exceeds 2012-13 mathematics AMO of 142.

The APL is calculated by adding the sum of the percent of students in the Accountability Cohort at Levels 2 through 4 to the sum of the percent of students at Level 3 and 4. Thus, the highest possible APL is 200. The Regents exams are scored on a scale from 0 to 100; 0 to 64 is Level 1, 65 to 79 is Level 2, 80 to 89 is Level 3, and 90 to 100 is Level 4.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

²⁶ Based on the highest score for each student on the Mathematics Regents exam

 \end{array}$$

Evaluation

N/A

Additional Evidence

N/A

Goal 2: Comparative Measure
(S) Each year, students in the high school *Total Cohort* will exceed the predicted pass rate on a Regents mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for economically disadvantaged students among all high schools in New York State.

Method

The Charter Schools Institute will conduct a Comparative Performance Analysis, as it has for 3-8 schools. The Institute examines the school’s performance in terms of demographically similar high schools state-wide by using a regression analysis to control for the percentage of economically disadvantaged students among all high schools in New York State. The Institute compares the school’s actual performance to the predicted performance of high schools with a similar economically disadvantaged percentage. The difference between the schools’ actual and predicted performance, relative to other high schools with similar economically disadvantaged statistics produces an Effect Size. An Effect Size of 0.3, or performing higher than expected to a small degree, is the target for achieving this measure.

Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2012-13 analysis is not yet available.

Results

Leave Blank

Goal 2: Comparative Measure

Each year, the percent to students in the high school Accountability Cohort passing a Regents mathematics exam with a score of 65 or above will exceed that of the high school Accountability Cohort from the local school district.

(S) Each year, the Accountability Performance Level (APL) in mathematics of students in the fourth year of their high school Accountability Cohort will exceed the APL of comparable students from the local school district.

Method

The school compares the performance of students in their fourth year in the charter school Accountability Cohort to that of the respective cohort of students in the local school district. Given that students may take Regents exam up through the summer of their fourth year, the school presents most recently available school district results.²⁷

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

Evaluation

N/A

Additional Evidence

N/A

Goal 2: Growth Measure
(§) Each year, under the state’s high school Growth Model (under development) the relative growth of selected students will exceed the state’s median growth.

Method

This measure will examine the change in performance of the same group of students during the course of their high school careers and the progress they are making in comparison to other students with the similar scores in the eighth grade. The analysis only includes students from whom the eighth grade scores are available. In following the existing 3-8 Growth Model, students with the same scores are ranked and assigned a percentile based on their relative growth in performance (mean growth percentile). Students’ growth percentiles are aggregated school-wide to yield a school’s mean growth percentile. In order for a school to perform above the statewide median, it will have a mean growth percentile greater than 50.

The State Education Department has not yet developed the high school Growth Model.

Results

Summary of the High School Mathematics Goal ³¹

Although our oldest Excellence Boys students only entered 9th grade in 2012-13, 100% have already met the goal of passing a New York State Regents mathematics exam. 100% of the 2012 Accountability Cohort passed the Integrated Algebra Regents in 2012. Additionally, 21% of Excellence Boys’ 9th grade students already received a college and career ready score on their New York State Regents math exam (while 50% received a score between 65 and 80). Our students are already demonstrating competency in the understanding and application of mathematical computation and problem solving.

Action Plan

- Students will continue to receive 50-100 minutes of math instruction each day.
- The high school instructional leadership team will continue to review teacher lesson plans, observe classroom instruction and provide feedback on instruction.
- The school's leadership team will be responsible for identifying areas for growth and providing an extensive professional development program that meets the needs of both the school and individual teachers.
- The school's leadership team will continue to review the effectiveness of the school's curriculum and make necessary revisions to increase student achievement.
- School leaders will continue to work with master teachers at the school to research and develop curriculum modifications that will ensure increased levels of student achievement and will continuously monitor the effectiveness of those modifications.
- Excellence Boys Charter School will continue to offer Regents/AP/SAT preparation classes on Saturdays beginning in the 9th grade.
- Excellence Boys Charter School will continue to provide professional development before the school year, during the school year, and following the school year, during which teachers can review and discuss results.

