Albany, New York

INTRODUCTION & REPORT FORMAT

This report is the primary means by which the SUNY Charter Schools Institute (the “Institute”) transmits to the State University of New York Board of Trustees (the “SUNY Trustees”) its findings and recommendations regarding a school’s Application for Charter Renewal, and more broadly, details the merits of a school’s case for renewal. The Institute has created and issued this report pursuant to the *Policies for the Renewal of Not-For-Profit Charter School Education Corporations and Charter Schools Authorized by the Board of Trustees of the State University of New York* (the “SUNY Renewal Policies”).¹

THE INSTITUTE MAKES ALL RENEWAL RECOMMENDATIONS BASED ON

A SCHOOL’S
APPLICATION
FOR CHARTER
RENEWAL

INFORMATION
GATHERED DURING
THE CHARTER TERM

ACADEMIC
PERFORMANCE

FISCAL SOUNDNESS

LEGAL COMPLIANCE

RENEWAL
EVALUATION VISIT

Most importantly, the Institute analyzes the school’s record of academic performance and the extent to which it has met its academic Accountability Plan goals.

1. Revised September 4,
2013 and available at: [www.
newyorkcharters.org/SUNY-
renewal-policies/](http://www.newyorkcharters.org/SUNY-renewal-policies/).

REPORT FORMAT

This renewal recommendation report compiles the evidence below using the *State University of New York Charter Renewal Benchmarks* (the “SUNY Renewal Benchmarks”),² which specify in detail what a successful school should be able to demonstrate at the time of the renewal review. The Institute uses the four interconnected renewal questions below for framing benchmark statements to determine if a school has made an adequate case for renewal.

RENEWAL QUESTIONS

1. IS THE SCHOOL AN ACADEMIC SUCCESS?
2. IS THE SCHOOL AN EFFECTIVE, VIABLE ORGANIZATION?
3. IS THE SCHOOL FISCALLY SOUND?
4. IF THE SUNY TRUSTEES RENEW THE EDUCATION CORPORATION’S AUTHORITY TO OPERATE THE SCHOOL, ARE ITS PLANS FOR THE SCHOOL REASONABLE, FEASIBLE AND ACHIEVABLE?

This report contains Appendices that provide additional statistical and organizationally related information including a largely statistical school overview, copies of any school district comments on the Application for Charter Renewal, and the SUNY Fiscal Dashboard information for the school. If applicable, the Appendices also include additional information about the education corporation and its schools including additional evidence on student achievement of other education corporation schools.

Additional information about the SUNY renewal process and an overview of the requirements for renewal under the New York Charter Schools Act of 1998 (as amended, the “Act”) are available on the Institute’s website at: www.newyorkcharters.org/operate/existing-schools/renewal/.

2. Version 5.0, May 2012, available at: www.newyorkcharters.org/suny-renewal-benchmarks/.

RENEWAL RECOMMENDATION

Full-Term Renewal The Institute recommends that the SUNY Trustees approve the Application for Charter Renewal of Success Academy Charter School - Bronx 1 and renew Success Academy Charter Schools - NYC's authority to operate the school for a period of five years with authority to provide instruction to students in Kindergarten through 12th grade in such configuration as set forth in its Application for Charter Renewal, with a projected total enrollment of 1002 students.

To earn a **Subsequent Full-Term Renewal**, a school must demonstrate that it has met or come close to meeting its academic Accountability Plan goals.³

REQUIRED FINDINGS

In addition to making a recommendation based on a determination of whether the school has met the SUNY Trustees' specific renewal criteria, the Institute makes the following findings required by the Act.

- 1: the school, as described in the Application for Charter Renewal meets the requirements of the Act and all other applicable laws, rules and regulations;
- 2: the education corporation can demonstrate the ability to operate the school in an educationally and fiscally sound manner in the next charter term; and,
- 3: given the programs it will offer, its structure and its purpose, approving the school to operate for another five years is likely to improve student learning and achievement and materially further the purposes of the Act.⁴

3.SUNY Renewal Policies
at page 14.

4. See New York Education
Law § 2852(2).

Enrollment and retention targets apply to all charter schools approved pursuant to any of the Institute’s Request for Proposals (“RFP”) processes (August 2010-present) and charter schools that applied for renewal after January 1, 2011. Success Academy Charter School - Bronx 1 (“Success Bronx 1”) received its original charter on February 17, 2010 and last applied for renewal in 2014. Per the amendments to the Act in 2010, charter schools are required to make good faith efforts to meet enrollment and retention targets for students with disabilities, English language learners (“ELLs”) and students who are eligible applicants for the federal Free and Reduced Price Lunch (“FRPL”) program.

As required by Education Law § 2851(4)(e), a school must include in its renewal application information regarding the efforts it will put in place to meet or exceed SUNY’s enrollment and retention targets for students with disabilities, ELLs, and FRPL eligible students. SUNY and the New York State Board of Regents (the “Board of Regents”) finalized the methodology for setting targets in October 2012, and the Institute communicated specific targets for each school, where applicable, in July 2013. Since that time, new schools receive targets during their first year of operation and others received targets at renewal.

Success Bronx 1 makes good faith efforts to meet its enrollment and retention targets.

Success Academy Charter Schools NYC (“SACS-NYC”) submitted the following strategies it uses to meet schools’ targets:

- mailings and distributions to residents of the school’s community school district (“CSD”);
- mailings and distributions to residents in low-income in-district communities;
- mailings and distributions to residents in mixed-income in-district communities;
- targeted distribution of native language materials to individuals and communities within the CSD, as determined by each school;

RENEWAL RECOMMENDATION

- advertisements, flyers, and/or marketing materials posted in local newspapers, supermarkets, community centers, and/or apartment complexes;
- open houses at the schools and informational sessions hosted at public and private venues frequented by families of young children including daycare and nursery schools; and/or,
- weighted lottery preference for ELL students.

SACS-NYC designs its program to support students with disabilities, ELLs, and economically disadvantaged students in general education classrooms through a rigorous curriculum and instructional model proven highly successful in preparing students to meet and exceed state performance benchmarks. Certain students requiring more intensive supports in smaller settings receive special education services at one of three locations housing the education corporation's shared self-contained, or 12:1:1, programs. SACS-NYC's English language immersion program has proven successful in helping ELLs reach English proficiency. Seventy-seven percent of SACS-NYC students qualify as economically disadvantaged and receive breakfast, one or more snacks and lunch free of charge each day. The school employs these efforts in an attempt to meet its student retention targets.

For additional information on the school's enrollment and retention target progress see Appendix A.

CONSIDERATION OF SCHOOL DISTRICT COMMENTS

In accordance with the Act, the Institute notified the district in which the charter school is located regarding the school's Application for Charter Renewal. The full text of any written comments received from the district appears in Appendix C, which also includes a summary of any public comments.

As of the date of this report, the Institute has received no district comments in response.

SUNY Charter Schools Institute
41 State Street, Suite 700
Albany, New York

SCHOOL BACKGROUND AND EXECUTIVE SUMMARY

SUCCESS ACADEMY CHARTER SCHOOL - BRONX 1

BACKGROUND

Success Bronx 1 received its original charter from the SUNY Trustees on February 17, 2010. It opened its doors in the fall of 2010 initially serving 180 students in Kindergarten and 1st grade. SUNY Trustees granted the school a full-term, initial renewal on February 3, 2015. The current charter term expires on July 31, 2020. A subsequent charter term would enable the school to operate through July 31, 2025. Success Bronx 1 is authorized to serve 697 students in grades K-7 and will grow to serve students in Kindergarten through 12th grade, with a projected enrollment of 1,002 students. The school co-locates in a New York City Department of Education (“NYCDOE”) building at 339 Morris Avenue, Bronx, New York in CSD 7. The building also houses district school P.S. 168 serving grades K-12.

The mission of Success Bronx 1 is:

The mission of Success Academy Charter School - Bronx 1 is to provide students in New York City with an exceptionally high-quality education that gives them knowledge, skills, character, and disposition to meet and exceed New York State Common Core Learning Standards and the resources to lead and succeed in school, college, and a competitive global economy.

Success Bronx 1 is one of 38 SUNY authorized schools within the SACS–NYC education corporation. Twenty-nine of these authorized schools are currently open and operating, while the remaining nine schools are scheduled to open in the 2017-18 or 2018-19 school year. The Act allows authorizers to grant charter school education corporations the authority to operate more than one school under Education Law § 2853(1)(b-1) through the approval of new schools as set forth in the Act, or through merger with one or more education corporations.

