5. For all charter schools in New York City, please also provide one electronic copy of the Annual Report to Dr. Lisa Long at Llong@mail.nysed.gov

Section I

Student Assessment Data

This section refers to the academic achievement of your students on all standardized tests, including all State exams. For the State Assessment results in grades 3 - 8, please provide the percent of students scoring at Levels 1 – 4 on each State Assessment in English Language Arts and Mathematics. For those years in which assessments were not administered in grades 3 and 5 – 7, please leave those cells blank. Longitudinal data are being requested back through the 2005-06 school year. If the school was not in operation during any of the previous years, or if it did not serve students in grades for which there was a State exam, please leave those rows blank or enter “NA.”

You must also provide data for grades 9-12 as well (as applicable).

For all other standardized assessment results, provide the following information for each assessment, by grade, using the chart provided. Complete a separate chart for each subtest. This should also be used to report portfolio assessment data. Please provide:

1. the full name of each assessment (not an acronym). Include portfolios and any performance-based assessment as well;
2. the name of each sub-test that was given (if applicable);
3. the grade of the students being tested;
4. the date the assessment(s) was/were given;
5. the number of students enrolled in the grade on the date the assessment(s) was/were given;
6. the number of students who were absent on the date that the assessment(s) were administered;
7. the number of students who were exempted from such assessment(s) per their IEP;
8. the number of students who were exempted from such assessment(s) as a result of their ELL/LEP status;
9. the number of students who were actually assessed (this figure must equal the number of students in the grade on the date the test was given minus those who were absent or exempted);
10. the score obtained for each grade level (be sure to indicate the type of score being reported, e.g., percentile, normal curve equivalent, percent passing);
11. if applicable, include the qualitative levels of the scores (e.g. percent passing with distinction, percent achieving mastery); and,
12. any other evaluative data that describe the performance of your students on the assessments given.

* This number should equal the number of students enrolled on the day of the test, minus the number absent and the number exempted by either their IEP or their ELL status.

**If the assessment provides qualitative levels of achievement, e.g., “with honors,” indicate the applicable levels and the percent of students who took the test in each grade who attained each level. If not applicable, enter “NA.”

*** For any other evaluative data that describe the performance of your students on the assessments given. If not applicable, enter “NA.”

Progress Toward Goal Attainment

Using the table provided below, state each goal as listed in your approved charter, and provide a narrative that describes the type and amount of progress made toward attaining that goal. Provide specific examples, and indicate the measures that were used to determine such progress. These measures must also be the same as those listed in your approved charter. If the goal has not been met, describe why you think it was not met, and the efforts that you will undertake in the following year to attain it.

Charter schools authorized by the Trustees of the State University of New York may attach a copy of their Accountability Plan and a report of the progress made towards meeting the goals and objectives described in the Plan.

Section II

Charter School Student and Teacher Attrition Rates

Instructions

Separate tables are included for students and teachers. For students, please provide the total **number** who left for the reasons identified in the table. Then provide the highest number of students enrolled during the course. Using that enrollment figure and the total number of students who left during the year (July 1 – June 30), calculate the percent of students who left the school each year (2005-06 through 2008-09). Do not provide averages or FTEs.

For teachers, provide the total number of classroom teachers (e.g., grades K-6, or secondary subject matter classroom teachers). Do not provide FTEs. A part-time teacher is counted as one teacher. If one person teaches more than one subject area, count them once. Also provide the number of special area teachers (e.g., music, technology). Again, count each such teacher only once. Then, provide the total number of teachers who were retained at the end of each school year. For example, if you had seven classroom teachers (e.g., one each K-6) and three special area teachers (for a total of ten teachers), and three were let go (or otherwise decided to not return in 2009-10) at the end of the 2008-09 school year, your teacher attrition rate would be 30 percent.

If you have any questions, please call the Office of Public School Choice Programs at 518-474-1762.

Guidelines for Audits of the Financial Statements of Charter Schools

The New York charter schools act of nineteen hundred ninety-eight requires that a charter school “shall be subject to the financial audits, the audit procedures, and the audit requirements set forth in the charter. Such procedures and standards shall be applied consistent with generally accepted accounting and audit standards. Independent fiscal audits shall be required at least once annually.”

These guidelines are provided to assist charter schools in New York State and their auditors through the annual audit process. The guidelines are also intended to provide some uniformity in the reporting by charter schools and to assist the Board of Regents in meeting its responsibilities for ensuring accountability over public funds and for reporting annually to the Governor and Legislature on the status of charter schools.