SCIENCE

Goal 3: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on a New York State Regents science exam by the completion of their fourth year in the cohort.

Method

New York State administers multiple high school science assessments; current Regent exams are Living Environment, Earth Science, Chemistry and Physics. The school administered Living Environment Regents in 2011 to the 2012 cohort when they were in 8th grade. It scores Regents on a scale from 0 to 100; students must score at least 65 to pass. This measure requires students in each Accountability Cohort to pass any one of the Regents science exams by their fourth year in the cohort. Students may have taken a particular Regents science exam multiple times or have taken multiple science exams. Students have until the summer of their fourth year to pass a science exam.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

SOCIAL STUDIES

Goal 4: Social Studies

Students will demonstrate an understanding of key geographical, economic, and governmental concepts, as well as major historical ideas and developments in the United States, New York and the world.

Goal 4: Absolute Measure

Each year, 75 percent of students in the high school Accountability Cohort will score at least 65 on the New York State Regents U.S. History exam by the completion of their fourth year in the cohort.

Method

New York State administers two high school social studies assessments: U.S. History and Global History. In order to graduate, students must pass both of these Regents exams with a score of 65 or higher. This measure requires students in each Accountability Cohort to pass the two exams by the completion of their fourth year in the cohort. Students may have taken the exams multiple times and have until the summer of their fourth year to pass it. Once students pass it, performance on subsequent administrations of the same exam do not affect their status as passing.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13). The school did not administer any Regents exams in social studies during the 2012-13 academic year.

HIGH SCHOOL GRADUATION

GOAL 6: HIGH SCHOOL GRADUATION

Students will graduate from high school.

Goal 6: Absolute Measure

Each year, 75 percent of students in each cohort will pass their core academic subjects by the end of August and the school will promote them to the next grade.

(§) Each year, 75 percent of students in first and second year high school Total Graduation Cohorts will earn at least ten credits (if 44 needed for graduation) or five credits (if 22 needed for graduation) each year.

Method

This measure serves as a leading indicator of the performance of high school cohorts and examines their progress toward graduation based on annual credit accumulation. The measure requires that, based on the school's promotion requirements, the school will promote 75 percent of its students in each cohort to the next grade by the end of August OR that 75 percent of the first and second year high school Total Graduation Cohorts will earn the requisite number of credits.

Promotion Policies

Scholars who receive a final failing grade (below a 70) for a class do not receive credit for the class. The final grade is based on individual quarter grades and a comprehensive subject-area test.

In subjects that earn 2.0 credits per year (English, Math, Science and History), a scholar who fails will be required to take an additional class to recover the lost credits. There are two ways this occurs, depending on how many classes a scholar is failing that academic year:

1. **One class:** The scholar can recover credit by taking an intensive summer school class in this subject at his/her expense and/or at the school if offered. In order to recover credit, the class must be approved by the school.
2. **Two or more classes:** A scholar is required to repeat the grade.

In subjects that require less than four years of credits (Foreign Language, Physical Education, Health and Electives), a scholar must make up the class in a subsequent school year after the school day, during the summer or another time the school deems appropriate (at his/her expense).

Seniors who fail a class but need the credit to graduate must take an intensive summer school class and cannot partake in commencement activities.

Given that Excellence Boys has provided four tiers of scholar support throughout the school year – Weekly Progress Reports, Office Hours, Weekly Check-in Meetings with the Advisor, and Saturday

School – summer coursework for all subjects is the responsibility of the family, both financially and logistically. Subject-area teachers will supply the directions and expectations for summer research projects.

Scholars who need summer remediation and do not fulfill all requirements will automatically be retained.

Graduation Credit Requirements:

- a) English: 4 years (8 credits)
- b) Math: 3-4 years (6-8 credits)
- c) Science: 4 years (8 credits)
- d) History: 4 years (8 credits)
- e) Foreign Language: 3 years (6 credits)
- f) Electives: 3 years (6 credits)
- g) Physical Education: 2 years (4 credits)

Results

Of the 14 Excellence Boys Scholars who completed the 2012-2013 school year at Uncommon Charter High School, 13 have been promoted. All but one of our students in the first Excellence Boys cohort – Accountability Cohort 2012 – passed their academic classes and were promoted to the next grade.