All schools operated by the education corporation contract with Success Academy Charter Schools, Inc., (“Success Academy” or the “network”), a Delaware not-for-profit charter management organization (“CMO”) based in New York City, for comprehensive management

services. The network provides all schools with academic, operational and back-office assistance. Schools utilize the network's curriculum and assessment materials, all of which the network curriculum teams purchase and/or design. The network is also responsible for managing and evaluating the performance of each school and school leaders, with network managing directors serving in supervisory roles for principals.

The school implements an academic program consistent with all SACS-NYC charter schools. This program, with its emphasis on critical thinking, problem solving and oral communication has proven to be successful in meeting the needs of both general education students and students considered to be at risk of academic failure.

Additional information about the network's program model and schools appears in the Education Corporation Overview in Appendix E.

SCHOOL BACKGROUND AND EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

Success Bronx 1 continues to demonstrate the high levels of student achievement that led the SUNY Trustees to grant the school a Subsequent Full-Term Renewal. The school has outperformed the local district by wide margins in English language arts (“ELA”) and mathematics during the current Accountability Period, as it did during the initial charter term. Success Bronx 1 implements an effective academic program that provides an outstanding educational option in a traditionally underserved area of New York City.

Success Bronx 1 has requested charter renewal in advance of the July 31, 2020 expiration of the education corporation’s authority to operate the school in order to pursue facilities options afforded under state statute. The school, which continues to expand within its chartered grade configuration, seeks to co-locate within NYCDOE school building space. Given the school’s, strong sustained student achievement results and the compelling track record of academic and organizational performance across SACS-NYC schools, the Institute supports the application.

Based on the Institute’s review of the school’s performance as posted over the charter term; a review of the Application for Charter Renewal submitted by the school; a review of academic, organizational, governance and financial documentation; and, a renewal visit to the school, the Institute finds that the school meets the required criteria for a charter renewal.

Success Bronx 1 met its key Accountability Plan goals and is an effective, viable organization. The network provides strong academic and operational supports, and the education corporation is fiscally sound. These factors, combined with the reasonable, feasible and achievable future plans detailed in the school’s renewal application, lead the Institute to recommend Subsequent Full-Term Renewal.

NOTEWORTHY

Success Bronx 1 produces exceptional achievement results for students with special needs. In 2015-16, 100% of students with disabilities scored proficient or better on the state mathematics test. The citywide average is 11%.

SUNY Charter Schools Institute
41 State Street, Suite 700
Albany, New York

ACADEMIC PERFORMANCE

IS THE SCHOOL AN ACADEMIC SUCCESS?

Success Bronx 1 met its Accountability Plan goals while outperforming the local district by wide margins in ELA, mathematics and science. The school implements an effective educational program that accelerates student learning and produces strong results. Thus, Success Bronx 1 is an academic success.

The Act outlines the requirement that authorizers “change from rule-based to performance-based accountability systems by holding [charter] schools . . . accountable for meeting measurable student achievement results.”⁵ As described in this report, Success Bronx 1 has satisfied the requirements of the Act as well as the SUNY Renewal Policies⁶ as it has posted consistently strong outcomes as measured by performance on state assessments. This performance indicates Success Bronx 1’s curriculum, assessment system, instructional design and leadership combine into a demonstrably successful implementation of SACS-NYC’s model. The strength of that model, detailed in Appendix E, along with the strong and sustained student performance outcomes at Success Bronx 1 provide the foundation for the Institute’s analysis that: 1) the school posts sufficient evidence to support the conclusion it meets the academic and organizational criteria called for in the SUNY Renewal Benchmarks; and, 2) the school’s strong performance merits a five-year renewal recommendation.

5. Education Law § 2850(2)(f).

6. SUNY Renewal Policies
(pp. 12-15).

7. Because the SUNY Trustees make a renewal decision before student achievement results for the final year of a charter term become available, the Accountability Period ends with the school year prior to the final year of the charter term. In the case of subsequent renewal, the Accountability Plan covers the last year of the previous charter term through the second to last year of the charter term under review.

8. Education Law § 2850(2)(f).

9. Education Law § 2854(1)(d).

At the beginning of the Accountability Period,⁷ the school developed and adopted an Accountability Plan that set academic goals in the key subjects of ELA and mathematics. For each goal in the Accountability Plan, specific outcome measures define the level of performance necessary to meet that goal. The Institute examines results for five required Accountability Plan measures to determine ELA and mathematics goal attainment. Because the Act requires charters be held “accountable for meeting measurable student achievement results”⁸ and states the educational programs at a charter school must “meet or exceed the student performance standards adopted by the board of regents”⁹ for other public schools, SUNY’s required accountability measures rest on performance as measured by statewide assessments. Historically, SUNY’s required measures include measures that present schools’:

**ABSOLUTE
PERFORMANCE, I.E.,
WHAT PERCENTAGE
OF STUDENTS
SCORE AT A CERTAIN
PROFICIENCY ON
STATE EXAMS?**

**COMPARATIVE PERFOR-
MANCE, I.E., HOW DID THE
SCHOOL DO AS COMPARED
TO SCHOOLS IN THE
DISTRICT AND SCHOOLS
THAT SERVE SIMILAR
POPULATIONS OF ECO
NOMICALLY DISADVAN-
TAGED STUDENTS?**

**GROWTH
PERFORMANCE,
I.E., HOW MUCH
DID THE SCHOOL
GROW STUDENT
PERFORMANCE AS
COMPARED TO THE
GROWTH OF SIMILARLY
SITUATED STUDENTS?**

Every SUNY authorized charter school has the opportunity to propose additional measures of success when crafting its Accountability Plan. Success Bronx 1 did not propose or include any additional measures of success in the Accountability Plan it adopted.

The Institute analyzes every measure included in the school's Accountability Plan to determine its level of academic success, including the extent to which the school has established and maintained a record of high performance, and established progress toward meeting its academic Accountability Plan goals throughout the initial charter term. Since 2009, the Institute has examined but consistently de-emphasized the two absolute measures under each goal in elementary and middle schools' Accountability Plans because of changes to the state's assessment system. The analysis of elementary and middle school performance continues to focus primarily on the two comparative measures and the growth measure while also considering the two required absolute measures and any additional evidence the school presents using additional measures identified in its Accountability Plan. The Institute identifies the required measures (absolute proficiency, absolute Annual Measurable Objective attainment, comparison to local district, comparison to demographically similar schools, and student growth) in the Performance Summaries appearing in Appendix B.

The Institute analyzes all measures under the school's ELA and mathematics goals while emphasizing the school's comparative performance and growth to determine goal attainment. The Institute calculates a comparative effect size to measure the performance of Success Bronx 1 relative to all public schools statewide that serve the same grade levels and that enroll students who are similarly economically disadvantaged. It is important to note that this measure is a comparison measure and therefore any changes in New York's assessment system do not compromise its validity or reliability. Further, the school's performance on the measure is not relative to the test, but relative to the strength Success Bronx 1's demonstrated student learning compared to other schools' demonstrated student learning.

ACADEMIC PERFORMANCE

The Institute uses the state's growth percentile analysis as a measure of comparative year-to-year growth in student performance on the state's ELA and mathematics exams. The measure compares a school's growth in assessment scores to the growth in assessment scores of the subset of students throughout the state who performed identically on previous years' assessments. According to this measure, median growth statewide is at the 50th percentile. This means that to signal the school's ability to help students make one year's worth of growth in one year's time the expected percentile performance is 50. To signal a school is increasing students' performance above their peers (students statewide who scored previously at the same level), the school must post a percentile performance that exceeds 50.

The Accountability Plan also includes science and No Child Left Behind ("NCLB") goals.

Please note that for schools located in New York City, the Institute uses the CSD as the local school district.

HAS THE SCHOOL MET OR COME CLOSE TO MEETING ITS ACADEMIC ACCOUNTABILITY PLAN GOALS?

Success Bronx 1 has consistently demonstrated high levels of student achievement throughout the Accountability Period. Throughout the charter term, Success Bronx 1 posted strong absolute performance and met both its ELA and mathematics Accountability Plan goals.

Over the course of its second charter term, Success Bronx 1 exceeded its ELA Accountability Plan goal. During the 2014-15 and 2015-16 school years, the school outperformed the district by approximately 60 percentage points. The school also met its growth measure during two of the three years with available growth scores, exceeding the target of the state median of 50 in 2014-15 and 2015-16. In comparison to schools across the state enrolling similar

percentages of economically disadvantaged students, Success Bronx 1 performed higher than expected to a large degree.