Each audit should meet the following minimum standards:

Audit Requirements:

- ❑ An independent and licensed Certified Public Accountant or Public Accountant should perform the audit.
- ❑ The audits should be conducted in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States.
- ❑ If the charter school spends **\$500,000** or more in federal awards during the fiscal year, an independent audit as prescribed in the federal Office of Management and Budget Circular A-133 must also be completed and filed with the federal government and the State Education Department.

Reporting Requirements:

- ❑ The sample format for the financial statements is provided in accordance with Section 2851 of the Education Law.
- ❑ The financial statements should be prepared on the accrual basis of accounting in accordance with generally accepted accounting principles for not-for-profit organizations.
- ❑ All statements required by Financial Accounting Standards Board (FASB) Statement No. 117, *Financial Statements of Not-for-Profit Organizations*, should be presented including a Statement of Financial Position, Statement of Activities and Statement of Cash Flows. Required note disclosures and others that are deemed appropriate should be included.
- ❑ A supplemental schedule of functional expenses, in a format consistent with the attached, should be included and subject to the auditing procedures applied in the audit of the general purpose financial statements. Such supplemental schedule is not a required part of the general purpose financial statements and should be included for the purposes of additional analysis.
- ❑ When applicable, the auditor should prepare and submit a management letter. A copy of the management letter should be submitted with the financial statements along with the school’s corrective action plan to address any weaknesses identified in the report or the management letter.

- Reports (the independent auditor's report on the financial statements, report on compliance, report on internal control over financial reporting, management letter, and federal Single Audit, if applicable) must be submitted in electronic form within 120 days of the end of the charter school fiscal year to the following addresses:

State Education Department
Office of Audit Services

SAMPLE FINANCIAL STATEMENTS

Sample financial statements are provided for illustrative purposes. Charter schools and their auditors should consult applicable standards when determining the specific requirements that apply to their schools. The auditor should not consider these examples to be all-inclusive or a substitute for professional judgment.

The following sample financial statements are attached:

- Statement of Financial Position
- Statement of Activities
- Statement of Cash Flows
- Schedule of Functional Expenses

Explanations are provided below for certain key terms included in the sample financial statements:

Revenue:

Public School District:

Revenue - Resident Student Enrollment - Revenue from public school districts based on resident students attending the charter school and each district's adjusted expense per student or the agreed upon amount per student.

Revenue - Students with Disabilities - Revenue from public school districts for aid attributable to special education services or programs provided by the charter school to a student with a disability enrolled in the charter school.

Other Revenue from Public School Districts - Revenues from public school districts other than those defined above.

State Grants: Report state funded grants or other apportionments received directly from the State of New York.

Federal Grants: Report federal funded grants or other apportionments received directly from the federal government or through the State of New York.

Private Grants: Report privately funded grants or other apportionments received.

Program Service Expenses:

Regular Education: Report instructional activities involving the teaching of students, instructional supervision, developing and utilizing learning materials and related services in the classroom or learning environment.

Special Education: Report instructional activities involving the teaching of students with Individualized Education Programs, or those receiving special education services, instructional supervision, developing and utilizing learning materials and related services in the classroom or learning environment.

Other Program: Services other than instructional provided to students, i.e., community services, health services, food services, athletic services, music and theatre arts, and other student activities.

Supporting Service Expenses:

Management and General: Activities related to the overall management and direction of the school that are not identifiable with a particular program or fundraising activity. Management and general expenses typically include the organization oversight, board expenses, business management, record keeping, budgeting, financing and other administrative activities.

Fundraising: Activities related to publicizing and conducting fund-raising campaigns, maintaining donor mailing lists, conducting special fund-raising events, activities involved in the solicitation of contributions from individuals, foundations, government agencies, etc.

Schedule of Functional Expenses:

The schedule of functional expenses must present, in reasonable detail, the nature of the expenses incurred in each category of program and supporting services reported in the activity statement. The sample schedule shows the typical level of detail expected. Charter schools are encouraged to add additional categories if it will enhance the reader's understanding of the schedule. Likewise, classifications not used, or not material to the school's presentation, may be eliminated.

If not otherwise presented, charter schools employing management companies should obtain and provide in note disclosure a breakdown of contracted services fees in a similar format to the schedule of functional expenses to facilitate comparisons among districts.

Note on Allocation of Expenses: Charter schools must use allocation methods that are fair and reasonable. Such allocation methods, as well as the statistical basis used to calculate allocation percentages, should be documented and retained for review upon audit. Salaries of employees who perform tasks for more than one program must be allocated among all programs for which they work. The cost of supplies that are purchased for distribution among multiple programs must be allocated among these programs if direct charges are not possible. Allocation percentages should be reviewed, at a minimum, on an annual basis and adjusted as necessary.