Percent of Students Promoted by Cohort in 2012-13

Cohort Designation	Number in Cohort	Percent promoted
2009		
2010		
2011		
2012	14	93%

Evaluation

The school met this measure, promoting 93% of students within our 2012 cohort, well above the threshold of 75% of students within the cohort promoted.

Additional Evidence

N/A

Goal 6: Absolute Measure

Each year, 75 percent of students in the second year high school Total Graduation Cohort will score 65 on at least three different New York State Regents exams required for graduation.

Method

This measure serves as a leading indicator of the performance of high school cohorts and examines their progress towards graduation based on Regents exam passage. The measure requires that 75 percent of students in each cohort have passed at least three Regents exams by their second year in the cohort. In August of 2013, the 2011 cohort will have completed its second year.

Results

This measure does not yet apply, as 2012 is our oldest cohort of Excellence Boys students (they entered 9th grade in 2012-13).

Percent of Students in their Second Year Passing Three Regents Exams by Cohort

Cohort Designation	Number in Cohort	Percent Passing Three Regents
2009	N/A	N/A
2010	N/A	N/A
2011	N/A	N/A

Evaluation

N/A

Additional Evidence

At the end of their first year in high school, the Excellence Boys 2012 Accountability Cohort has already met this measure. Of the 15 students in the cohort, 12 (or 80% of students) have passed three Regents exams (Living Environment, Geometry and Integrated Algebra).

Goal 6: Absolute Measure

Each year, 75 percent of students in the fourth year high school Total Graduation Cohort and 95 percent of students in the fifth year high school Total Graduation Cohort will graduate.

Method

This measure examines students in two high school Graduation Cohorts: those who entered the 9th grade as members of the 2009 cohort and graduated four years later and those who entered as members of the 2008 cohort and graduate five years later. At a minimum, these students have passed five Regents exams in English language arts, mathematics, science, U.S. History and Global History. Students have through the summer to complete their graduation requirements.

The school's graduation requirements appear above under the graduation goal's first measure pertaining to annual grade-by-grade promotion.

Action Plan

- Excellence Boys will continue to use an academic model that is largely similar to that of grades 5-8, utilizing practices and approaches that have proven effective in producing significant academic gains at the highest-performing urban public schools in the country. Specifically, the high school will focus around:

- A College Preparatory Mission
- High Standards for Academics and Character
- A Highly Structured Learning Environment
- A Longer School Day and A Longer School Year
- A Focus on Accountability and Data-Driven Instruction
- A Faculty of Committed and Talented Leaders and Teachers

The school has developed a rigorous high school curriculum based on the New York State Learning Standards and the newly adopted Common Core Learning Standards with a special emphasis on preparing students for admission into and success in college. The school is structured so that students will meet the criteria for a Regents or Advanced Regents degree and will be accepted to at least one 4-year college.

- Quarterly Exams will continue to serve as a critical driver of classroom instruction and lesson planning for grades 9-12. The results will provide teachers with ongoing feedback on students' progress in meeting state standards so they know, at any moment, which students have mastered which skills and which students have not. Armed with this information, teachers will be better prepared to target instruction and make significant content adjustments throughout the year, without waiting for an end-of-year assessment that shows a student in need.
- Excellence Boys Charter School will continue to administer Interim Assessments/Quarterly Exams on a quarterly basis in all five major subjects. Excellence Boys Charter School will continue to modify Interim Assessments/Quarterly Exams, ensuring that they measure student progress with respect to the Common Core Learning Standards.
- The high school instructional leadership team will continue to review teacher lesson plans, observe classroom instruction and provide feedback on instruction. The school's leadership team will be responsible for identifying areas for growth and providing an extensive professional development program that meets the needs of both the school and individual teachers.
- The school's leadership team will continue to review the effectiveness of the school's curriculum and making necessary revisions to increase student achievement.
- School leaders will continue to work with master teachers at the school to research and develop curriculum modifications that will ensure increased levels of student achievement and will continuously monitor the effectiveness of those modifications.
- Excellence Boys will continue to offer Regents/AP/SAT preparation classes on Saturdays beginning in the 9th grade.