The school also met its mathematics Accountability Plan goal, posting some of the strongest scores statewide. Throughout its Accountability Period, the school performed higher than expected to a large degree in comparison to schools statewide enrolling similar concentrations of economically disadvantaged students. Ninety-six percent and 99 percent of all students were proficient on the state's mathematics exams during the 2014-15 and 2015-16 school years, respectively. The school outperformed the district by about 80 percentage points in both years.

Success Bronx 1 met its science goal in 2014-15 and 2015-16 with 100 percent of its 4th graders scoring at or above proficiency. The school's proficiency rate exceeded the rate of the district both years by at least 20 percentage points.

The school met its NCLB goal throughout the charter term having never been identified as a focus or priority school.

SUNY Charter Schools Institute
41 State Street, Suite 700
Albany, New York

ACADEMIC PERFORMANCE

Academic outcome data about the performance of students receiving special education services and ELLs appears below, although not tied to separate goals in the school's formal Accountability Plan.

		2013-14	2014-15	2015-16
Enrollment (N) Receiving Mandated Academic Services		(68)	(76)	(91)
RESULTS	Tested on State Exams (N)	(19)	(21)	(28)
	Percent Proficient on ELA Exam	36.8	38.1	57.1
	Percent Proficient Statewide	5.0	5.8	7.9

		2013-14	2014-15	2015-16
ELL Enrollment (N)		(47)	(56)	(65)
RESULTS	Tested on NYSESLAT* Exam (N)	(37)	(35)	(38)
	Percent 'Commanding' or Making Progress† on NYSESLAT	37.8	17.1	13.2

* New York State English as a Second Language Achievement Test, a standardized state exam.

† Defined as moving up at least one level of proficiency. Student scores fall into five categories/proficiency levels: Entering (formerly Beginning); Emerging (formerly Low Intermediate); Transitioning (formerly Intermediate); Expanding (formerly Advanced); and; Commanding (formerly Proficient).

SUCCESS ACADEMY CHARTER SCHOOL - BRONX 1

REQUIRED MEASURE DESCRIPTION

Comparative Measure: District Comparison. Each year, the percentage of students at Success Bronx 1 in at least their second year performing at or above proficiency in **ELA** and **mathematics** will be greater than that of students in the same tested grades in CSD 7.

ENGLISH LANGUAGE ARTS ACCOUNTABILITY PLAN GOAL

MATHEMATICS ACCOUNTABILITY PLAN GOAL

Comparative Measure: Effect Size. Each year, the school will exceed its predicted level of performance by an Effect Size of 0.3 or above in **ELA** and **mathematics** according to a regression analysis controlling for economically disadvantaged students among all public schools in New York State.

Target: 0.3

Target: 0.3

2013 2014 2015 2016

2013 2014 2015 2016

Comparative Growth Measure: Mean Growth Percentile. Each year, the school's unadjusted mean growth percentile for all students in grades 4-8 will be above the state's unadjusted median growth percentile in **ELA** and **mathematics**.

Target: State Median

2014 2015 2016

2014 2015 2016

SCIENCE ACCOUNTABILITY PLAN GOAL

Science: Comparative Measure. Each year, the percentage of students at the school in at least their second year performing at or above proficiency in **science** will exceed that of students in the same tested grades in the district.

2014	69	100
2015	67	100
2016		100

ACADEMIC PERFORMANCE

ACADEMIC PROGRAM SUMMARY

With support from the network, Success Bronx 1 implements a strong academic program that supports teachers in catalyzing high achievement amongst students. Teachers access a central database to analyze assessment data by classroom, student, and standard, as well as compare results across the grade level within the school and the network. Teachers use this information to adjust instruction and identify students in need of small group intervention. School leaders use assessments to determine how well leadership is supporting teacher practice and to inform school-driven professional development. Teachers use the network-developed curriculum to guide lesson planning. The curriculum is more streamlined compared to previous years and provides an “umbrella” from which to work that include lesson outlines and clear goals for student learning. Teachers have autonomy to plan instruction, develop assessments, and then adjust instruction based on the needs of students. As in years prior, the network provides Success Bronx 1 with a combination of network-created and commercial curricula that includes scope and sequence documents, unit plans and lesson plans. These documents are more than sufficient to aid teachers in facilitating lessons. Leaders also provide support by launching every unit with an explanation of the goals and related standards teachers will teach during the unit, thus allowing teachers to know what to teach and when to teach it.

Success Bronx 1 has a robust instructional leadership team that focuses on providing ongoing instructional support to teachers. In addition to weekly professional development sessions, school leaders provide instructional support to teachers in weekly grade team meetings for elementary grades and content team meetings for middle school grades. School leaders and teachers meet weekly to discuss lesson plans, review assessment data, examine student work samples, and share teaching practices in order to increase the effectiveness of classroom instruction and to support student mastery of lesson objectives.

High-quality instruction is evident in most Success Bronx 1 classrooms. The majority of teachers deliver purposeful lessons with clear objectives aligned to the school’s curriculum. In some classes, teachers ask questions or use informal assessments (e.g., thumbs up, thumbs down) to check for student understanding. Lessons incorporate higher-order thinking questions and problem-solving activities to challenge students.

The school has an extensive Response to Intervention (“RtI”) system that identifies students in need of differentiated support in the form of small group instruction, one-on-one support from teachers, and before- and after-school tutoring. The RtI team meets weekly to discuss teachers’ concerns and to evaluate the effectiveness of interventions. When students do not make adequate progress after six to eight weeks of differentiated supports, the school makes a referral to the district Committee on Special Education (“CSE”, which holds statutory responsibility for evaluating special service needs and making Individualized Education Program (“IEP”) determinations. Charter schools must then implement the IEPs approved by the CSE. The network’s English language immersion program continues to produce strong results at Success Bronx 1.

Please refer to Appendix E for additional information on the Success Academy program and how it meets the demands of the SUNY Renewal Benchmarks.

ORGANIZATIONAL PERFORMANCE

IS THE SCHOOL AN EFFECTIVE, VIABLE ORGANIZATION?

The Success Bronx 1 organization effectively delivers an outstanding educational program that supports students in reaching high levels of achievement. The board is knowledgeable and provides close oversight regarding SACS-NYC's financial standing, enrollment levels, and facilities planning. During the current charter term of authority to operate the school, the board has generally abided by its by-laws and been in general and substantial compliance with the terms of its charter, code of ethics, applicable state and federal law, rules and regulations.

**SUNY
RENEWAL
BENCHMARK**
:MISSION

IS THE SCHOOL FAITHFUL TO ITS MISSION AND DOES IT IMPLEMENT THE KEY DESIGN ELEMENTS INCLUDED IN ITS CHARTER?

Success Bronx 1 is faithful to its mission and key design elements. These can be found in the School Background section at the beginning of the report and Appendix A, respectively.

**SUNY
RENEWAL
BENCHMARK**
:SATISFACTION

ARE PARENTS/GUARDIANS AND STUDENTS SATISFIED WITH THE SCHOOL?

To report on parent satisfaction with the school's program, the Institute used satisfaction survey data, information gathered from a focus group of parents representing a cross section of students, and data regarding persistence in enrollment.

Parent Survey Data. The Institute compiled data from NYCDOE's 2015-16 NYC School Survey. NYCDOE distributes the survey every year to compile data about school culture, instruction and systems for improvement. The vast majority of survey responses (93%) indicate high satisfaction with the school. Given the low participation rate of 24%, the survey results might not be useful in framing the results as representative of the school community.

Parent Focus Group. The Institute asks all schools facing renewal to convene a representative set of parents for a focus group discussion. A representative set includes parents of students in attendance at the school for multiple years, parents new to the school, parents of students receiving general education services, parents of students with special needs and parents of ELLs. The two Success Bronx 1 participants expressed deep satisfaction with and loyalty to what they called the school’s “culture of comradery.”

Persistence in Enrollment. An additional indicator of parent satisfaction is persistence in enrollment. In 2015-16, 95% of Success Bronx 1’s students returned from the previous year. Student persistence data from previous years of the charter term is available in Appendix A. The Institute derived the statistical information on persistence in enrollment from its database. No comparative data from the NYCDOE or the New York State Education Department (“NYSED”) is available to the Institute to provide either district or state-wide context, which precludes comparative analyses. As such, the Institute presents these data for informational purposes only.

DOES THE BOARD IMPLEMENT, MAINTAIN AND ABIDE BY APPROPRIATE POLICIES, SYSTEMS AND PROCESSES?

The board materially and substantially implements, maintains and abides by adequate and appropriate policies, systems and processes and procedures to ensure the effective governance and oversight of the school. The board demonstrates a clear understanding of its role in holding the school leadership and Success network accountable for both academic results and fiscal soundness.

- The board has materially complied with the terms of its by-laws and code of ethics.
- The board receives specific and extensive reports on each program including fiscal, academic performance and non-academic student and staffing trends.

SUNY
RENEWAL
BENCHMARK
:POLICIES

ORGANIZATIONAL PERFORMANCE

- The board utilizes network legal counsel effectively.
- The board provides common oversight of multiple charter schools with fidelity.
- The board has a deep understanding of the SACS-NYC finances and monitors the fiscal condition of each school.

HAS THE SCHOOL SUBSTANTIALLY COMPLIED WITH APPLICABLE LAWS, RULES AND REGULATIONS, AND PROVISIONS OF ITS CHARTER?

The Institute noted the following: the education corporation generally and substantially complies with applicable laws, rules and regulations and the provisions of its charter. Renewal visits are a time when the Institute and the school can tighten up procedures around certain compliance issues and protocols. The Institute and school worked cooperatively to correct minor infractions at the site visit regarding Family Educational Rights and Privacy Act (“FERPA”) wherein the intent of the school was laudable but technically a violation.

- **Complaints.** The school has generated several informal complaints regarding the dress code, promotion and retention policy and the provision of special education services. One complaint involved an allegation that a student had not been referred to the committee on special education when requested and the student was continuously being suspended. Another parent withdrew her child as the student was recommended for a 12:1:1 and the school’s 12:1:1 class was already full. The complainants were directed to follow the appropriate complaint policies and initial inquiries found no violations. No formal complaints were received by the Institute.
- **Certification.** The school has the appropriate number of certified teachers. Yet, while the number of uncertified teachers is within the numerical limits, several, not all, of the uncertified teachers do not meet the additional criteria under the Act.¹⁰

10. NY Education Law § 2854(3) (a-1) provides that while a certain number of teachers may be uncertified, those that are uncertified must (1) have at least three years of elementary, middle, or secondary classroom teaching; (2) be tenured or tenure track college faculty; (3) have two yeras satisfactory experience through Teach for America program; or (4) possess exceptional business, professional, artistic, athletic, or miliary experience.

41 State Street, Suite 700
Albany, New York

FISCAL PERFORMANCE

11. The U.S. Department of Education has established fiscal criteria for certain ratios or information with high – medium – low categories, represented in the table as green – gray – red. The categories generally correspond to levels of fiscal risk, but must be viewed in the context of each education corporation and the general type or category of school.

IS THE EDUCATION CORPORATION FISCALLY SOUND?

Based on a review of the fiscal evidence collected through the renewal review, SACS-NYC is fiscally sound, as is its school, Success Bronx 1. The SUNY Fiscal Dashboard presents color-coded tables and charts indicating that Success Bronx 1 and the education corporation have demonstrated fiscal soundness over the majority of the charter term.¹¹ (The SUNY Fiscal Dashboard for Success Bronx 1 is included in Appendix D and the Fiscal Dashboard for the SACS-NYC education corporation appears in Appendix F.) The discussion that follows relates mainly to the education corporation because the school is not a legally distinct fiscal entity.

The network supports Success Bronx 1 in the area of academic and fiscal operations under the terms of a management contract. The SACS-NYC financial model is intended to ensure that all fully enrolled schools are financially sustainable and operating solely through public funding, but contributions have been needed to bolster schools' stability during start up years.

DOES THE SCHOOL OPERATE PURSUANT TO A FISCAL PLAN IN WHICH IT CREATES REALISTIC BUDGETS THAT IT MONITORS AND ADJUSTS WHEN APPROPRIATE?

Success Bronx 1 has adequate financial resources to ensure stable operations. Working in partnership with the network, Success Bronx 1 has employed clear budgetary objectives and budget preparation procedures throughout the charter term.

- The network's finance team coordinates the development of annual and long-term budget preparation procedures with input from the school leadership staff including the business operations manager and the board finance committee.
- The projected five-year renewal budget reflects anticipated increases in revenues and expenses associated with planned enrollment growth as the school expands through grade 12 by the second year of the renewal charter term.

**SUNY
RENEWAL
BENCHMARK**
:BUDGETS

- The individual education corporation prepares a long-term budget which is updated on an annual basis.
- Success Bronx 1 is located in shared NYCDOE facility space since opening in 2010. Success Bronx 1 is not responsible for rent, utilities, custodial services, maintenance and school safety services on the facility.
- Effective July 1, 2014, Success Bronx 1 merged into SACS-NYC , which resulted in operating efficiencies, increased purchasing power, and shared expenses with the network and 28 other open charters related by common management.

DOES THE SCHOOL MAINTAIN APPROPRIATE INTERNAL CONTROLS AND PROCEDURES?

Success Bronx 1 and SACS-NYC have a history of sound fiscal policies, procedures and practices and maintain appropriate internal controls.

- The SACS-NYC Financial Policies and Procedures Manual guides all internal controls and procedures at Success Bronx 1. The manual contains fiscal policies and procedures that undergo ongoing reviews, most recently the board approved changes to the purchase approval limits to increase efficiencies and reflect the growth of the organization and the increased sophistication of leadership. Another recent update to the manual included federal guidelines for grant management.
- SACS-NYC audit reports have had no findings of deficiencies. The next audit report for the fiscal year ended June 30, 2016 is due to the Institute November 1, 2016.

**SUNY
RENEWAL
BENCHMARK**
:INTERNAL
CONTROLS

DOES THE SCHOOL COMPLY WITH FINANCIAL REPORTING REQUIREMENTS?

Success Bronx 1 and SACS-NYC have complied with financial reporting requirements.

- Over the charter term, Success Bronx 1 has provided the Institute, NYSED and NYCDOE with required financial reports that are on time, complete and follow generally accepted accounting principles (GAAP).

**SUNY
RENEWAL
BENCHMARK**
:FINANCIAL
REPORTING

FISCAL PERFORMANCE

- Independent audits of annual financial statements have received unqualified opinions with no material weaknesses or instances of non-compliance observed.
- Success Bronx 1 and SACS-NYC have generally filed key reports timely and accurately including audit reports, budgets, unaudited quarterly reports of revenue, expenses and enrollment.

DOES THE SCHOOL MAINTAIN ADEQUATE FINANCIAL RESOURCES TO ENSURE STABLE OPERATIONS?

Success Bronx 1 and SACS-NYC have maintained adequate financial resources to ensure stable operations.

- The school opened in 2010 with Kindergarten and 1st grade. Facility constraints during the 2015-16 school year limited Success Bronx 1's enrollment to 588 students in Kindergarten through 6th grade, which is 95% of chartered enrollment of 621. The individual school fiscal dashboard in Appendix D reflects fiscally strong prior to the effective merger. The merged education corporation fiscal dashboard in Appendix F also reflects fiscally strong.
- For education corporations with authority to operate multiple schools, a single balance sheet contains the combined assets and liabilities of all the schools within the entity. In order to review the operations of each individual school's operating activities, the revenues and expenditures are reflected in individual dashboards to show operating surpluses and deficits.
- SACS-NYC had total net assets of approximately \$23M as of the last audit report. The education corporation leverages its combined resources to support new schools through the planning and start up period. Historically, a startup can cost upwards of \$1 million. Success Bronx 1 represents net assets of approximately \$3 million of the total merged net assets of \$23 million.

SUNY Charter Schools Institute
41 State Street, Suite 700
Albany, New York

FUTURE PLANS

IF THE SUNY TRUSTEES RENEW THE EDUCATION CORPORATION'S AUTHORITY TO OPERATE THE SCHOOL, ARE ITS PLANS FOR THE SCHOOL REASONABLE, FEASIBLE AND ACHIEVABLE?

Success Bronx 1 has met its Accountability Plan goals and maintains a strong educational program that serves students well. The school operates as an effective organization, and the education corporation is fiscally sound. As such, the plans for the school's future are reasonable, feasible and achievable. SACS-NYC plans to continue to operate Success Bronx 1 in accordance with its existing model while expanding to serve Kindergarten through 12th grades.

Plans for the School's Structure. The education corporation has provided all of the key structural elements for a charter renewal and those elements are reasonable, feasible and achievable.

Plans for the Educational Program. Success Bronx 1 plans to continue to implement the same core elements that have led the school to meet its Accountability Plan goals during the current charter term; these core elements are likely to enable the school to meet its goals in the future.

Plans for Board Oversight & Governance. Board members express interest in continuing to serve SACS-NYC in the next charter term.

	CURRENT	END OF NEXT CHARTER TERM
Enrollment	697	1002
Grade Span	K-7	K-12
Teaching Staff	52	71
Days of Instruction	180	180

Fiscal & Facility Plans. Based on evidence collected through the renewal review, including a review of the 5-year financial plan, SACS-NYC presents a reasonable and appropriate fiscal plan for the next charter term including education corporation and school budgets that are feasible and achievable. The education corporation intends to maintain its contractual relationship with the network.

Success Bronx 1 plans to provide instruction for Kindergarten through 12th grades in NYCDOE public school space.

The school's Application for Charter Renewal contains all necessary elements as required by the Act. The proposed school calendar allots an appropriate amount of instructional time to meet or exceed instructional time requirements, and taken together with other academic and key design elements, should be sufficient to allow the school to meet its proposed Accountability Plan goals. The education corporation has amended or will amend other key aspects of the renewal application, as appropriate.

STUDENT DEMOGRAPHICS: SPECIAL POPULATIONS

APPENDIX A: School Overview

ENROLLMENT AND RETENTION TARGETS

The chart illustrates the school's **current enrollment and retention percentages** against the **enrollment and retention targets**. As required by Education Law § 2851(4)(e), a school must include in its renewal application information regarding the efforts it has, and will, put in place to meet or exceed SUNY's enrollment and retention targets for students with disabilities, ELLs, and FRPL students. This analysis is based on the most recently available data provided by the school.

PERSISTENCE IN ENROLLMENT

Persistence in enrollment illustrates the percentage of students not scheduled to age out of the school who re-enroll from the previous year. The Institute derived the statistical information on enrollment persistence from its database. No comparative data from NYCDOE or NYSED is available to the Institute to provide either district wide or by CSD context. As such, the information presented is for information purposes but does not allow for comparative analysis.

SUSPENSIONS: **SUCCESS BRONX 1** SUSPENSION RATE AND THE DISTRICT SUSPENSION RATE.

Although Community School District ("CSD") and school suspension rates are presented on the same graph, a direct comparison between the rates is not possible for three primary reasons. Available CSD data includes Kindergarten through 12th grades and school data includes only the grades served by the school. CSD data are not available that show multiple instances of suspension of a single student, the overall number of suspensions, the durations of suspensions, or the time of year when the school administered the suspension. CSD data showing the difference between in school and out of school suspensions are not available. The percentage rate shown here is calculated using the method employed by the New York City Department of Education: the total the number of students receiving an in school or out of school suspension at any time during the school year is divided by the total enrollment, then multiplied by 100.

EXPULSIONS: THE NUMBER OF STUDENTS EXPELLED FROM THE SCHOOL EACH YEAR.

APPENDIX D: Fiscal Dashboard

SUCCESS ACADEMY CHARTER SCHOOL - BRONX 1

NOTE: Effective 2014-15 the school merged into the education corporation, "Success Academy Charter Schools - NYC." Accordingly, see the education corporation report containing the "Balance Sheet" for all schools merged into the education corporation.

GRAPH 1

Cash, Assets and Liabilities

■ Cash ■ Current Assets ■ Current Liabilities ■ Total Assets ■ Total Liabilities

This chart illustrates the relationship between assets and liabilities and to what extent cash reserves makes up current assets. Ideally for each subset, subsets 2 thru 4, (i.e. current assets vs. current liabilities), the column on the left is taller than the immediate column on the right; and, generally speaking, the bigger that gap, the better.

GRAPH 2

Revenue, Expenses and Net Assets

■ Revenue ■ Expenses ■ Net Assets - Beginning ■ Net Assets - Ending

This chart illustrates total revenue and expenses each year and the relationship those subsets have on the increase/decrease of net assets on a year-to-year basis. Ideally subset 1, revenue, will be taller than subset 2, expenses, and as a result subset 3, net assets - beginning, will increase each year building a more fiscally viable school.

GRAPH 3

Revenue & Expenses Per Pupil

■ Rev. - Reg. & Special ED ■ Rev. - Other Operating
■ Rev. - Other Support ■ Exp. - Reg. & Special ED
■ Exp. - Other Program ■ Exp. - Mngmt. & Other

This chart illustrates the breakdown of revenue and expenses on a per pupil basis. Caution should be exercised in making school-by-school comparisons since schools serving different missions or student populations are likely to have substantially different educational cost bases. Comparisons with similar schools with similar dynamics are most valid.

GRAPH 4

Enrollment vs. Operating Expenses

■ Program Expenses ■ Total Expenses
— Enrollment

This chart illustrates to what extent the school's operating expenses have followed its student enrollment pattern. A baseline assumption that this data tests is that operating expenses increase with each additional student served. This chart also compares and contrasts growth trends of both, giving insight into what a reasonable expectation might be in terms of economies of scale.

SUCCESS ACADEMY CHARTER SCHOOL - BRONX 1

NOTE: Effective 2014-15 the school merged into the education corporation, "Success Academy Charter Schools - NYC." Accordingly, see the education corporation report containing the "Balance Sheet" for all schools merged into the education corporation.

Comparable School, Region or Network: New York City & Long Island Schools (Excluding Closed Schools)

* Average = Average - 5 Yrs. OR Charter Term

GRAPH 5

% Breakdown of Expenses

This chart illustrates the percentage expense breakdown between program services and management & others as well as the percentage of revenues exceeding expenses. Ideally the percentage expense for program services will far exceed that of the management & other expense. The percentage of revenues exceeding expenses should not be negative. Similar caution, as mentioned on GRAPH 3, should be used in comparing schools.

GRAPH 6

Composite Score

This chart illustrates a school's composite score based on the methodology developed by the United States Department of Education (USDOE) to determine whether private not-for-profit colleges and universities are financially strong enough to participate in federal loan programs. These scores can be valid for observing the fiscal trends of a particular school and used as a tool to compare the results of different schools.

GRAPH 7

Working Capital & Debt to Asset Ratios

This chart illustrates Working Capital and Debt to Asset Ratios. The Working Capital ratio indicates if a school has enough short-term assets to cover its immediate liabilities/short term debt. The Debt to Asset ratio indicates what proportion of debt a school has relative to its assets. The measure gives an idea to the leverage of the school along with the potential risks the school faces in

GRAPH 8

Months of Cash

This chart illustrates how many months of cash the school has in reserves. This metric is to measure solvency – the school's ability to pay debts and claims as they come due. This gives some idea of how long a school could continue its ongoing operating costs without tapping into some other, non-cash form of financing in the event that revenues were to cease flowing to the school.

SUNY RENEWAL BENCHMARK 1B

SUCCESS ACADEMY CHARTER SCHOOLS NYC¹

For strong performing SUNY authorized charter schools that implement a common school design across multiple schools, the Institute provides an analysis and description of the schools' academic design structured using the Qualitative Education Benchmarks. This subset of the SUNY Renewal Benchmarks focuses on instruction, assessment, curriculum and leadership. The following program description analyzes and reports on the school design that produced the high quality outcomes captured in the body of this renewal report.

DOES SUCCESS ACADEMY CHARTER SCHOOLS HAVE AN ASSESSMENT SYSTEM?

Success Academy, Inc. implements a rigorous and comprehensive assessment system that improves instructional effectiveness and student learning. Network schools administer a variety of diagnostic, formative and benchmark assessments throughout the school year in order to determine students' level of mastery and identify intervention needs. To measure students' literacy skills, Success Academy administers the Fountas & Pinnell² (F&P) and Success for All³ ("SFA") assessments, both of which have demonstrated success as academic interventions with urban and low-income students. Schools administer network-developed interim assessments in ELA, mathematics and science as well as weekly tests in vocabulary, spelling and no hesitation math facts.

Extensive training prepares teachers to implement valid and reliable processes for scoring assessments and evaluating results. For example, following each administration of interim assessments, grade level teachers exchange student work and set a consistent performance standard across classrooms; this norming practice ensures grading consistency. School-based data coordinators work in conjunction with central staff to provide thorough analyses of assessment data at the student, class, grade and school levels using the network's robust Student Management System ("SMS"). This portal serves as a repository for student data and allows schools and the network to analyze results across classrooms, grades, and schools. SMS performance reports allow leaders to review other schools' data, which enables school-to-school comparisons across grade levels and assists in developing leaders' plans for targeted coaching of teachers. In reviewing network-wide results, leaders can identify a teacher at another school whose students are performing exceptionally well in an area that students within his or her school find challenging. Thus, principals can plan teachers' peer observations of instruction across schools. Additionally, leaders and the network's instructional management team use data to identify topics for professional development and to identify strategies needed for general coaching. Success Academy continually uses assessment data to evaluate teacher and program effectiveness.

1. For additional information on the managing organization, refer to www.successacademies.org.

2. The F&P assessment system is both formative and summative. It provides baseline information on students' independent and assisted reading levels and enables progress monitoring against grade level standards. For additional information, please visit www.heinemann.com/fountasandpinnell.

3. Originally developed by researchers at Johns Hopkins University, the SFA program is now implemented in approximately 1,000 schools nationwide. For additional information, please visit www.successforall.org.

DOES THE NETWORK'S CURRICULUM SUPPORT TEACHERS IN THEIR INSTRUCTIONAL PLANNING?

Success Academy's rigorous, research-based curriculum supports teachers in their instructional planning within and across grades. The network conducts ongoing reviews of its curricular materials to ensure that its schools prepare students for success on state assessments and in college and career. Beyond considering performance of students at its schools and across New York State, Success Academy reviews the practices of high performing schools (district, charter and private) nationwide and education research developments while assessing its curricular strengths and weaknesses. During the school year, teachers work in grade level study teams to adjust instructional plans and provide feedback to network teams. School leaders complete annual surveys. Network content area teams manage revision of curricular materials by reviewing feedback from schools and piloting instructional materials in classrooms.

In addition to a curriculum framework that details what students will learn in each grade, the network provides teachers with a variety of supporting tools including scope and sequence documents, unit plans and individual lesson plans that provide a bridge between the framework and daily lessons. These materials detail what students should learn and be able to do throughout the school year; therefore, teachers know what to teach and when to teach it. Importantly, the framework creates a multitude of opportunities for interdisciplinary instruction with thematic units, which cover common themes in different content area lessons.

The academic program relies on a combination of network developed and commercial curricula. For ELA, Success Academy supplements its THINK Literacy framework with the SFA program, which uses a researched-based approach to enhance students' literacy skills through methods such as cooperative learning and frequent assessment of student understanding. In mathematics, Success Academy uses TERC Investigations,⁴ a program that centers on the teaching of fundamental ideas of numbers, operations, data and measurement, and Cognitively Guided Instruction, an instructional approach that builds from students' mathematical reasoning, in the elementary grades. In the middle grades, schools use a network-developed program adapted from Math in Context,⁵ a module-based program that challenges students to solve real world problems, largely through peer discussion. Students develop higher-order thinking and problem solving skills as they apply mathematical thinking to answer questions rich with realistic context that engages students. In addition to internally developed science and technology programs, Success Academy schools offer an array of specials classes including chess, theater and dance.

SUNY RENEWAL BENCHMARK 1C

4. For additional information, please visit www.investigations.terc.edu.

5. For additional information, please visit www.mathincontext.eb.com.

SUNY RENEWAL BENCHMARK 1D

IS HIGH QUALITY INSTRUCTION EVIDENT THROUGHOUT THE NETWORK?

High quality instruction that creates consistent focus on academic achievement and develops students' higher-order thinking and problem-solving skills is evident across Success Academy schools. In the last five years across first year visits, mid charter term visits and renewal visits to Success Academy schools, Institute teams conducted classroom observations in 16 schools. Consistently, visit teams have found well-crafted lessons that feature student-to-student interaction in solving real world problems, skillful questioning and ongoing informal assessment of students' progress toward concept mastery.

Typically, lessons limit the amount of time spent on direct instruction while maximizing opportunities for students to work independently or in small groups. In a mathematics lesson, for example, the teacher might model the steps necessary to solve a sample problem then assess the need for additional examples by asking individual students direct questions and checking for whole class understanding with a thumbs up/thumbs down prompt. Once the teacher determines students are ready to move on, he or she would then introduce a challenging activity that builds on students' previous knowledge and features the recently introduced concept. In addition to circulating around the classroom to monitor students' progress as they work collaboratively, the teacher might have students independently complete a brief task at the end of the planned lesson in order to make adjustments to future instruction based on student responses. Across content areas, Success Academy teachers' artful questions challenge students to deepen their understanding of concepts and engage in rich peer-to-peer discussions. With students responsible for most of the talking during a lesson, teachers encourage students to be active learners capable of handling the heavy cognitive lifting required to develop higher-order thinking skills.

A pervasive sense of urgency for learning is part and parcel of Success Academy's approach to instruction. Teachers maximize learning time with appropriate lesson pacing and effective classroom management techniques. Routines for transitioning students from one lesson to the next or one topic to the next within a lesson ensure students remain focused on learning tasks. Silent hand signals generally enable teachers to redirect any low level misbehavior without disrupting the learning environment.

DOES THE NETWORK HAVE STRONG INSTRUCTIONAL LEADERSHIP?

SUNY RENEWAL BENCHMARK 1E

Success Academy schools' strong instructional leadership practices include providing teachers with extensive coaching and professional development opportunities designed to catalyze accelerated student learning and achievement. Robust instructional teams at the school and network level support the development of teachers with daily sustained and systemic coaching and professional development activities that interrelate with classroom practice. Teachers receive over 400 hours, on average, of professional development throughout the year, including inter-visitation opportunities for teachers and leaders to observe strong teaching across network schools and data analysis days where staff members analyze benchmark assessments.

Schools throughout the network set high expectations for teacher performance, measured largely by student achievement results. All schools use the SMS to monitor progress toward meeting network-wide performance goals as well as school-wide goals set by the leader. For example, a principal could set growth, or improvement, targets in addition to a network goal of 90% proficiency in a particular skill area.

Success Academy's particularly strong professional development program begins with summer "Teacher School," a three week pre-service training often referred to as "T-School." School leaders and network staff collaborate to determine topics and trainings designed to address student achievement and teacher pedagogical needs. In addition to network-wide activities, school leaders conduct weekly professional development sessions that build on topics and skills introduced in T-School, frequently differentiated by content area or grade level, in order to target teacher and student needs most precisely. In addition to gearing professional development activities toward specific grades, Success Academy often conducts different sessions for varying levels of experience.

SUNY RENEWAL BENCHMARK 1F

DOES THE NETWORK MEET THE EDUCATIONAL NEEDS OF AT-RISK STUDENTS?

Success Academy has a wide range of strong supports in place to meet the needs of at-risk students. Success Academy schools implement clear procedures for identifying and serving students with disabilities, ELLs and students at risk of academic failure. During the 2015-16 school year, students with special needs represented 14.3% of enrollment across the network, and ELLs comprised 4.5% of total enrollment. Schools disaggregate student performance data on an ongoing basis to assess the effectiveness of instructional and behavioral interventions. Teachers across the network receive extensive professional development designed to prepare them to meet the needs of all students.

Success Academy uses a tiered Response to Intervention (“RtI”) process to identify students struggling academically and to modify interventions as necessary. SFA embeds initial interventions within schools’ curricula in that the program emphasizes early oral language development through rich peer-to-peer discussions as well as connections to students’ lives outside of school. Teachers combine whole class instruction with flexible, ability-based groupings to respond to individual needs. Students identified as performing below grade level based on regular internal assessments receive progressive supports within the classroom setting and through pull-out tutoring. School staff identifies specific learning gaps and monitors students’ progress in meeting performance goals at the end of each intervention cycle, usually aligning with network benchmark assessments. If a student does not make sufficient progress, school-based student support teams determine next steps including additional small group or individualized interventions and referral to the district Committee on Special Education (“CSE”) as necessary. As charter schools are considered part of the district under federal law for the purposes of providing settings and services to students with disabilities, the CSE holds statutory responsibility for evaluating special service needs and making Individualized Education Program (“IEP”) determinations. Charter schools must then implement the IEPs approved by the CSE.

SACS-NYC educates students with disabilities in the least restrictive environment in accordance with each student’s individualized education program while offering additional supports embedded in its existing programming. SACS-NYC offers students with disabilities related services (i.e. speech/language, occupational, physical and psychological therapy), special education teacher support services (“SETSS”), collaborative team teaching, individual and group counselling, behavior intervention plans and programming within the RtI framework. For students requiring a self-contained setting, SACS-NYC offers seventeen 12:1:1 classrooms across the operating schools.

Success Academy uses the Home Language Survey and the New York State Identification Test for English Language Learners (“NYSITELL”) to identify students requiring English

acquisition supports. Success Academy implements a comprehensive English language immersion program, focused on increasing early literacy skills. Success Academy schools serve ELLs within the core academic program, which provides abundant opportunities for oral and written communication through its research-based curriculum. Schools monitor student progress annually with the New York State English as a Second Language Achievement Test (“NYSESLAT”) and informally throughout the school year. Network professional development activities develop teachers’ skills in supporting ELLs with strategies such as intentional seating, visual demonstrations and the use of supplementary audio materials. These supports prove to be successful, with many ELLs reaching English proficiency and performing better than district peers on state ELA assessments. To meet the needs of students with IEPs mandating academic services, Success Academy schools utilize a number of instructional settings including push-in and pull-out SETSS, integrated co-teaching (“ICT”) classrooms and shared restricted setting (12:1:1) programs offered in three locations for students requiring more intensive supports. Of the 1438 students with disabilities enrolled in 2015-16, 426 received SETSS services, 760 learned in ICT classrooms, 60 attended a 12:1:1 program⁶; 192 students received related services. Teachers are well aware of students’ IEP goals and collaborate with at-risk program staff to plan instruction and monitor progress. Student support teams meet regularly to discuss students’ progress toward meeting IEP goals using disaggregated data from the network SMS, classroom assignments and teacher observations.

DO SUCCESS ACADEMY SCHOOL ORGANIZATIONS EFFECTIVELY SUPPORT THE DELIVERY OF THE EDUCATIONAL PROGRAM?

Success Academy schools establish well-functioning organizational structures with staff, systems and procedures that support high levels of student achievement and effective delivery of the comprehensive educational program. Clear roles and responsibilities at both the school and network level allow school leaders to focus on student learning, instructional practice and teacher development. Principals serve as primary instructional leaders and receive considerable support from leadership residents. Deans focus largely on school culture and operations staff members manage the day-to-day business of schools. Strong network supports and clearly established career paths assist Success Academy in recruiting and retaining high quality staff. Network level managing directors visit schools regularly to conduct classroom observations, coach teachers and develop leaders’ communication, management and data analysis skills.

Success Academy has developed a leadership residency program that prepares internal and external candidates to take on future principal positions with ongoing training while managing a variety of instructional and general academic program responsibilities including teacher coaching. School leaders and network staff use student achievement results, classroom observations, coaching feedback and other data to identify particularly strong teachers and staff for the leadership residency program. This one- to two-year

SUNY RENEWAL BENCHMARK 2C

6. These counts include 19 students who received both SETSS and ICT services at some point in the school year.

APPENDIX E: Education Corporation Overview

program serves as a leadership pipeline to retain quality talent and as a feeder system to support the network's increasing portfolio of schools. Network leaders report this pipeline provides more than 90% of the future leader candidate pool. Success Academy invests in its teaching teams. In 2012, the network launched a teacher preparation partnership with Touro College. Through this program, Success Academy teachers earn a master's degree from the Graduate School of Education at no cost while teaching full-time. Success Academy pays teachers' tuition. The network has also developed an informal peer learning process that provides less experienced teachers opportunities to observe master teachers across network schools. As master teachers possess exceptionally strong instructional delivery and classroom management skills, school leaders may send teachers struggling to develop their own pedagogical practice in similar grade levels and/or content areas to observe one or more master teachers for live demonstration of effective strategies.

SACS-NYC centrally manages student recruitment and efforts to meet enrollment and retention targets for students with disabilities, ELLs and students who are eligible applicants to the FRPL. See charts on pages Ax35-42 for information on enrollment and retention targets across the network. Few SACS-NYC schools face enrollment challenges. Efforts to recruit at-risk students include multilingual advertisements, informational sessions and canvassing of local CSDs. Though SACS-NYC established a lottery preference for ELLs as a good faith recruiting effort, the U.S. Department of Education ("USDOE") released guidance limiting the ability of charters schools receiving Charter Schools Program (CSP) grant funding to utilize weighted lotteries, and the preference was suspended in 2013-2014. SACS-NYC discussed the issue with the USDOE, and reached an understanding regarding a revised admissions policy that reinstates the ELL lottery preference for 2016-17 applicants.

SACS-NYC continually monitors its programs and makes changes as necessary. The network instructional team, like school leaders, regularly uses the SMS to analyze student assessment data in order to identify which objectives students have mastered and which they have not. This determination may result in adjustments to pacing documents and/or other curricular materials. While school leaders have some discretion over implementation of certain program aspects, major changes are mainly driven by network analyses of data gathered from assessments, leaders' daily observations of classrooms, feedback from teachers and school leaders provided in annual surveys and informal communications throughout the year. Previous analyses have resulted in changes to existing curricular materials, development of supplementary materials and modifications to professional development plans.

DOES THE EDUCATION CORPORATION BOARD WORK EFFECTIVELY TO ACHEIVE SCHOOLS' ACCOUNTABILITY PLAN GOALS?

SUNY RENEWAL BENCHMARK 2D

The SACS - NYC board, equipped with a diverse skill set relevant to governance, provides rigorous oversight of all its schools with a central focus on student outcomes. Though deeply knowledgeable about the schools' educational program, progress toward meeting Accountability Plan goals, enrollment levels, financial condition and facility plans, it maintains appropriate distance from the day-to-day management of schools, which it delegates to the network. The board establishes clear priorities including fundraising goals, to support the education program, and monitors progress toward achieving these goals while holding the network and school leaders accountable for student achievement with annual evaluations.

The board requires detailed reports on schools' academic, financial and operations data from the network prior to each of six annual board meetings. It reviews these reports thoroughly for clear understanding of individual school status and of the network as a whole. In addition to these written reports, the board receives information directly from school leaders in presentations specific to individual schools on matters such as student performance, student attendance or staff concerns. The board also receives information on litigation and other legal matter from network counsel. It understands well the schools' Accountability Plan goals and the multiple performance measures within the goals. The board directs an abundance of resources to schools to ensure high levels of student achievement. The board works with the network to ensure schools have what they need to support and retain high quality staff and to purchase technology and other learning tools to implement the Success Academy program with fidelity.

APPENDIX E: Education Corporation Overview

DIFFERENCE BETWEEN SCHOOLS AND DISTRICT SCORES: ELA

District Difference for each year broken down by school and district. These charts compare a school's performance to that of the district. Each bar represents the difference between the school's performance and the district's. A positive result (showing the bar to the right of zero) indicates the amount by which the school outscored the district. A negative result (with the bar to the left of zero) illustrates the amount by which the school performed lower than the district. A score of zero indicates that the school performed exactly even with the district. School scores reflect the achievement of students enrolled for at least two years per the schools' Accountability Plans.

DIFFERENCE BETWEEN SCHOOLS AND DISTRICT SCORES: MATH

District Difference for each year broken down by school and district. These charts compare a school's performance to that of the district. Each bar represents the difference between the school's performance and the district's. A positive result (showing the bar to the right of zero) indicates the amount by which the school outscored the district. A negative result (with the bar to the left of zero) illustrates the amount by which the school performed lower than the district. A score of zero indicates that the school performed exactly even with the district. School scores reflect the achievement of students enrolled for at least two years per the schools' Accountability Plans.

APPENDIX E: Education Corporation Overview

ELA GROWTH AND ACHIEVEMENT: 2012-13 THROUGH 2015-16

These charts compare a school's ability to grow student achievement with a school's absolute student performance. Schools located in the upper right hand quadrant of each chart show strong results in helping students make learning gains while at the same time helping students achieve strong absolute scores on state assessments. Schools in the lower right hand quadrant show strong absolute scores but lower growth. Because the student growth percentile uses the previous year's scale score as a base-line, it becomes more difficult for a school to maintain strong overall growth scores when students already post high absolute scores.

These charts are produced by comparing growth as measured by the state's student growth percentile to its overall achievement as measured by scale score standardized to the statewide grade level mean over each year for which data are available during the charter term. The growth axis (labeled Mean Growth Percentile) represents the statewide median growth score. The achievement axis (labeled Standardized Mean Scale Score) represents the statewide mean-centered achievement level for each grade served by each school.

MATH GROWTH AND ACHIEVEMENT: 2012-13 THROUGH 2015-16

These charts compare a school's ability to grow student achievement with a school's absolute student performance. Schools located in the upper right hand quadrant of each chart show strong results in helping students make learning gains while at the same time helping students achieve strong absolute scores on state assessments. Schools in the lower right hand quadrant show strong absolute scores but lower growth. Because the student growth percentile uses the previous year's scale score as a baseline, it becomes more difficult for a school to maintain strong overall growth scores when students already post high absolute scores.

These charts are produced by comparing growth as measured by the state's student growth percentile to its overall achievement as measured by scale score standardized to the statewide grade level mean over each year for which data are available during the charter term. The growth axis (labeled Mean Growth Percentile) represents the statewide median growth score. The achievement axis (labeled Standardized Mean Scale Score) represents the statewide mean-centered achievement level for each grade served by each school.

ELA AND MATH EFFECT SIZE DOT PLOTS: 2011-12 THROUGH 2015-16

ELA Effect Size by Year and School

Math Effect Size by Year and School

The charts illustrate the comparative Effect Size performance at each school across the ed corp by each year for which data are available throughout the charter term. Schools performing at or above 0.3 are meeting SUNY's benchmark for the measure. Schools performing at or above 0.8 are performing higher than expected to a large degree in comparison to schools enrolling similar levels of economically disadvantaged students.

APPENDIX E: Education Corporation Overview

ELA AND MATH EFFECT SIZE SCATTER PLOTS 2012-13 THROUGH 2013-14

The charts compare a school's ELA and math Effect Sizes over each year for which data are available during the charter term. An effect size measures school performance in comparison to other schools statewide enrolling students with similar proportions of economic disadvantage. Schools with an ELA or math effect size that is less than 0 performed lower than expected based on the economic disadvantage statistic. Schools posting an effect size greater than 0 but less than 0.3 perform about the same as the comparison schools. Schools with an ELA or math effect size greater than 0.3 (SUNY's performance target for the measure) outperformed similar schools statewide to a meaningful degree, while schools with effect sizes greater than 0.8 perform higher than expected to a large degree.

ELA AND MATH EFFECT SIZE SCATTER PLOTS 2014-15 THROUGH 2015-16

The charts compare a school's ELA and math Effect Sizes over each year for which data are available during the charter term. An effect size measures school performance in comparison to other schools statewide enrolling students with similar proportions of economic disadvantage. Schools with an ELA or math effect size that is less than 0 performed lower than expected based on the economic disadvantage statistic. Schools posting an effect size greater than 0 but less than 0.3 perform about the same as the comparison schools. Schools with an ELA or math effect size greater than 0.3 (SUNY's performance target for the measure) outperformed similar schools statewide to a meaningful degree, while schools with effect sizes greater than 0.8 perform higher than expected to a large degree.

APPENDIX E: Education Corporation Overview

ENROLLMENT AND RETENTION TARGETS

The chart illustrates the **current enrollment and retention percentages** against the **enrollment and retention targets** for each operating school in the ed corp. As required by Education Law § 2851(4)(e), a school must include in its renewal application information regarding the efforts it has, and will, put in place to meet or exceed SUNY's enrollment and retention targets for students with disabilities, ELL, and FRPL students. This analysis is based on the 2015-16 enrollment and retention data supplied to the Institute by the network.

APPENDIX E: Education Corporation Overview

Suspensions: Success Academy Charter Schools' out of school suspension rate and the district overall suspension rate.

ALTHOUGH COMMUNITY SCHOOL DISTRICT (“CSD”) AND SCHOOL SUSPENSION RATES ARE PRESENTED ON THE SAME GRAPH, A DIRECT COMPARISON BETWEEN THE RATES IS NOT POSSIBLE BECAUSE AVAILABLE CSD DATA INCLUDES KINDERGARTEN THROUGH 12TH GRADES AND SCHOOL DATA INCLUDES ONLY THE GRADES SERVED BY THE SCHOOL. THE PERCENTAGE RATE SHOWN HERE IS CALCULATED USING THE METHOD EMPLOYED BY THE NEW YORK CITY DEPARTMENT OF EDUCATION: THE TOTAL THE NUMBER OF STUDENTS RECEIVING AN OUT OF SCHOOL SUSPENSION AT ANY TIME DURING THE SCHOOL YEAR IS DIVIDED BY THE TOTAL ENROLLMENT, THEN MULTIPLIED BY 100.

During the school year ending in 2014, Success Academy schools expelled 0 students.

Suspensions: Success Academy Charter Schools' out of school suspension rate and the district overall suspension rate.

ALTHOUGH COMMUNITY SCHOOL DISTRICT (“CSD”) AND SCHOOL SUSPENSION RATES ARE PRESENTED ON THE SAME GRAPH, A DIRECT COMPARISON BETWEEN THE RATES IS NOT POSSIBLE BECAUSE AVAILABLE CSD DATA INCLUDES KINDERGARTEN THROUGH 12TH GRADES AND SCHOOL DATA INCLUDES ONLY THE GRADES SERVED BY THE SCHOOL. During the school year ending in 2015, Success Academy schools expelled 1 student.

APPENDIX E: Education Corporation Overview

Suspensions: Success Academy Charter Schools' out of school suspension rate.

THE PERCENTAGE RATE SHOWN HERE IS CALCULATED USING THE METHOD EMPLOYED BY THE NEW YORK CITY DEPARTMENT OF EDUCATION: THE TOTAL THE NUMBER OF STUDENTS RECEIVING AN OUT OF SCHOOL SUSPENSION AT ANY TIME DURING THE SCHOOL YEAR IS DIVIDED BY THE TOTAL ENROLLMENT, THEN MULTIPLIED BY 100. COMPARISON DATA IS NOT CURRENTLY AVAILABLE FOR 2016.

During the school year ending in 2016, Success Academy schools expelled 0 students.

PERSISTENCE IN ENROLLMENT

2015-16	90.1%
2014-15	89.3%
2013-14	91.0%

Persistence in enrollment illustrates the percentage of students not scheduled to age out of the school who re-enroll from the previous year. The Institute derived the statistical information on enrollment persistence from its database. No comparative data from NYCDOE or NYSED is available to the Institute to provide either district wide or by CSD context. As such, the information presented is for information purposes but does not allow for comparative analysis.

APPENDIX F: Education Corporation Fiscal Dashboard

SUCCESS ACADEMY CHARTER SCHOOLS - NYC (MERGED)

GRAPH 1

Cash, Assets and Liabilities

This chart illustrates the relationship between assets and liabilities and to what extent cash reserves makes up current assets. Ideally for each subset, subsets 2 thru 4, (i.e. current assets vs. current liabilities), the column on the left is taller than the immediate column on the right; and, generally speaking, the bigger that gap, the better.

GRAPH 2

Revenue, Expenses and Net Assets

This chart illustrates total revenue and expenses each year and the relationship those subsets have on the increase/decrease of net assets on a year-to-year basis. Ideally subset 1, revenue, will be taller than subset 2, expenses, and as a result subset 3, net assets - beginning, will increase each year building a more fiscally viable school.

GRAPH 3

Revenue & Expenses Per Pupil

This chart illustrates the breakdown of revenue and expenses on a per pupil basis. Caution should be exercised in making school-by-school comparisons since schools serving different missions or student populations are likely to have substantially different educational cost bases. Comparisons with similar schools with similar dynamics are most valid.

GRAPH 4

Enrollment vs. Operating Expenses

This chart illustrates to what extent the school's operating expenses have followed its student enrollment pattern. A baseline assumption that this data tests is that operating expenses increase with each additional student served. This chart also compares and contrasts growth trends of both, giving insight into what a reasonable expectation might be in terms of economies of scale.

SUCCESS ACADEMY CHARTER SCHOOLS - NYC (MERGED)

Comparable School, Region or Network: New York City & Long Island Schools (Excluding Closed Schools)

* Average = Average - 5 Yrs. OR Charter Term

This chart illustrates the percentage expense breakdown between program services and management & others as well as the percentage of revenues exceeding expenses. Ideally the percentage expense for program services will far exceed that of the management & other expense. The percentage of revenues exceeding expenses should not be negative. Similar caution, as mentioned on GRAPH 3, should be used in comparing schools.

This chart illustrates a school's composite score based on the methodology developed by the United States Department of Education (USDOE) to determine whether private not-for-profit colleges and universities are financially strong enough to participate in federal loan programs. These scores can be valid for observing the fiscal trends of a particular school and used as a tool to compare the results of different schools.

This chart illustrates Working Capital and Debt to Asset Ratios. The Working Capital ratio indicates if a school has enough short-term assets to cover its immediate liabilities/short term debt. The Debt to Asset ratio indicates what proportion of debt a school has relative to its assets. The measure gives an idea to the leverage of the school along with the potential risks the school faces in

This chart illustrates how many months of cash the school has in reserves. This metric is to measure solvency – the school's ability to pay debts and claims as they come due. This gives some idea of how long a school could continue its ongoing operating costs without tapping into some other, non-cash form of financing in the event that revenues were to cease flowing to the school.
